War on Sacred Grounds Ron E. Hassner, 2010-12-15 Sacred sites offer believers the possibility of communing with the divine and achieving deeper insight into their faith Yet their spiritual and cultural importance can lead to competition as religious groups seek to exclude rivals from practicing potentially sacrilegious rituals in the hallowed space and wish to assert their own claims Holy places thus create the potential for military theological or political clashes not only between competing religious groups but also between religious groups and secular actors In War on Sacred Grounds Ron E Hassner investigates the causes and properties of conflicts over sites that are both venerated and contested he also proposes potential means for managing these disputes Hassner illustrates a complex and poorly understood political dilemma with accounts of the failures to reach settlement at Temple Mount Haram el Sharif leading to the clashes of 2000 and the competing claims of Hindus and Muslims at Ayodhya which resulted in the destruction of the mosque there in 1992 He also addresses more successful compromises in Jerusalem in 1967 and Mecca in 1979 Sacred sites he contends are particularly prone to conflict because they provide valuable resources for both religious and political actors yet cannot be divided The management of conflicts over sacred sites requires cooperation Hassner suggests between political leaders interested in promoting conflict resolution and religious leaders who can shape the meaning and value that sacred places hold for believers Because a

reconfiguration of sacred space requires a confluence of political will religious authority and a window of opportunity it is relatively rare Drawing on the study of religion and the study of politics in equal measure Hassner s account offers insight into the often violent dynamics that come into play at the places where religion and politics collide *World Religions and Islam* Hamid Naseem Rafiabadi,2003 This Book Is A Collection Of Valuable Articles Written By Eminent Scholars Belonging To Various Religious Denominations And Researchers And Teachers Of Islamic Studies The Book Is Also Meant To Cater The Requirements Of The Students Of Comparative Religions And Islamology
