## **Mysteries Of Identity A Theme In Modern Literature:**

**The Mysteries of Identity** Robert Woodrow Langbaum, 1977 Discusses the problem of identity as a theme in modern literature Most of the book deals with Yeats and Lawrence but also discusses Wordsworth Arnold Eliot and Beckett **The Mysteries of Identity** Robert Woodrow Langbaum, 1965\* **The Mysteries of Identity** Robert Woodrow Langbaum, 1982

**A New Species of Man** Gale C. Schricker, 1982 A critical analysis of the persona in the works of Yeats and of its quest for unity of being Winner of the 1980 Bucknell prize for best manuscript in the field of Contemporary Literary Criticism

The Arnoldian, 1975 **Sixteen Modern American Authors** Jackson R. Bryer, 1990 Praise for the earlier edition Students of modern American literature have for some years turned to *Fifteen Modern American Authors* 1969 as an indispensable guide to significant scholarship and criticism about twentieth century American writers In its new form *Sixteenth Modern American Authors* it will continue to be indispensable If it is not a desk book for all Americanists it is a book to be kept in the forefront of the bibliographical compartment of their brains American Studies **Infant Tongues** Elizabeth Goodenough, Mark A. Heberle, Naomi B. Sokoloff, 1994 Using various critical approaches and disciplines 20 contributors examine the representation of children in literature from the Renaissance to the present The essays cover problems in imitation of speech and dialect uses of narrative voice creative development of child writers and shifting cultural conceptions of childhood illustrating the way children's voices have often been mediated modified or appropriated by adult writers Book News Inc **Eliot, James and the Fictional Self** Richard Freadman, 1986-10-27 *Organising Poetry* David Fairer, 2009-06-11 In this revisionary study of the poetry of Coleridge Wordsworth and their friends during the revolutionary decade David Fairer questions the accepted literary history of the period and the critical vocabulary we use to discuss it The book examines why at a time of radical upheaval when continuities of all kinds personal political social and cultural were being challenged this group of poets explored themes of inheritance retrospect revisiting and recovery *Organising Poetry* charts their struggles to find meaning not through vision and symbol but from connection and dialogue By placing these poets in the context of an eighteenth century organic tradition Fairer moves the emphasis away from the language of idealist Romantic theory towards an empirical stress on how identities are developed and sustained through time Locke's concept of personal identity as a continued organisation partaking of one common life offered not only a model for a reformed British constitution but a way of thinking about the self art and friendship which these poets found valuable The key term therefore is not unity but integrity In this context of a need to sustain and organise diversity and give it meaning the book offers original readings of some well known poems of the 1790s including Wordsworth's *Tintern Abbey* and *The Ruined Cottage* and Coleridge's conversation poems *The Eolian Harp* *This Lime Tree Bower* and *Frost at Midnight* *Organising Poetry* represents an important contribution to current critical debates about the nature of poetic creativity during this period and the need to recognise its more communal and collaborative aspects *Routledge Revivals: D.H. Lawrence (1983)* Thomas Jackson

Rice,2018-02-01 Originally published in 1983 D H Lawrence is an annotated bibliographic collection of works by and about D H Lawrence Consisting of three parts the primary bibliography contains separate bibliographies of Lawrence s major publications of collection editions of his works of his letters and of concordances to his writings The secondary bibliography contains bibliographies of biographical and critical publications concerning Lawrence generally or his individual works Appendixes and Indexes include an extensive checklist of major foreign language publications concerning Lawrence and a useful topical and thematic subject index for the guide      *Towards an Interdisciplinary Perspective on the Life Course* René Levy,Paolo Ghisletta,Jean-Marie Le Goff,Dario Spini,Eric Widmer,2005-11-17 Despite the well established consensus on the need for an interdisciplinary research paradigm to understand the unfolding of human lives within their social context existing empirical research rarely embraces this belief This volume aims at examining the feasibility and hurdles of interdisciplinarity specific to given research fields by bringing together leading North American and European researchers in sociology psychology social psychology and social demography all highly concerned with fostering an interdisciplinary perspective for the study of the human life course The contributions are organized along four major axes three of them substantive agency and structure transitions and biographical re constructions and one methodological methodological innovations leaving ample leeway for the contributions to address the specific gains and difficulties of empirical interdisciplinary research within their particular domain The editors introduce the volume by discussing general features theoretical linkages and transversal substantive themes of interdisciplinarity in life course research Likewise the volume is ended by the editors conclusions based on the contributions they single out major challenges and difficulties for the interdisciplinary study of the life course together with some promising research meant to address such difficulties and improve current knowledge about the life course The volume speaks to both experienced scholars and graduate students of the life course Advanced scholars will benefit from the latest in life course research domains and from a comprehensive overview of life course methodologies Graduate students of the life course will find in the book an original introduction to many empirical aspects of life course research and to the application of innovative methods to various research settings as well as rich bibliographical references from the research literature in English German and French      Victorian Fiction as a Bildungsroman Petru Golban,2019-09-30 Metaphorically speaking the nineteenth century English Bildungsroman dealing with the principle of identity formation parallels Victorian fiction as a whole revealing the completion of its own formation which began in the eighteenth century Significantly the most important and popular Victorian novels are Bildungsromane in which authors construct or rather reconstruct their own life experiences as formative processes This book shows that the Bildungsroman has a development history is a specific literary system and consists of a thematic and narrative pattern It details the entrance of this newly established fictional tradition into Victorian culture and literature through Carlyle s threefold literary reception of the novel of formation and its subsequent flourishing and complexity In this respect a number

of novelistic works are scrutinized and each faces the question as to whether its thematic and narrative perspectives fit the pattern and shape of the Bildungsroman

**The Search for Selfhood in Modern Literature** M. Roston, 2001-09-05 The scientific achievements of the modern world failed to impress the leading writers of this century leaving them instead profoundly disturbed by a sense of lost values and of the insignificance of the individual in a universe seemingly indifferent to human concerns In *The Search for Selfhood in Modern Literature* Roston explores the strategies adopted by such mid century authors as Greene Salinger Osborne Baldwin and others in their attempt to cope with the spiritual vacuity strategies including the emergence of the anti hero and of literary existentialism and offer in the course of the investigation fascinatingly new insights into their work

**Conrad Aiken** Edward Butscher, 2010-06-01 The first of a planned two volume biography *Conrad Aiken Poet of White Horse Vale* follows Aiken s early life from his birth in 1889 to 1925 when he stood on the threshold of both nervous breakdown and poetic success It was then that Aiken began to face his paradoxically idyllic and tragic Savannah childhood and to confront the events of February 27 1901 On that day the eleven year old Aiken heard gunshots punctuate a nightlong argument between his mother and father Running into the next room he discovered his mother murdered and his father dead by suicide Sounding the deep reverberations of those events in Aiken s mind Edward Butscher follows the poet s life and work as he sought to regain in some permanent form the idyll he had lost as a child Butscher tells of Aiken s determined efforts to gain recognition for his verse in the fevered cultural circuits of the early twentieth century from his friendship begun at Harvard with T S Eliot through frustrating excursions into the literary society of England and repeated trips on the poetic trade route from his home in Boston to Chicago and New York to often sharp encounters with such powerful cultural barons as Ezra Pound Amy Lowell and Harriet Monroe Hoping to build his reputation on a series of detached poetic symphonies to keep depression from boiling over into madness and suicide Aiken skirted the border of his deepest memories and fears a border he would cross in the works that lay ahead

**The Ethics of Romanticism** Laurence S. Lockridge, 1989-11-02 Laurence Lockridge argues that a focus on the ethical dimension of literature is the single most powerful strategy for structuring a writer s work as a whole and that it can even prove congenial He gives original interrelated readings of eight major British Romantic writers

**The Geography of Nostalgia** Alastair Bonnett, 2015-08-11 We are familiar with the importance of progress and change But what about loss Across the world from Beijing to Birmingham people are talking about loss about the loss that occurs when populations try to make new lives in new lands as well as the loss of traditions languages and landscapes *The Geography of Nostalgia* is the first study of loss as a global and local phenomenon something that occurs on many different scales and which connects many different people *The Geography of Nostalgia* explores nostalgia as a child of modernity but also as a force that exceeds and challenges modernity The book begins at a global level addressing the place of nostalgia within both global capitalism and anti capitalism In Chapter Two it turns to the contested role of nostalgia in debates about environmentalism and social constructionism

Chapter Three addresses ideas of Asia and India as nostalgic forms The book then turns to more particular and local landscapes the last three chapters explore the yearnings of migrants for distant homelands and the old cities and ancient forests that are threatened by modernity but which modern people see as sites of authenticity and escape The Geography of Nostalgia is a reader friendly text that will appeal to a variety of markets In the university sector it is a student friendly interdisciplinary text that will be welcomed across a broad range of courses including cultural geography post colonial studies landscape and planning sociology and history      The Poetry of Clare, Hopkins, Thomas, and Gurney Andrew Hodgson,2019-12-31 This book attends to four poets John Clare Gerard Manley Hopkins Edward Thomas and Ivor Gurney whose poems are remarkable for their personal directness and distinctiveness It shows how their writing conveys a potentially individual quality of feeling perception and experience each poet responds with unusual commitment to the Romantic idea of art as personal expression The book looks closely at the vitality and intricacy of the poets language the personal candour of their subject matter and their sense obdurate but persuasive of their own strangeness As it traces the tact and imagination with which each of the four writers realises the possibilities of individualism in lyric it affirms the vibrancy of their contributions to nineteenth and twentieth century poetry      **Beckett's Breath** Goudouna Sozita Goudouna,2018-01-15 Examines the intersection of Samuel Beckett s thirty second playlet Breath with the visual arts Samuel Beckett one of the most prominent playwrights of the twentieth century wrote a thirty second playlet for the stage that does not include actors text characters or drama but only stage directions Breath 1969 is the focus and the only theatrical text examined in this study which demonstrates how the piece became emblematic of the interdisciplinary exchanges that occur in Beckett s later writings and of the cross fertilisation of the theatre with the visual arts The book attends to fifty breath related artworks including sculpture painting new media sound art performance art and contextualises Beckett s Breath within the intermedial and high modernist discourse thereby contributing to the expanding field of intermedial Beckett criticism Key Features Examines Beckett s ultimate venture to define the borders between a theatrical performance and purely visual representation Juxtaposes Beckett s Breath with breath related artworks by prominent visual artists who investigate the far reaching potential of the representation of respiration by challenging modernist essentialism The focus on this primary human physiological function and its relation to arts and culture is highly pertinent to studies of human performance the nature of embodiment and its relation to cultural expression Facilitates new intermedial discourses around the nature and aesthetic possibilities of breath the minimum condition of existence at the interface between the visual arts and performance practices and their relation to questions of spectacle objecthood and materiality      D. H. Lawrence Paul Poplawski,1996-06-24 D H Lawrence remains one of the most popular and studied authors of the 20th century This book is a comprehensive but easy to use reference guide to Lawrence s life works and critical reception The volume has been systematically structured to convey a coherent overall sense of Lawrence s achievement and critical reputation but it is also

designed to enable the reader who may be interested in only one aspect of Lawrence's career perhaps even in only one of his novels or stories to find relevant information quickly and easily without having to read other parts of the text. The book begins with an original biography by John Worthen, one of the world's foremost authorities on Lawrence's life and work. The chapters that follow provide separate entries for all of Lawrence's works except for individual poems and paintings, with critical summaries, discussions of characters and details of settings. There is also a complete overview of Lawrence and film, with the most complete listing available of film adaptations of his works and of criticism relating to them. Each section of the book provides comprehensive primary and secondary bibliographical data, including citations for the most recent scholarly studies. Maps and chronologies further trace Lawrence's travels and his development over time.

The Art and Science of Personality Development Dan P. McAdams, 2016-10-26

Drawing on state-of-the-art personality and developmental research, this book presents a new and broadly integrative theory of how people come to be who they are over the life course. Preeminent researcher Dan P. McAdams traces the development of three distinct layers of personality: the social actor who expresses emotional and behavioral traits; the motivated agent who pursues goals and values; and the autobiographical author who constructs a personal story. Highly readable and accessible to scholars and students at all levels, the book uses rich portraits of the lives of famous people to illustrate theoretical concepts and empirical findings.
