Mysterion An Approach To Mystical Spirituality:

Mysterion Richard Woods, 1981 **Christian Mysticism** Harvey D. Egan SJ, 1998-09-16 Christian mysticism is unique in its view of Jesus death and resurrection as the very cause and exemplar of the mystical life in all its purity Jesus saving death on the cross exemplifies the mystical letting go of everything consoling tangible and finite in order to surrender totally to the mystery of the Father's unconditional love In this introduction to Christian mysticism Reverend Harvey Egan S J presents four Christian mystics as paradigms of the classical tradition St Ignatius of Loyola St Teresa of Avila St John of the Cross and the unknown author of the Cloud of Unknowing From this foundation he moves to two contemporary figures Thomas Merton and Pierre Teilhard de Chardin each of whom reflects a contemporary transposition of the two mystical traditions the apophatic which emphasizes the radical difference between God and creatures and the kataphatic which emphasizes the similarity between God and creatures Introduction to the Medieval Mystics of Europe Paul E. Szarmach, 1985-06-30 The European Middle Ages bequeathed to the world a legacy of spiritual and intellectual brilliance that has shaped many of the ideals preconceptions and institutions we now take for granted An Introduction to the Medieval Mystics of Europe examines this phenomenon in vivid and scholarly accounts of the lives and achievements of those men and women whose genius most inspired their own and subsequent ages These great mystics explored and consciously realized the relationship between human life and unconditioned transcendence Representing both the contemplative and scholastic traditions the mystics in these studies often found their solutions to ultimate questions in radically different ways Some of them such as Eckhart Aquinas and Cusa may already be familiar and here the reader will benefit from a new approach and summary of extensive research Others such as Smaragdus and several of the women mystics are little known even to specialists Finally and unusually for a study of European mysticism the influence of Spanish Kabbalists is discussed in relation to the Zohar and two figures from the mystical school of Safed Cordovero and Luria Though the essays focus on individuals the cultural and social implications of their lives and work are never ignored for the mystic way did not exist separately from the rest of medieval life it functioned as an integral part of the whole influencing the development of Christian and Jewish religions in both their internal and external forms **The Liminal and The Luminescent** Terrill L. Gibson, 2021-12-21 Our world is bathed in ongoing biological political cultural climate and spiritual crises that seem endless If anything these disruptions appear to be spiraling into ever larger threat fronts that challenge our survival as a species Carl Gustav Jung renowned Swiss psychiatrist avowed in his archetypal psychology that there is a portal of transforming possibility if we have the courage to enter that doorway That threshold entering demands that we embrace our individual and collective sufferings and then seek the path of meaning and destiny that is always resident deeply at the core of such trauma This book narrates how this destiny is found and lived forward for both each individual life and for our varied human cultures It affirms and gives examples of the deep soul dimension of life that lies under the often chaotic surface the liminal realm of animate and guiding dream vision myth

and spirituality where the gods meet us so that we all can find our mutual way Home This liminal world is navigated through the metaphoric and literalness of pilgrimage performance and political processes in our personal and cultural lives What might be your path of destiny

Mysticism and Morality Richard H. Jones, 2004-01-01 In *Mysticism and Morality* author Richard Jones explores an often neglected question of religious ethics Is mysticism moral Through a discussion of several religious traditions including Hinduism Jainism Buddhism Tantrism Daoism and Christianity Jones fills a major void in the scholarly literature by considering all relevant points pertaining to mysticism Rather than looking at mysticism abstractly the book focuses on such topics as ritual practice and the processes of mystical becoming This work provides new perspectives for those interested in ethics and will prove essential to anyone interested in comparative philosophy and cross cultural studies of religion
