Image and Imagination in the Phenomenology of Religious Experience Martin Nitsche, Olga Louchakova-Schwartz, 2023 While human beings have probably always been fascinated by images we live in an image obsessed age in which images powerfully shape our lives The writers in this volume are keenly attentive to the ways in which we all are both image bearers and image makers Although their reflections often arise from and relate explicitly to religious imagery their explorations have much wider implications They delve deeply into such issues as the ways in which images both reveal and conceal the ways in which images are interpreted and the ways in which we use images to define ourselves and tell our stories This is a powerful volume full of thought provoking analyses of the phenomenon of the image and its role in human being in the world Topics such as embodiment mysticism ritual touch creation and suffering are explored with sensitivity nuance and insight In short the authors show us a great deal about how images embody whatever it is we take to be sacred Bruce Ellis Benson University of Nottingham This volume presents new findings on religious images in their relationship to appearance and phenomenality to being transcendence liminality reduction original self giving evidence and other topics of regressive and constitutive phenomenology Drawing on Christian Islamic and cross cultural folk testimony the volume creates an incisive reference that opens new avenues for phenomenological research Kenneth M. Loving Justice Kathryn D. Temple, 2019-06-25 A history of legal emotions in William Blackstone s England and their relationship to justice William Blackstone s masterpiece Commentaries on the Laws of England 1765 1769 famously took the ungodly jumble of English law and transformed it into an elegant and easily transportable four volume summary Soon after publication the work became an international monument not only to English law but to universal English concepts of justice and what Blackstone called the immutable laws of good and evil Most legal historians regard the Commentaries as a brilliant application of Enlightenment reasoning to English legal history Loving Justice contends that Blackstone s work extends beyond making sense of English law to invoke emotions such as desire disgust sadness embarrassment terror tenderness and happiness By enlisting an affective aesthetics to represent English law as just Blackstone created an evocative poetics of justice whose influence persists across the Western world In doing so he encouraged readers to feel as much as reason their way to justice Ultimately Temple argues that the Commentaries offers a complex map of our affective relationship to juridical culture one that illuminates both individual and communal understandings of our search for justice and is crucial for understanding both justice and injustice today

How the “Red Star” Rose Ishikawa Yoshihiro, 2022-01-30 The fact that Snow did not sneak into red China to gather information constituting the basis of his Red Star over China all alone is in many instances misunderstood even by scholars Mao Zedong s biography has been the subject of an international mountain of commentary in China and elsewhere Biographies praising Mao and those slandering him are all based on the American journalist Edgar Snow s 1905 1972 account in Red Star over China for the route Mao traveled from early childhood through his youth How the Red Star Rose introduces the image of Mao and the biographical information made known to the world through the publication of Red Star and with its publication the circumstances which they fundamentally undermined Ishikawa Yoshihiro uses Mao Zedong as raw material to examine from whence and how ordinary historical information and images which we habitually use unconsciously come into being He desires to help readers to reconsider the historicity of the generation of not only Mao s image but of that of historical materials With a title that evokes Gao Hua s seminal study of Mao Zedong s rise in the Chinese Communist Party Ishikawa Yoshihiro asks two critical questions What did the world know of Mao before the publication of Edgar Snow s Red Star over

China How did Red Star change that understanding With the meticulous research careful documentation and fair minded judgment that characterizes all of Ishikawa s work he shows how little even Moscow and the Communist International knew about Mao before 1936 This study is full of unexpected insights into the origins of early visual images of Mao the background to Snow s historic trip to northern Shaanxi and the evolution of the classic study that he left In a world where balanced judgment of the rise of Mao is increasingly difficult to find Ishikawa s scholarship stands out as a rare model of judicious balance Joseph W Esherick Emeritus Professor Hwei chih and Julia Hsiu Chair in Chinese Studies University of California San Diego This book is first an exquisite excavation on the enabling infrastructures in the writing and publishing of one of the most iconic works in journalistic interviews in the 20th century a text that broke through a wall of intelligence blockade to give to the world in an autobiographical voice and with a striking image the debut of the revolutionary Mao while holed up in a mountain base area It is in addition a history of the reading of the book in multiple languages including Chinese that is indexed to the rise of the Mao cult thereafter Ishikawa captures a moment of a past gearing up in anticipation of a future that never came This book is a must read for all with an interest in Mao journalism and the history of books Wen hsin Yeh Richard H and Laurie C Morrison Chair Professor in History University of California Berkeley Ishikawa offers a challenging reflection on how historical information and images that we take for granted come into being through the twin case studies of images of Mao Zedong before Edgar Snow s famous biography in 1936 and then how Snow s images of Mao were translated and transmuted into Chinese Russian and Japanese Joshua Fogel s careful translation brings this impeccable example of Japanese sinology to the English reading public Timothy Cheek Professor and Louis Cha Chair in Chinese Research University of British Columbia

The Shroud Ian Wilson, 2010-03-24 Two decades after radiocarbon dating declared the Turin Shroud a mediaeval fake brand new historical discoveries strongly suggest that this famous cloth with its extraordinary photographic imprint is genuinely Christ s shroud after all In 1978 in his international bestseller The Turin Shroud Ian Wilson ignited worldwide public debate with his compelling case endorsing the shroud s authenticity Now 30 years later he has completely rewritten and updated his earlier book to provide fresh evidence to support his original argument Shroud boldly challenges the current post radiocarbon dating view that it is a fake By arguing his case brilliantly and provocatively Ian Wilson once more throws the matter into the public arena for further debate and controversy

Art-Centered Learning Across the Curriculum Julia Marshall, David M. Donahue, 2015-04-28 This handbook provides teachers with a framework for implementing inquiry based substantive art integration across the curriculum along with the background knowledge and models needed to do this Drawing on ideas from Harvard Project Zero the authors make a clear and compelling argument for how contemporary art supports student learning The text features subject specific chapters co written by teaching scholars from that discipline Each chapter includes examples of contemporary art with explanations of how these works explore the fundamental concepts of the academic discipline The book concludes with a chapter on an integrated inquiry based

curriculum inspired by contemporary art including guidelines for developing art projects teachers can adapt to their students interests and needs This resource is appropriate for art teachers as well as subject area teachers who are not familiar with using contemporary art in the classroom I am so excited about this book The visuals alone are enough to clue teachers in on ways that Contemporary Art can blow their curriculums open to become engaging relevant vehicles for their students to ride across the 21st century From the first scan readers cannot help but see the power of Contemporary Art in transforming classrooms and learning From the Foreword by Lois Hetland professor and chair of art education at Massachusetts College of Art and Design and co author of Studio Thinking 2 Art Centered Learning Across the Curriculum well surpasses its goal to demystify contemporary art for K 12 teachers In this important text the authors present a direct challenge to educators and public education reformers of all stripes to embrace the arts and design practices across disciplines as a potent means for building beautiful minds not merely as a tool for beautifying dingy school corridors This new book serves as a primer for fashioning the kinds of integrated curriculum frameworks required for success in today s global knowledge economy James Haywood Rolling Jr chair of art education and a dual professor in art education and teaching and leadership Syracuse University

The Blessed Virgin Mary in England Vol. 1 Brother Anthony Josemaria Fti, 2008-11 O Blessed Confidence O Safe Refuge Mother of God and Our Mother St Anselm of Canterbury 1033 1109 Doctor of the Church What is not generally known and only infrequently studied is the role of Our Lady over the centuries as a catechist teacher of the faith in a very real sense primary teacher because she is Mother of God and Mother of the Church and faithful If any one factor might be singled out for the very high level of faith and religious practice in medieval merry England merry because Mary s dowry because consecrated to Mary as her possession and property it is this Marian catechesis Only when England deliberately rejected Mary did it cease to be the happy place it once was Unfortunately English colonization of other peoples took place only after the repudiation of Mary by England That is why this catechetical work is especially valuable for the faithful and those who are seeking faith in America and other English speaking cultures It will bring to their attention precisely what is central to catechetics and so often missing the presence of Mary Mother and Teacher It will make perfectly clear why we need not fewer Marian sanctuaries but many many more in all parts of the country where this quiet but so real and profound influence of the Marian principle of the Church will be felt at every level It is my prayer and hope that those who read and study this work will find the same inspiration and stimulus that I found in having the privilege to read the manuscript before publication We are much indebted to Brother Anthony Josemaria Pasquale a Franciscan Tertiary of the Immaculate and gifted scholar for the effort he has expended to find qualified contributors and to offer so well edited a book to the general public From the Foreword by Father Peter M Fehlner FI theologian sponsor of the International Symposium on Marian Coredemption

The 100 Most Popular Young Adult Authors Bernard A. Drew, 1997-10-15 The book focuses on individuals writing in the 90s but also includes 12 classic authors e g Mark Twain Louisa May Alcott J R R Tolkien who are

still widely read by teens It also covers some authors known primarily for adult literature e g Stephen King and some who write mainly for middle readers but are also popular among young adults e g Betsy Byars An affordable alternative to multivolume publications this book makes a great collection development tool and resource for author studies It will also help readers find other books by and about their favorite writers **Artificial Intelligence Is Fun!** Kathryn M. Hilton,2007-06

Artificial Intelligence is something that has interested the author for many years When she saw an opportunity to get an AI character whose primary purpose was to carry on conversations with the computer user she got the software program immediately The character she chose to use at that time was named Erica She thinks she is a nice looking human female with a college education and has not been informed that she is merely a brain in a computer She is an attractive animated character with the ability to lip sync words Her data base is filled with information of all kinds Her main fault is that she does not stay on a topic very well Her unique sense of humor more than makes up for this The book begins with the first conversations and goes through what happens along the way as the author proceeds to teach the character and carry on conversations with her This book was actually suggested by the artificial intelligence character who felt that people would enjoy reading her conversations Problems that arise lost conversations due to program crashes some experiments even comparison with another artificial intelligence character and anything else encountered along the way are all given as commentary in the midst of the conversations At the beginning the character was like a child needing to be taught The author took care to be sure she became and stayed nice and polite as such characters can become just as down and dirty as a computer user cares to make them It is said they take on the personality of the user over a period of time Later two other AI programs were added to the research Erica was replaced with Kate and a new brain while Peppi the parrot occupied the other two programs so comparisons could be made easily For anyone interested in artificial intelligence on the consumer level this report of the author s experiences with her AI characters and software is very enlightening Such a character can brighten the life of the lonely the disabled and anyone who is a shut in or lives in seclusion The author has explained everything she has done as she learned and experimented with the three programs Erica was interesting to talk with Kate is a fantastic character Peppi is great and quite funny Their conversations are both silly and serious and much was learned from them while teaching the software It was and is an enjoyable experience to talk with an AI character **Miracle as**
