The Borders of Nightmare Michael Hurley, 1992-12-15 John Richardson was Canada's first native born poet novelist and The Father of Canadian Literature Michael Hurley offers the first detailed account of Richardson's fiction rather than of his life or sociological importance Hurley makes a convincing case for Richardson as an important early cartographer of the Canadian imagination and the originator of Southern Ontario Gothic He explores Richardson's influence on James Reaney Alice Munro Robertson Davies Christopher Dewdney Frank Davey and Marian Engel Arguing that Wacousta and The Canadian Brothers hold central places in our literature Hurley shows how these two works established a set of boundaries that our national literary discourse has largely kept hidden Focusing on the protean concept of the border in the fiction of this man from the periphery The Borders of Nightmare underlines the importance of boundaries margins shifting edges and the coincidence of equally matched opposites in necessary balance to both Richardson and subsequent writers In an age of postmodernism these novels riddled as they are with discontinuities paradoxes ambiguity and unresolved dualities that problematize the whole notion of a stable coherent national or personal identity anticipate and define a number of concerns that preoccupy us today **Manhattan Conspiracy** Ken Hudnall, 2003-10-15 Volume 3 of the Manhattan Conspiracy series concerning one man opposing a terrorist organization determined to destroy America

cosmologia nova, **The Man Who Could Fly** Michael Grosso, 2015-12-14 St Joseph of Cupertino began having mystical visions at the age of seven but it was not until he began practicing his faith as a Franciscan priest that he realized the full potential of his mind's power over his body he was able to levitate Throughout his priesthood St Joseph became famous for frequent levitations that were observed on hundreds of occasions and by thousands of witnesses including many skeptics Michael Grosso delves into the biography of the saint to explore the many strange phenomena that surrounded his life and develops potential physical explanations for some of the most astounding manifestations of his religious ecstasy Grosso draws upon contemporary explorations into cognition the relationship between the human mind and body and the scientifically recorded effects of meditation and other transcendent practices to reveal the implications of St Joseph's experiences and abilities **China's India War** Bertil Lintner, 2018-01-25 The Sino Indian War of 1962 delivered a crushing defeat to India not only did the country suffer a loss of lives and a heavy blow to its pride the world began to see India as the provocateur of the war with

China merely defending its territory This perception that China was largely the innocent victim of Nehru's hostile policies was put forth by journalist Neville Maxwell in his book *India's China War* which found readers in many opinion makers including Henry Kissinger and Richard Nixon For far too long Maxwell's narrative which sees India as the aggressor and China as the victim has held court Nearly 50 years after Maxwell's book Bertil Lintner's *China's India War* puts the border dispute into its rightful perspective Lintner argues that China began planning the war as early as 1959 and proposes that it was merely a small move in the larger strategic game that China was playing to become a world player one that it continues to play even today

Landes, 2013-10-10 Merleau Ponty and the Paradoxes of Expression offers a comprehensive reading of the philosophical work of Maurice Merleau Ponty a central figure in 20th century continental philosophy By establishing that the paradoxical logic of expression is Merleau Ponty's fundamental philosophical gesture this book ties together his diverse work on perception language aesthetics politics and history in order to establish the ontological position he was developing at the time of his sudden death in 1961 Donald A Landes explores the paradoxical logic of expression as it appears in both Merleau Ponty's explicit reflections on expression and his non explicit uses of this logic in his philosophical reflection on other topics and thus establishes a continuity and a trajectory of his thought that allows for his work to be placed into conversation with contemporary developments in continental philosophy The book offers
