*Taking the Fear and Mystery Out of Cancer and Other Chronic Diseases* Lyn M. Sinclair,2017-01-21 This is a story which began as a courageous decision to choose the unsupported path of alternative healing for breast cancer and a parathyroid tumor simultaneously The journey evolved into a powerful life lesson about the political financial medical emotional and physical ramifications of the challenges facing me The desire and efforts to restore my health to normal was intensely rivaled by the unfair circumstances adding an extra burden of stress to the process After months of researching and experiencing a variety of options available to me I achieved success in a way that seemed impossible As I reflected on everything I learned during the intense six months of devoting all my time and attention to achieving my goals I realized my story had become an interesting tapestry of information worth sharing with others My original desire was to offer a successful testimony and details about how I achieved healing Then I realized my lessons gave me a whole new perspective on what it means to be living in a society where healthcare is governed by a controlling monopoly My story became an exercise in free speech to shed light on the unfair disadvantages and challenges one experiences by refusing to be subjected to a one sided medical paradigm In addition to sharing that it is entirely possible to heal root causes of disease without harmful side effects I give testimony to the treatments I experienced which could easily be part of our mainstream supported health care for everyone

*The Conquest of Disease* David Masters,1925 **Man and Microbes** Arno Karlen,1996-05-22 A noted medical historian places recent outbreaks of deadly diseases in historical perspective with accounts of other alarming and recurring diseases throughout history and of the ways in which humans have adapted Reprint 17 500 first printing
