**Ancient Ocean Crossings** Stephen C. Jett,2017-06-06 Paints a compelling picture of impressive pre Columbian cultures and Old World civilizations that contrary to many prevailing notions were not isolated from one another In Ancient Ocean Crossings Reconsidering the Case for Contacts with the Pre Columbian Americas Stephen Jett encourages readers to reevaluate the common belief that there was no significant interchange between the chiefdoms and civilizations of Eurasia and Africa and peoples who occupied the alleged terra incognita beyond the great oceans More than a hundred centuries separate the time that Ice Age hunters are conventionally thought to have crossed a land bridge from Asia into North America and the arrival of Columbus in the Bahamas in 1492 Traditional belief has long held that earth s two hemispheres were essentially cut off from one another as a result of the post Pleistocene meltwater fed rising oceans that covered that bridge The oceans along with arctic climates and daunting terrestrial distances formed impermeable barriers to interhemispheric communication This viewpoint implies that the cultures of the Old World and those of the

Americas developed independently Drawing on abundant and concrete evidence to support his theory for significant pre Columbian contacts Jett suggests that many ancient peoples had both the seafaring capabilities and the motives to cross the oceans and in fact did so repeatedly and with great impact His deep and broad work synthesizes information and ideas from archaeology geography linguistics climatology oceanography ethnobotany genetics medicine and the history of navigation and seafaring making an innovative and persuasive multidisciplinary case for a new understanding of human societies and their diffuse but interconnected development The Middle Ages Susan Wise Bauer,2004-05-31 Presents a history of the ancient world from 6000 B C to 400 A D **Mystery and Manners** Flannery O'Connor,1969 At her death in 1964 O Connor left behind a body of unpublished essays and lectures as well as a number of critical articles that had appeared in scattered publications during her too short lifetime The keen writings comprising **Mystery and Manners** selected and edited by O Connor s lifelong friends Sally and Robert Fitzgerald are characterized by the directness and simplicity of the author s style a fine tuned wit understated perspicacity and profound faith The book opens with *The King of the Birds* her famous account of raising peacocks at her home in Milledgeville Georgia Also included are three essays on regional writing including *The Fiction Writer and His Country* and *Some Aspects of the Grotesque in Southern Fiction* two pieces on teaching literature including *Total Effect* and *the 8th Grade* and four articles concerning the writer and religion including *The Catholic Novel* in the Protestant South Essays such as *The Nature and Aim of Fiction* and *Writing Short Stories* are widely seen as gems This bold and brilliant essay collection is a must for all readers writers and students of contemporary American literature
