But when a beautiful young woman dies moments after finishing dessert, Faith is suddenly in serious trouble. Not only is her business in jeopardy but Aleford's wagging tongues are suggesting that Faith herself laced the goodie with cyanide, having discovered her husband Tom's perhaps overly pastoral interest in the victim. Faith's world feels steeped in poison and never before have her amateur sleuthing skills been more crucial, especially when another body is found in the moonlight carrying an unmistakable warning you're next. [Serious Moonlight](#) Jenn Bennett, 2019-04-16 An atmospheric multilayered sex-positive romance. Kirkus Reviews starred review. After an awkward first encounter, Birdie and Daniel are forced to work together in a Seattle hotel where a famous author leads a mysterious and secluded life. In this romantic contemporary novel from the author of *Alex Approximately*, Mystery book aficionado Birdie Lindberg has an overactive imagination. Raised in isolation and homeschooled by strict grandparents, she's cultivated a whimsical fantasy life in which she plays the heroic detective and every stranger is a suspect. But her solitary world expands when she takes a job the summer before college working the graveyard shift at a historic Seattle hotel. In her new job, Birdie hopes to blossom from introverted dreamer to brave pioneer and gregarious. Daniel Aoki volunteers to be her guide. The hotel's charismatic young van driver shares the same nocturnal shift and patronizes the waterfront Moonlight Diner where Birdie waits for the early morning ferry after work. Daniel also shares her appetite for intrigue and he's stumbled upon a real-life mystery: a famous reclusive writer never before seen in public might be secretly meeting someone at the hotel. To uncover the writer's puzzling identity, Birdie must come out of her shell, discovering that the most confounding mystery of all may be her growing feelings for the elusive riddle that is Daniel. **The Last Word** Justin Gautreau, 2021 *The Last Word* argues that the Hollywood novel opened up space for cultural critique of the film industry at a time when the industry lacked the capacity to critique itself. While the young studio system worked tirelessly to burnish its public image in the wake of celebrity scandal, several industry insiders wrote fiction to fill in what newspapers and fan magazines left out. Throughout the 1920s and 1930s, these novels aimed to expose the invisible machinery of classical Hollywood cinema, including not only the evolving artifice of the screen but also the promotional discourse that complemented it. As likeminded filmmakers in the 1940s and 1950s gradually brought the dark side of the industry to the screen, however, the Hollywood novel found itself struggling to live up to its original promise of delivering the unfilmable. By the 1960s, desperate to remain relevant, the genre had devolved into little more than erotic fantasy of movie stars behind closed doors, perhaps the only thing the public couldn't already find elsewhere. Still, given their unique ability to speak beyond

the institutional restraints of their time these earlier works offer a window into the industry s dynamic creation and re creation of itself in the public imagination **The Man in the Moonlight** Helen McCloy,2014-10-14 In the second case featuring psychiatrist sleuth Basil Willing he is called to a university campus to help investigate the death of a scientist It looks like suicide but with local scandal aplenty more murders in the mix and a dose of Nazi espionage all may not be as it appears *Star-dust* Eliza R. M. Birdsall,1860
