

The image is a title screen for a game called "Mystery Museum". The background is a dark, atmospheric museum interior. In the center, a large, ornate, red and blue mask with glowing yellow eyes and a wide, toothy grin is mounted on a wall. Above the mask is a small, golden, winged figure. To the left of the mask is a large, white, winged statue of a figure. To the right is a tall, dark, stylized statue. In the foreground, a small black cat is walking on a checkered floor. The title "MYSTERY MUSEUM" is displayed in a large, stylized, 3D font with a blue and yellow gradient. The word "MYSTERY" is on the top line and "MUSEUM" is on the bottom line. The letter "M" is particularly large and stylized, with a blue and yellow gradient. The overall lighting is dim, with light coming from windows in the background.

**Curious Lessons in the Museum** Claire Robins, 2016-05-13 Amongst recent contemporary art and museological publications there have been relatively few which direct attention to the distinct contributions that twentieth and twenty first century artists have made to gallery and museum interpretation practices There are fewer still that recognise the pedagogic potential of interventionist artworks in galleries and museums This book fills that gap and demonstrates how artists have been making curious but none the less useful contributions to museum education and curation for some time Claire Robins investigates in depth the phenomenon of artists' interventions in museums and examines their pedagogic implications She also brings to light and seeks to resolve many of the contradictions surrounding artists' interventions where on the one hand contemporary artists have been accused of alienating audiences and on the other appear to have played a significant role in orchestrating positive developments to the way that learning is defined and configured in museums She examines the disruptive and parodic strategies that artists have employed and argues for that they can be understood as part of a move to re-establish the museum as a discursive forum This valuable book will be essential reading for students and scholars of museum studies as well as art and cultural studies

**Museums in the Digital Age** Susana Smith Bautista, 2013-11-26 Museums in the Digital Age Changing Meanings of Place Community and Culture showcases how the use of technology in museums should be understood as factors directly related to the museums' notion of community local culture and place whether these places are in mid America urban metropolises or ethnically diverse and underserved communities Here museum expert Susana Smith Bautista brings more than twenty years of experience in cultural institutes in Los Angeles New York and Greece to propose a social understanding of why museums should be adopting technology and how it should be adapted based on their particular missions communities and places This

book is timely because we are in the midst of the digital age which is rapidly changing due to rapidly changing developments in technology and society as well with social adaptations of technology Theory is always racing to catch up with practice in the digital age but theory remains a critical and often neglected component to accompany the practical application of technology in museums In order to illustrate these points the book presents five case studies of the most technologically advanced art museums in the United States today The Indianapolis Museum of ArtThe Walker Art CenterThe San Francisco Museum of Modern ArtThe Museum of Modern ArtThe Brooklyn Museum Each case study ends with a Lessons Learned section to bring these points home While the case studies focus on museums in the United States and also on art museums this book is relevant to all types of museums and to museums all over the world as they equally face the challenge of incorporating technology into their institutions Although these case studies are all well established and well endowed museums Bautista reveals valuable insight into the difficulties they face and the questions they are asking which are relevant to even the smallest museum or community cultural center
