**Mutuality, Mystery, and Mentorship in Higher Education** Mary Jo Hinsdale,2015-03-17 This book is for higher education faculty and staff who wish to deepen their approach to mentoring all students but it is especially concerned with outsider students those who come from groups that were long excluded from higher education and who have been marginalized and minoritized by society and academia Mentoring is difficult work for an abundance of reasons and given higher education s troubled history of exclusion as well as a contemporary context fraught with social and power imbalances it can be especially challenging when the mentorship takes place across dimensions of difference such as social class race ethnicity sexuality gender or ability *Mutuality Mystery and Mentorship in Higher Education* examines the seemingly spontaneous and serendipitous connection between mentor and prot g and points to a new vision of mentorship based on a deep sense of reciprocity between the two Hinsdale proposes that if more mentors take a responsive decolonizing approach to their work across difference then the promise of social and class mobility through education might be realized for more of our students and the tide might begin to turn toward an increasingly inclusive intellectually open academy
