Here however in a selection from his two books of essays we see just how incisive a critic and memoirist he can be. Not only including a generous portion of Fosse's writing on literature and theater including the irresistible Thomas Bernhard and His Grandfather this collection also includes such personal essays such as My Dear New Norwegian Old Houses and He Who Didn't Want to Become a Teacher.

Buddhism and Postmodernity Jin Y. Park, 2010-10-28 Buddhism and Postmodernity is a response to some of the questions that have emerged in the process of Buddhism's encounters with modernity and the West. Jin Y. Park broadly outlines these questions as follows: first why are the interpretations and evaluations of Buddhism so different in Europe in the nineteenth century in the United States in the twentieth century and in traditional Asia; second why does Zen Buddhism which offers a radically egalitarian vision maintain a strongly authoritarian leadership; and third what ethical paradigm can be drawn from the Buddhist postmodern form of philosophy. Park argues that as unrelated as these questions may seem the issues that have generated them are related to perennial philosophical themes of identity institutional power and ethics respectively. Each of these themes constitutes one section of Buddhism and Postmodernity. Park discusses the three issues in the book through the exploration of the Buddhist concepts of self and others language and thinking and universality and particularities. Most of this discussion is drawn from the East Asian Buddhist traditions of Zen and Huayan Buddhism in connection with the Continental philosophies of postmodernism hermeneutics and deconstruction. Self-critical from both the Buddhist and Western philosophical perspectives Buddhism and Postmodernity points the reader toward a new understanding of Buddhist philosophy and offers a Buddhist postmodern ethical paradigm that challenges normative ethics of metaphysical traditions.

Stage Matters Annalisa Castaldo, Rhonda Knight, 2018-03-13 The collection edited by Annalisa Castaldo and Rhonda Knight features essays by scholars interested in exploring how the material culture

of sixteenth and early seventeenth English theatrical culture influenced the creation and presentation of drama and how understanding this culture can enrich scholars current interactions with these plays as well as offer insights to actors and directors The essays include discussions of plays by Shakespeare Marlowe and Middleton as well as lesser known works and playwrights This collection is unique in that it includes the body of the actor as a material object that is encountered and manipulated by other actors on the stage These essays demonstrate how props bodies and the architectural dimensions of early modern stages have both practical and symbolic registers

Stage Movement Dynamics explores how movement blocking and spatial arrangements on stage create meaning in theater often independently of dialogue This book argues that these elements form a visual language conveying emotions relationships and narrative information through the actor s body and the stage itself For instance the depth and width of a stage can significantly influence how an audience perceives a scene while an actor s posture and gestures contribute to character development The book examines both the semiotics of space how the stage s physical dimensions impact storytelling and the kinetic language of actors including their gestures and use of personal space Structured in three parts it begins with fundamental principles then delves into specific techniques using case studies from classic and contemporary plays The final section synthesizes theory and practice offering frameworks for analyzing stage movement and proposing new directing and performance approaches This unique approach integrates theory with practical application making it valuable for students and professionals alike By analyzing script examples production photos and interviews with directors and actors Stage Movement Dynamics offers a comprehensive understanding of stage movement bridging performance studies semiotics and spatial theory
