Pender,2018-05-08 This book examines the status of women in different eras and in different areas of society The contributors draw on their international experience to consider how women are viewed and treated in society today and offer perspectives on why the status of women and girls has not changed in some areas *The Discipline of Inspiration* Carey Wallace,2025-01-02 Learn where inspiration comes from and how to harness it in your life and work We all know the sensation of inspiration It's what tells a painter what to paint and a singer how to sing and what prompts us to throw a new spice into an old recipe But what is inspiration When we train artists we typically identify them by their talent and train them in technique We talk very little about the crucial creative spark of inspiration Where does it come from What does it want from us How can we get more of it In *The Discipline of Inspiration* Carey Wallace meditates on this vital spark and on the ways artists have negotiated with it across genres and throughout history She also offers practical methods including silence community and rest to help everyone access more inspiration more often Artists will develop a fresh perspective on inspiration and learn new tools for their creative practice And readers from all walks of life will discover the transformative power of inspiration in every aspect of their lives *The Violence Within/the Violence Without* Jacqueline Vaught Brogan,2003 Wallace Stevens 1879 1955 one of the leading poets of the twentieth century

continues to influence a wide range of poets writing today However an image persists of Stevens as an aesthete who was politically removed from his times and who also exhibited sexist and racist tendencies Jacqueline Vaught Brogan offers careful readings from across the Stevens canon to demonstrate that contrary to such enduring earlier assessments Stevens's work over the years shows poetic and political changes that merge with his growing ethical concerns Brogan traces Stevens's evolving poetic practices along three major lines that often intersected She situates the beginnings of Stevens's development within his early resistance to the pressures of reality on the imagination an artistic stand that pitted him against the objective poetry exemplified in the work of William Carlos Williams Then in the midst of Stevens's career World War II moved him forward with new poetic responsibilities both to witness the current world and to guide readers into their future The emergence of an almost feminist vision defines Stevens's third line of development Finally in addition to identifying these developmental stages Brogan addresses the undercurrent of race throughout Stevens's work According to Brogan Stevens not only changed but matured over time What began as an aesthetic violence within or a girding against such violence without as social unrest and war rapidly evolved during Stevens's middle years into a set of perceptions and practices increasingly responsive to his times
