Mystical Consciousness:

Mystical Consciousness Louis Roy, O.P., 2012-02-01 This book offers a philosophical account of ordinary consciousness as a step toward understanding mystical consciousness Presupposing a living interaction between meditation and thinking the work draws on Western and Japanese thinkers to develop a philosophy of religion that is friendly to the experience of meditators and that can explore such themes as emptiness nothingness and the self Western thinkers considered include Plotinus Eckhart Schleiermacher Heidegger Brentano Husserl Sartre and Lonergan and Japanese thinkers referenced include Nishitani Hisamatsu and Suzuki All employed centering prayer Zen or other forms of mental concentration Particular emphasis is placed on the work of twentieth century Catholic philosopher Bernard Lonergan whose writings on consciousness can inform an understanding of mysticism *Psychology of Mystical Consciousness* Carl Albrecht, 2019-05 Carl Albrecht *Psychology of Mystical Consciousness* is the first English translation of the ground breaking study by the German medical doctor psychotherapist and mystic Carl Albrecht 1902 1965 first published in 1951 as *Psychologie des Mystischen Bewusstseins* The book reprinted in Germany in 1976 1990 and 2018 has remained untranslated to date and is now made available to international scholarship in an annotated English edition The book offers the results of Albrecht's meticulous long term empirical research into mystical consciousness Albrecht's results are unique in that they derive from a pioneering methodological approach based on Autogenic Training which enabled a practitioner to verbalize spontaneously what he/she is experiencing while immersed in an altered state of consciousness These spontaneous utterances of mystical and non mystical experience were concurrently recorded by Albrecht supplemented by his own utterances recorded by a confidante and provided him with invaluable empirical data for his detailed phenomenological analyses The outcome was a most comprehensive systematic psychological phenomenology of mystical consciousness informed by long term empirical research which is unique as regards authenticity immediacy and scope Unlike other empirical studies in this field which are either based on records of mystical experience retrieved retrospectively or derived from behaviorist research or both Albrecht's empirical data originate from immediate not rationally mediated verbal testimonies spoken by subjects while transported into a mystical state in addition to records of great mystics from Eastern and Western mystical traditions *Psychology of Mystical Consciousness* is now accessible to English speaking scholars and scientists world wide and will surely provide a new impetus to interdisciplinary enquiries into mysticism and the spiritual nature of man *Awakening Mystical Consciousness* Joel S. Goldsmith, 1980 **Contemplation** Helen Brungardt, 1975 **Living as Light** Brent M. Baum, 2006 *Beyond Belief* Peter Spink, 1996 **Contemplation and Freedom** Benedict R. Shoup, Mary Frohlich, 2025-04-22 How does prayer shape action How does sustained engagement in deep prayer shape our very freedom to act This volume explores the relationship between Christian contemplative prayer and the exercise of freedom Over the past half century the desire for a better integration of spirituality and theology has emerged as a significant theme in

theological writing While the question of freedom has not been absent from this discourse this volume highlights it by bringing it to the very center of the conversation Eleven theologians explore the dialectical relationship between contemplation and freedom by engaging with a wide array of sources ranging from Maximus the Confessor to Edith Stein from Howard Thurman to Bernard Lonergan from the Tiberian martyrs to M Shawn Copeland This symphony of voices unveils the methodological fruitfulness of placing contemplative prayer at the center of life theory and practice

African American Female Mysticism Joy R. Bostic, 2013-11-18 African American Female Mysticism Nineteenth Century Religious Activism is an important book length treatment of African American female mysticism The primary subjects of this book are three icons of black female spirituality and religious activism Jarena Lee Sojourner Truth and Rebecca Cox Jackson

Christian Mysticism's Queer Flame Michael Bernard Kelly, 2018-09-03 Is the Christian mystical tradition a relic of another time shaped by celibates for celibates unable to engage meaningfully with people of our time who embrace their corporeality and sexuality as crucial aspects of their journey towards union with God This book reflects in serious theological depth and detail on the spiritual and sexual journeys of gay men of mature and committed Christian faith employing the Christian mystical tradition as the lens and the interlocutor in this process This study examines the major themes and stages of the mystical tradition as outlined by Evelyn Underhill but also including more recent work by Ruth Burrows Thomas Merton and Constance Fitzgerald Using methods of qualitative research it then considers the texts of in depth interviews conducted with men most of whom are theologians or spiritual leaders with a deep Catholic faith and all of whom are openly self affirmingly gay Finally it employs Ricoeur's hermeneutical theory to engage in a creative theological conversation between the traditional mystical stages and themes and these men's lives as described in their interviews This is a unique study that brings together ancient spirituality with contemporary lived religion As such it will be of interest to scholars of religious studies theology Christian mysticism and spirituality and queer studies It will be of particular interest to those teach spiritual direction and to all who seek new ways to engage with the spiritual lives of LGBTIQ people

The Mystic Quest David S. Ariel, 1977-07-07 The Mystic Quest explains the major ideas and concepts of Jewish mystical thought in a way that the general reader can clearly understand Drawing upon his own extensive research as well as on the growing body of scholarly material on the subject Dr David Ariel president of the Cleveland College of Jewish Studies presents the extremely difficult and complex elements of Jewish mysticism in language that makes it accessible to the layperson Jewish mysticism is as old as the Bible itself It is a rich and subtle web of secret teachings and practices that has been part of Judaism since antiquity and has sought to keep the original spark of religious experience alive through the centuries It is the relatively unknown esoteric dimension of Judaism that has nourished a deep spiritual power within a tradition of law ritual and observance A central element in Judaism the mystic quest has shaped both Judaism and Jews throughout history generating the kabbalistic tradition and Hasidism which

continue to thrive today As Ariel says This book is concerned primarily with the development and meaning of the Kabbalah the principal tradition of mystical Jewish thought The Mystic Quest begins with an examination of the variety of phenomena known in different cultures as mysticism Ariel then located the Jewish mystical tradition within the context of Jewish history and traces its evolution throughout the ages Jewish mystical theories about the hidden and revealed God the feminine aspects of divinity the mystical Torah and the concepts of the soul and human destiny are then explored in detail Finally the author considers Hasidism and modern Jewish mystical thought discussing the role of mysticism in contemporary Judaism In language accessible to the beginner yet sophisticated enough to captivate the advanced student The Mystic Quest fills an important gap in our knowledge of mysticism by bringing a comprehensive and fresh understanding of the subject to a new generation of

Mysticism and Morality Richard H. Jones, 2004-01-01 In *Mysticism and Morality* author Richard Jones explores an often neglected question of religious ethics Is mysticism moral Through a discussion of several religious traditions including Hinduism Jainism Buddhism Tantrism Daoism and Christianity Jones fills a major void in the scholarly literature by considering all relevant points pertaining to mysticism Rather than looking at mysticism abstractly the book focuses on such topics as ritual practice and the processes of mystical becoming This work provides new perspectives for those interested in ethics and will prove essential to anyone interested in comparative philosophy and cross cultural studies of religion

Concise Routledge Encyclopedia of Philosophy Routledge (Firm), 2000 The scholarship of this monumental and award winning ten volume work is available in one affordable book that brings together more than 2 000 entries from the original in a shortened more accessible format Extensively cross referenced and indexed

Mysticism Jess Hollenback, 1996-11-01 This sweeping study of mysticism by Jess Hollenback considers the writings and experiences of a broad range of traditional religious mystics including Teresa of Avila Black Elk and Gopi Krishna It also makes use of a new category of sources that more traditional scholars have almost entirely ignored namely the autobiographies and writings of contemporary clairvoyants mediums and out of body travelers This study contributes to the current debate about the contextuality of mysticism by presenting evidence that not only are the mystic s interpretations of and responses to experiences culturally and historically conditioned but historical context and cultural environment decisively shape both the perceptual and affective content of the mystic s experience as well Hollenback also explores the linkage between the mystic s practice of recollection and the onset of other unusual or supernormal manifestations such as photisms the ability to see auras telepathic sensitivity clairvoyance and out of body experiences He demonstrates that these extraordinary phenomena can actually deepen our understanding of mysticism in unexpected ways A unique feature of this book is its in depth analysis of empowerment an important phenomenon ignored by most scholars of mysticism Empowerment is a peculiar enhancement of the imagination thoughts and desires that frequently accompanies mystical states of consciousness Hollenback shows its cross cultural persistence its role in constructing the perceptual and existential environments within which the mystic dwells

and its linkage to the fundamental contextuality of mystical experience

Psychedelics and Christian Faith Ronald Cole-Turner, 2025-01-22 Psychedelic drugs may be illegal but research shows that they are highly promising treatments for a range of mental health challenges Post traumatic stress disorder PTSD depression substance abuse disorders and many other conditions may soon be treated by adding one or two psychedelic sessions to conventional psychotherapy The new approach is called psychedelic assisted therapy and some believe it will be so transformative that they call this moment the psychedelic renaissance What makes it important for Christians is that these drugs bring about profoundly meaningful spiritual experiences In the very same labs where psychedelics are studied for their mental health benefits researchers are documenting that they bring about intensely meaningful mystical or spiritual experiences In fact the latest research points to a connection between the spiritual experience and the mental health benefit as if the healing comes from the spiritual experience Christians are typically cautious about psychedelics but our moment calls for theological and pastoral boldness It is time to prepare a welcome for those whose spiritual awareness has been awakened by these drugs whether used in therapy or in other settings All spiritual seekers especially today s psychedelic spiritual seekers deserve a home in the community of faith

The Innate Capacity Robert K. C. Forman, 1998 This book is the sequel to Robert Forman s well received collection *The Problem of Pure Consciousness* Oxford 1990 The essays in the earlier volume argued that some mystical experiences do not seem to be formed or shaped by the language system a thesis that stands in sharp contradistinction to deconstruction in general and to the constructivist school of mysticism in particular which holds that all mysticism is the product of a cultural and linguistic process In *The Innate Capacity* Forman and his colleagues put forward a hypothesis about the formative causes of these pure consciousness experiences All of the contributors agree that mysticism is the result of an innate human capacity rather than a learned socially conditioned and constructive process The innate capacity is understood in several different ways Many perceive it as an expression of human consciousness per se awareness itself Some hold that consciousness should be understood as a built in link to some hidden transcendent aspect of the world and that a mystical experience is the experience of that inherent connectedness Another thesis that appears frequently is that mystics realize this innate capacity through a process of releasing the hold of the ego and the conceptual system The contributors here look at mystical experience as it is manifested in a variety of religious and cultural settings including Hindu Yoga Buddhism Sufism and medieval Christianity Taken together the essays constitute an important contribution to the ongoing debate about the nature of human consciousness and mystical experience and its relation to the social and cultural contexts in which it appears

Seeking the Sacred with Psychoactive Substances J. Harold Ellens, 2014-10-28 Can drugs be used intelligently and responsibly to expand human consciousness and heighten spirituality This two volume work presents objective scientific information and personal stories aiming to answer the question The first of its kind this intriguing two volume set objectively reports on and assesses this modern psycho social movement in world culture the

constructive medical use of entheogens and related mind altering substances Covering the use of substances such as ayahuasca cannabis LSD peyote and psilocybin the work seeks to illuminate the topic in a scholarly and scientific fashion so as to lift the typical division between those who are supporters of research and exploration of entheogens and those who are strongly opposed to any such experimentation altogether The volumes address the history and use of mind altering drugs in medical research and religious practice in the endeavor to expand and heighten spirituality and the sense of the divine providing unbiased coverage of the relevant arguments and controversies regarding the subject matter Chapters include examinations of how psychoactive agents are used to achieve altered states in Judaism Christianity Islam and Buddhism as well as in the rituals of shamanism and other less widely known faiths This highly readable work will appeal to everyone from high school students to seasoned professors in both the secular world and in devoted church groups and religious colleges

Fingerprints of God Barbara Bradley Hagerty, 2009 Articles about research on spirituality and the brain are usually written from the point of view that religious experience can be understood from a purely scientific perspective Hagerty s religion correspondent NPR book does not have this naturalistic or materialistic tendency Rather as both a reporter and a religious person she seeks insight on spirituality and science while being open to the possibility that spirituality may still have a transcendent component The book is interesting to read because the author has interviewed many scientists as well as many people who attest to having mystical or near death experiences In a way the reader feels like a participant in Hagerty s own encounter with the various pieces of information and evidence struggling with her to make sense of it all Highly recommended John Jaeger Dallas Baptist Univ Lib Copyright Reed Business Information a division of Reed Elsevier Inc All rights reserved

The Principles of Epistemology in Islamic Philosophy Mehdi Ha'iri Yazdi, Mahd? ??'ir? Yazd?, Mahd? ???ir? Yazd?, Mehd? H?'ir? Yaxd?, 1992-01-01 This book aims to present to western philosophers the most important theme in Islamic epistemology knowledge by presence the knowledge that results from immediate and intuitive awareness advocated by the author as a viable modern philosophical position Treating the subject in a thoroughly philosophical manner that is comprehensible to contemporary analytical philosophers he remains faithful to the Islamic tradition

The Cosmic Spirit Roland Faber, 2021-03-04 Are we more than stardust Is the appearance of the fragile Earth in the vast universe more than an accident Are we not children of a Spirit that pervades the dust rejuvenates life and embraces the ever evolving universe Is there a cosmic Spirit that wants us to awaken to a consciousness of universal meaning sacred purpose and mutual friendship with all beings This book answers these questions with a spirituality of the numinous in our relation to the elements of the Earth in the matrix of the multiverse by taking you on a journey through nine paths and nineteen meditations of awakening Not bound by any religion but in deep appreciation of the religious and spiritual heritage of human encounters with the divine depth of existence in our selves and in nature they invite you to become sojourners by engaging the most profound embodiments of the intangible Spirit by which it facilitates its own materialization in the cosmos and our spiritualization of

the cosmos Use says this Spirit the stardust that you are to become a spirit faring species in an eternal journey of the cosmos to realize its ultimate motive of existence the attraction of love

Mystical Consciousness Introduction

In this digital age, the convenience of accessing information at our fingertips has become a necessity. Whether its research papers, eBooks, or user manuals, PDF files have become the preferred format for sharing and reading documents. However, the cost associated with purchasing PDF files can sometimes be a barrier for many individuals and organizations. Thankfully, there are numerous websites and platforms that allow users to download free PDF files legally. In this article, we will explore some of the best platforms to download free PDFs. One of the most popular platforms to download free PDF files is Project Gutenberg. This online library offers over 60,000 free eBooks that are in the public domain. From classic literature to historical documents, Project Gutenberg provides a wide range of PDF files that can be downloaded and enjoyed on various devices. The website is user-friendly and allows users to search for specific titles or browse through different categories. Another reliable platform for downloading Mystical Consciousness free PDF files is Open Library. With its vast collection of over 1 million eBooks, Open Library has something for every reader. The website offers a seamless experience by providing options to borrow or download PDF files. Users simply need to create a free account to access this treasure trove of knowledge. Open Library also allows users to contribute by uploading and sharing their own PDF files, making it a collaborative platform for book enthusiasts. For those interested in academic resources, there are websites dedicated to providing free PDFs of research papers and scientific articles. One such website is Academia.edu, which allows researchers and scholars to share their work with a global audience. Users can download PDF files of research papers, theses, and dissertations covering a wide range of subjects. Academia.edu also provides a platform for discussions and networking within the academic community. When it comes to downloading Mystical Consciousness free PDF files of magazines, brochures, and catalogs, Issuu is a popular choice. This digital publishing platform hosts a vast collection of publications from around the world. Users can search for specific titles or explore various categories and genres. Issuu offers a seamless reading experience with its user-friendly interface and allows users to download PDF files for offline reading. Apart from dedicated platforms, search engines also play a crucial role in finding free PDF files. Google, for instance, has an advanced search feature that allows users to filter results by file type. By specifying the file type as "PDF," users can find websites that offer free PDF downloads on a specific topic. While downloading Mystical Consciousness free PDF files is convenient, its important
