Spiritual seekers across faith traditions share a fierce yearning for mystical unity with their God While beliefs and practices differ what ignites the human heart to quest for the mystical the unknowable the holy just beyond understanding is the same The Call of the Mourning Dove How Sacred Sound Awakens Mystical Unity offers a new paradigm the Sonic Trilogy of Love that details how sacred sound embedded in the ancient canons across faith traditions creates just such a portal into this unmitigated experience of God Because the experience is ubiquitous across faith traditions it does not matter whether a seeker has embarked on an eclectic quest for God or remains deeply committed to questing within one particular faith tradition All seekers known as Lovers within the Trilogy discover that by intoning the sacred sounds the Love embedded in the ancient languages the conditions are set to experience unity with God the Beloved This unity occurs in unforeseen moments as love the core organizing principle of the Trilogy circles in on itself dissolving all distinctions leaving the Lover filled with only the silent wonder of God And graciously nothing is the same **The Garden of Reality** Roland

Faber, 2018-06-20 The Garden of Reality contemplates the relativity of religious truth religious pluralism transreligious discourse postmodern cosmology and multireligious mysticism Its transreligious approach aims at a future multireligious peaceful society in an ecological and cosmic context It proposes that the future of humanity is bound to conviviality with itself and the Earth that the deepest religious motivations of existing together are relative to one another and that transreligious relativity is essential to the conviction of religions that their motivations experiences and conceptualities are meaningful real and true By engaging diverse voices from poststructuralism to Sufism Dzogchen and philosophical Daoism from conceptual frameworks of Christianity and Hinduism to mystical and postmodern cosmology current cosmopolitanism and interreligious and interspiritual discourses but especially understudied contributions of process thought and the Bah religion this book suggests that multireligious conviviality must listen to the universal relevance of a multiplicity of minority voices Its polyphilic pluralism affirms the mutual immanence and co creative nature of religions and spiritualities with the universal in sistance of divine or ultimate reality in the cosmos Embracing a relativistic and evolutionary paradigm in an infinite cosmos of creative becoming religions must cope with events of novelty that disturb and connect transcend and contrast the continuum of their truth claims but must avoid conflict as religious diversity is enveloped by an ever folding landscape of ultimate reality **Love's Oneing** Kerrie Hide, 2022-11-08 Grounded in Christian love mysticism Love's Oneing gives voice

to the luminous consciousness that awakens from within our oneness in God in contemplation With great sensitivity the book offers nuanced insight into the marriage of kenosis and desire in contemplation through the rich tapestry of writings from nine mystics Julian of Norwich the Cloud of Unknowing author Meister Eckhart Mechthild of Magdeburg Clare of Assisi John of the Cross Teilhard de Chardin Beatrice Bruteau and Ilia Delio With the delicate eye of a spiritual director immersed in

Faith, Reason, and Theosis Aristotle Papanikolaou, George E. Demacopoulos, 2023-10-03 Theosis shapes contemporary Orthodox theology in two ways positively and negatively In the positive sense contemporary Orthodox theologians made theosis the thread that bound together the various aspects of theology in a coherent whole and also interpreted patristic texts which experienced a renaissance in the twentieth century even in Orthodox theology In the negative sense contemporary theologians used theosis as a triumphalistic club to beat down Catholic and Protestant Christians claiming that they rejected theosis in favor of either a rationalistic or fideistic approach to Christian life The essays collected in this volume move beyond this East West divide by examining the relation between faith reason and theosis from Orthodox Catholic and Protestant perspectives A variety of themes are addressed such as the nature grace debate and the relation of philosophy to theology through engagement with such diverse thinkers as Thomas Aquinas John Wesley Meister Eckhart Dionysius the Areopagite Symeon the New Theologian Panayiotis Nellas Vladimir Lossky Martin Luther Martin Heidegger Sergius Bulgakov John of the Cross Delores Williams Evagrius of Pontus and Hans Urs von Balthasar The essays in this book are situated within a current thinking on theosis that consists of a common albeit minimalist affirmation

amidst the flow of differences The authors in this volume contribute to the historical theological task of complicating the contemporary Orthodox narrative but they also continue the theological achievement of thinking about theosis so that all Christian traditions may be challenged to stretch and shift their understanding of theosis even amidst an ecumenical celebration of the gift of participation in the life of God
