## **Mysticism And Philosophical Analysis:**

**Mysticism and Philosophical Analysis** Steven T. Katz, 1994-07-14 Mystical and religious experience are subjects which are constantly under investigation by both the religiously sensitive and in a more general way by those interested in the phenomenon This comprehensive study by a group of distinguished American and British scholars sympathetically and objectively deals with mystical experience in Christianity Judaism and Eastern religions **Mysticism and Language**

Steven T. Katz, 1992 Taken collectively the original essays in this new collection make up the most important exploration of mysticism and language to appear in many years Written from diverse perspectives on a wide variety of religious and mystical traditions ranging from Judaism and Christianity to Zen Buddhism and Hinduism all the essays exhibit great erudition a mastery of the original mystical sources and philosophical and hermeneutical sophistication Further all recognize the inadequacy of treating the questions surrounding this subject a contextually outside of their historic intellectual and sociological circumstances As such these studies deepen the on going revisionist contextualist study of mysticism so powerfully and influentially inaugurated by two previous collections also edited by Steven Katz **Mysticism and Philosophical Analysis** and **Mysticism and Religious Traditions** Like its predecessors the present collection includes work by some of the world s leading authorities on mysticism including Moshe Idel William Alston Bernard McGinn Ewert Cousins Bimal Matilal Carl Ernst and Steven Katz It is sure to become essential reading for everyone interested in mysticism as well as those who study religion comparative religion philosophy and history **Mysticism** Jess Byron Hollenback, 1996 This sweeping study of mysticism by Jess Hollenback considers the writings and experiences of a broad range of traditional religious mystics including Teresa of Avila Black Elk and Gopi Krishna It also makes use of a new category of sources that more traditional scholars have almost entirely ignored namely the autobiographies and writings of contemporary clairvoyants mediums and out of body travelers This study contributes to the current debate about the contextuality of mysticism by presenting evidence that not only are the mystic s interpretations of and responses to experiences culturally and historically conditioned but historical context and cultural environment decisively shape both the perceptual and affective content of the mystic s experience as well Hollenback also explores the linkage between the mystic s practice of recollection and the onset of other unusual or supernormal manifestations such as photisms the ability to see auras telepathic sensitivity clairvoyance and out of body experiences He demonstrates that these extraordinary phenomena can actually deepen our understanding of mysticism in unexpected ways A unique feature of this book is its in depth analysis of empowerment an important phenomenon ignored by most scholars of mysticism Empowerment is a peculiar enhancement of the imagination thoughts and desires that frequently accompanies mystical states of consciousness Hollenback shows its cross cultural persistence its role in constructing the perceptual and existential environments within which the mystic dwells and its linkage to the fundamental contextuality of mystical experience **Mystic Union** Nelson Pike, 1992 What is it to experience union with God In this

highly original and accessible book one of our leading philosophers of religion seeks to answer this question by analyzing the several states of mystic union as they are described and explained in the classical primary literature of the Christian mystical tradition

*The Problem of Pure Consciousness* Robert K. C. Forman, 2023 This collection of essays challenges the widely accepted interpretation of mystical experience that received its fullest expression in two volumes edited by Steven T Katz

**Mysticism and Philosophical Analysis and Mysticism and Religious Traditions**

**St. Francis of Assisi and Nature** Roger D. Sorrell, 1988-12-08 One of the best loved saints of all time Francis of Assisi is often depicted today as a kind of proto hippie or early environmentalist This book the most comprehensive study in English of Francis s view of nature in the context of medieval tradition debunks modern anachronistic interpretations arguing convincingly that Francis s ideas can only be understood in their 13th century context Through close analysis of Francis s writings particularly the Canticum of the Sun Sorrell shows that many of Francis s beliefs concerning the proper relation of humanity to the natural world have their antecedents in scripture and the medieval monastic orders while other ideas and practices his nature mysticism his concept of familial relationships with created things and his extension of chivalric conceptions to interactions with creatures are entirely his own Sorrell insists however that only by seeing Francis in terms of the Western traditions from which he arose can we appreciate the true originality of this extraordinary figure and the relevance of his thought to modern religious and environmental concerns

**Mysticism**, 2021-09-06 Although very different and coming from a range of academic backgrounds the contributors are nevertheless united in their attempts to understand more about mysticism from a perspective that puts the human being in the center

Mysticism Winfried Corduan, 2009-07-01 Mysticism is a controversial topic that all too frequently receives one sided coverage On the one hand there are many enthusiasts who are willing to defend mysticism at almost any cost including sacrificing logical and theological integrity On the other hand there are philosophers and theologians who see mysticism as not much more than an evil to be stamped out This book takes a careful look at the philosophical and theological questions involved and attempts to locate a modest place for mysticism within a genuine evangelical framework Questions addressed in this book include such matters as Is mysticism a perennial philosophy that appears in different guises but is always the same underneath Can we argue for an objective reality behind all mystical experience How can we understand the fact that mystics talk about something that they say is beyond language How has mysticism shown up in various Christian traditions Can we reconcile mysticism with the New Testament The conclusion of this book is based on an understanding of mysticism as an unmediated link to an absolute In that sense there is a form of mysticism taught in the New Testament but it is a mysticism that does not require ecstatic experience and does not constitute a separate source of revelation Nevertheless this New Testament mysticism describes an integral part of biblical spirituality

**Mysticism, Mind, Consciousness** Robert K. C. Forman, 1999-06-03 In an exploration of mystical texts from ancient India and China to medieval Europe and modern day America Robert K C Forman one of the leading voices in the

study of mystical experiences argues that the various levels of mysticism may not be shaped by culture language and background knowledge but rather are a direct encounter with our very conscious core itself Mysticism Mind Consciousness focuses on first hand accounts of two distinct types of mystical experiences Through examination of texts recorded interviews and courageous autobiographical experiences the author describes not only the well known pure consciousness event but also a new hitherto uncharted dualistic mystical state He provides a thorough and readable depiction of just what mysticism feels like These accounts and the experiences to which they give voice arise from the heart of living practices and have substance and detail far beyond virtually any others in the literature The book also reexamines the philosophical issues that swirl around mysticism In addition to examining modern day constructivist views Forman argues that the doctrines of Kant Husserl and Brentano cannot be applied to mysticism Instead he offers new philosophical insights based on the work of Chinese philosopher of mind Paramartha The book concludes with an examination of mind and consciousness which shows that mysticism has a great deal to tell us about human experience and the nature of human knowledge far beyond mysticism itself

**Beholders of Divine Secrets** Vita Daphna Arbel,2003-10-23 A wide ranging exploration of the Hekhalot and Merkavah literature a mystical Jewish tradition from late antiquity including a discussion of the possible cultural context of this material s creators [The Scholarship on Spanish Mystical Literature](#) Gloria Maité Hernández,2021-12-06 Gloria Maité Hernández offers an engaging critical review of scholarly works on Spanish mystical literature during the twentieth and early twenty first century in Europe and the Americas Bringing together for the first time an ample variety of sources and letting the scholars own voices be heard this study asks how their writings were influenced by their particular notions about mysticism and Spain s relationship with the Orient A thematic survey like this one illustrates how ideas are created and re created throughout time resulting in the production of a more diverse scholarship Readers will be enriched with a renewed sense of disciplinary awareness *The Wiley-Blackwell Companion to Christian Mysticism* Julia A. Lamm,2017-02-06 The

Wiley Blackwell Companion to Christian Mysticism brings together a team of leading international scholars to explore the origins evolution and contemporary debates relating to Christian mystics texts and the movements they inspired Provides a comprehensive and engaging account of Christian mysticism from its origins right up to the present day Draws on the best of current scholarship by bringing together a collection of newly commissioned readings by leading scholars Considers examples of mysticism in both Eastern and Western Christianity Offers a brilliant synthesis of the key figures and historical periods of mysticism its core themes such as heresy gender or aesthetics and its theoretical considerations including theological literary social scientific and philosophical approaches Features chapters on current debates such as neuroscience and mystical experience and inter religious dialogue **Medjugorje and the Supernatural** Daniel Maria

Klimek,2018-03-01 In June 1981 six young Croatians in the village of Medjugorje in the former Yugoslavia reported that the Virgin Mary had appeared to them The Medjugorje visionaries say that Mary has returned every day since then bringing

them important messages from heaven to convey to the world Throughout history people have reported encountering extraordinary religious experiences apparitions of the Virgin Mary visions of Jesus Christ weeping statues and icons the stigmata physical healings and miracles and experiences of the afterlife and interpreted them as supernatural in origin Scholars have often tried to reinterpret such experiences including those described by the great mystics like Francis of Assisi Catherine of Siena and Teresa of Avila into natural or psychopathological categories such as hysteria hallucination delusion epileptic seizures psychosis the workings of the unconscious mind or fraud Are such reductionist explanations valid Over the past three decades the Medjugorje visionaries have been subjected to extensive medical psychological and scientific examination even while undergoing their visionary experiences Daniel Klimek argues that the case of Medjugorje affords a rare opportunity to understand a deeper dimension of extraordinary religious phenomena Presenting and analyzing the scientific studies on the visionaries in juxtaposition with the major scholars and debates surrounding religious experience Klimek concludes that a multidisciplinary approach grants a more holistic and deeper understanding of such extraordinary religious experiences

**The Mystic Mind** Jerome Kroll, Bernard Bachrach, 2006-06 Drawing on a database of over 1400 medieval holy persons and in depth studies of individual saints this fascinating collaboration between a medieval historian and a professor of psychiatry applies modern biological and psychological research to the lives of medieval mystics and ascetics

**Sainthood and Revelatory Discourse** David Emmanuel

Singh,2003      *Zen and the Unspeakable God* Jason N. Blum,2015-09-21 *Zen and the Unspeakable God* reevaluates how we study mystical experience Forsaking the prescriptive epistemological box that has constrained the conversation for decades ensuring that methodology has overshadowed subject matter Jason Blum proposes a new interpretive approach one that begins with a mystic s own beliefs about the nature of mystical experience Blum brings this approach to bear on the experiential accounts of three mystical exemplars Meister Eckhart Ibn al Arabi and Hui neng Through close readings of their texts he uncovers the mystics own fundamental assumptions about transcendence and harnesses these as interpretive guides to their experiences The predominant theory first path to interpretation has led to the misunderstanding and misrepresentation of individual mystical experiences and fostered specious conclusions about cross cultural comparability among them Blum s hermeneutic invites the scholarly community to begin thinking about mystical experience in a new way through the mystics eyes *Zen and the Unspeakable God* offers a sampling of the provocative results of this technique and an explanation of its implications for theories of consciousness and our contemporary understanding of the nature of mystical experience      *Orientalism and Religion* Richard King,2013-04-03 *Orientalism and Religion* offers us a timely discussion of the implications of contemporary post colonial theory for the study of religion Richard King examines the way in which notions such as mysticism religion Hinduism and Buddhism are taken for granted He shows us how religion needs to be reinterpreted along the lines of cultural studies Drawing on a variety of post structuralist and post colonial thinkers such as Foucault Gadamer Said and Spivak King provides us with a challenging series of reflections on the nature of Religious Studies and Indology
