MYSTICISM DAISSETZ TEITARO. SUZUKI,2018 **Mysticism, Buddhist and Christian** Paul Mommaers,Jan van Bragt,1995 This volume represents the first book length treatment in English of one of the greatest mystical writers in Christian history Jan van Ruusbroec 1293 1381 A careful reading of the texts by the Flemish historian Paul Mommaers focuses on two delicate relationships that between mysticism and religiosity and that between a mysticism of union in love and the more metaphysical mysticism of unity Winding in and out of this presentation is a commentary by theologian of religions Jan Van Bragt which attempts to place the problematic in a wider interreligious context by contrasting the spiritual path of Buddhism with that of the Christian mystical way The combined result is not only an original reading of the great Flemish love mystic but a groundbreaking attempt to view religious history through the dual lenses of one s own faith and that of the faith of others Ruusbroec s approach is seen to challenge traditional ideas about differences between the Buddhist and Christian ways and to open new possibilities for further encounters at the level of mystical thought and practice

Modern Buddhist and Christian Mysticism Charles M. Mueller, Peter Richardson, 2025-03-01

Investigations of mysticism often focus on the past while largely ignoring current developments. This book contributes to a reversal of that trend with a rigorous examination of a wide selection of contemporary Buddhist and Christian authors. The focus is on the intriguing intersections and subtle divergences now emerging in areas such as ineffability, nonconceptuality, paradox, inverted agency, unity, and self-dissolution. The analysis combines the theoretical framework of Cognitive Linguistics with a range of methodological approaches from discourse and thematic analysis to corpus linguistics. Wide-ranging, systematic, and informative, the book is invaluable to all of those interested in the phenomenon of mysticism within the modern world.

Mysticism: Christian and Buddhist David Suzuki, 1957

The Meaning of Christ John P. Keenan, 1989

Christian Zen William Johnston, 1997

When *Christian Zen* was first published in the early 1970s, it was reviewed enthusiastically in many parts of the world. A subsequent edition added new material from the author's experience. This latest edition from Fordham University Press includes a new Preface by the author and a letter to the author from the Christian mystic Thomas Merton, written shortly before Merton's untimely death. William Johnston presents a study of Zen meditation in the light of Christian mysticism.

Mysticism Jess Hollenback, 1996-09-15

This sweeping study of mysticism by Jess Hollenback considers the writings and experiences of a broad range of traditional religious mystics, including Teresa of Avila, Black Elk, and Gopi Krishna. It also makes use of a new category of sources that more traditional scholars have almost entirely ignored: namely, the autobiographies and writings of contemporary clairvoyants, mediums, and out-of-body travelers. This study contributes to the current debate about the contextuality of mysticism by presenting evidence that not only are the mystic's interpretations of and responses to experiences culturally and historically conditioned, but historical context and cultural environment decisively shape both the perceptual and affective content of the mystic's experience, as well. Hollenback also explores the linkage between the mystic's practice of recollection and the onset of other unusual or supernormal manifestations, such as photisms, the ability to see auras, telepathic sensitivity, clairvoyance, and out-of-body experiences. He demonstrates that these extraordinary phenomena can actually deepen our understanding of mysticism in unexpected ways. A unique feature of this book is its in-depth analysis of empowerment, an important phenomenon ignored by most scholars of mysticism. Empowerment is a peculiar enhancement of the imagination, thoughts, and desires that frequently accompanies mystical states of consciousness. Hollenback shows its cross-cultural persistence, its role in constructing the perceptual and existential environments within which the mystic dwells, and its linkage to the fundamental contextuality of mystical experience.
