Steven T. Katz,2000-11-02 This is the fourth volume in an influential series that presents a basic revaluation of the nature of mysticism Each provides a collection of solicited papers by noted experts in the study of religion This new volume will explore how the great mystics and mystical traditions use interpret and reconstruct the sacred scriptures of their traditions

Christian Mysticism Dr Kevin Magill,Dr Louise Nelstrop,Mr Bradley B Onishi,2013-06-28 This book introduces students to Christian mysticism and modern critical responses to it Christianity has a rich tradition of mystical theology that first emerged in the writings of the early church fathers and flourished during the Middle Ages Today Christian mysticism is increasingly recognised as an important Christian heritage relevant to today s spiritual seekers The book sets out to provide students and other interested readers with access to the main theoretical approaches to Christian mysticism including those propounded by William James Steven Katz Bernard McGinn Michael Sells Denys Turner and Caroline Walker Bynum It also explores postmodern re readings of Christian mysticism by authors such as Jacques Derrida Jean Luc Marion and Jean Francois Lyotard The book first introduces students to the main themes that underpin Christian mysticism It then reflects on how modern critics have understood each of them demonstrating that stark delineation between the different theoretical approaches eventually collapses under the weight of the complex interaction between experience and knowledge that lies at the heart of Christian mysticism In doing so the book presents a deliberate challenge to a strictly perennialist reading of Christian mysticism Anyone even remotely familiar with Christian mysticism will know that renewed interest in Christian mystical writers has created a huge array of scholarship with which students of mysticism need to familiarise themselves This book outlines the various modern theoretical approaches in a manner easily accessible to a reader with little or no previous knowledge of this area and offers a philosophical theological introduction to Christian mystical writers beyond the patristic period important for the Latin Western Tradition *Mystics* William Harmless,2008 Mystics are path breaking religious practitioners who claim to have experience the infinite word defying Mystery that is God Many have been gifted writers with an uncanny ability to communicate the great realities of life with both a theologian s precision and a poet s lyricism They use words to jolt us into recognizing ineffable mysteries surging beneath the surface of our lives and within the depths of our hearts and by their artistry can awaken us to see and savor fugitive glimpses of a God drenched world In *Mystics* William Harmless S J introduces readers to the scholarly study of mysticism He explores both mystics extraordinary lives and their no less extraordinary writings using a unique case study method centered on detailed examinations of six major Christian

mystics Thomas Merton Bernard of Clairvaux Hildegard of Bingen Bonaventure Meister Eckhart and Evagrius Ponticus Rather than presenting mysticism as a subtle web of psychological or theological abstractions Harmless's case study approach brings things down to earth restoring mystics to their historical context Harmless highlights the pungent diversity of mystical experiences and mystical theologies Stepping beyond Christianity he also explores mystical elements within Islam and Buddhism offering a chapter on the popular Sufi poet Rumi and one on the famous Japanese Zen master Dogen Harmless concludes with an overview of the century long scholarly conversation on mysticism and offers a unique multifaceted optic for understanding mystics their communities and their writings Geared toward a wide audience Mystics balances state of the art scholarship with accessible lucid prose Words Ernst van den Hemel, Asja Szafraniec, 2016-06-15 A wide ranging anthology of essays that examine the uses purposes and influence of religious language It is said that words are like people One can encounter them daily yet never come to know their true selves This volume examines what words are how they exist in religious phenomena Going beyond the common idea that language merely describes states of mind beliefs and intentions the book looks at words in their performative and material specificity The contributions in this volume examine and employ a number of linguistic and semiotic ideologies They develop the insight that our implicit assumptions about language guide the way we understand and experience religious phenomena They also explore the possibility that insights about the particular status of religious utterances may in turn influence the way we think about words in our language **Comparative Mysticism** Steven T. Katz, 2013 This collection of primary texts introduces readers to the mystical literature of the world's great religious traditions Beginning with an introduction by Steven T Katz a leading scholar of mysticism the anthology comprises poetry prayer narrative and other writings from Jewish Christian Muslim Hindu Buddhist Taoist Confucianist and Native American traditions This collection provides readers not only with the primary mystical texts from each religious tradition but with an explanation of the context of the source and tradition Comparative Mysticism shows how the great mystical traditions of the world are deeply rooted in the religious traditions from which they originated The contextual methodological approach taken throughout the anthology also addresses the critical question of what these mystical traditions at their highest level have in common Despite the prevailing view that mystical traditions throughout the world are essentially similar the presentation of the sources in this volume suggests that in fact the various traditions have distinct teachings and different metaphysical goals The writings collected in Comparative Mysticism address the most fundamental and important methodological epistemological and hermeneutical questions regarding the study and interpretation of mysticism and mystical sources across cultures This anthology will be an invaluable resource to students and scholars of mystic tradition for years to come **Yoga, Meditation, and Mysticism** Kenneth Rose, 2016-09-08 Contemplative experience is central to Hindu yoga traditions Buddhist meditation practices and Catholic mystical theology and despite doctrinal differences it expresses itself in suggestively similar meditative landmarks in each of these three meditative

systems In Yoga Meditation and Mysticism Kenneth Rose shifts the dominant focus of contemporary religious studies away from tradition specific studies of individual religious traditions communities and practices to examine the contemplative universals that arise globally in meditative experience Through a comparative exploration of the itineraries detailed in the contemplative manuals of Theravada Buddhism Patanjali's Yoga and Catholic mystical theology Rose identifies in each tradition a moment of sharply focused awareness that marks the threshold between immersion in mundane consciousness and contemplative insight As concentration deepens the meditator steps through this threshold onto a globally shared contemplative itinerary which leads through a series of virtually identical stages to mental stillness and insight Rose argues that these contemplative universals familiar to experienced contemplatives in multiple traditions point to a common spiritual mental and biological heritage Pioneering the exploration of contemplative practice and experience with a comparative perspective that ranges over multiple religious traditions religious studies philosophy neuroscience and the cognitive science of religion this book is a landmark contribution to the fields of contemplative practice and religious studies

Joseph Dan, 2005 Joseph Dan the Gershom Scholem Professor of Kabbalah Emeritus at the Hebrew University and long time Professor of Jewish Studies at the Freie Universität Berlin is one of the most influential figures in the fields of Jewish mystical thought homiletical and ethical literature modern Messianism and Hasidism and contemporary belles lettres His studies of the diverse aspects of Jewish creativity with close attention to the dialectics of religious cultural continuity versus historical innovation provide a comprehensive overview of the complex history of Jewish thought and its multiple creative faces It is precisely for this reason to honor Joseph Dan's multifaceted research that his many colleagues students and friends scattered among universities around the world have decided to focus their contributions in this Festschrift on the continuing process of creation and re-creation in Jewish thought throughout the centuries Contributors Philip Alexander Dan Ben Amos Peter Schafer Margarete Schluter Bernard McGinn Klaus Herrmann Herbert Davidson Annelies Kuyt Haym Soloveitchik Eli Yassif Gerold Necker Marc Saperstein Giuseppe Veltri Aviezer Ravitzky Avinoam Rosenak Kimmy Caplan Saverio Campanini Eric Jacobson Yair Zakovitch Rachel Eilior David Weiss Halivni Avigdor Shinan Avraham Grossman Giulio Busi Moshe Hallamish Chava Turniansky Jacob Elbaum Hagit Matras Joseph Hacker Raya Haran Arnold J. materialist atheism and the benevolent God of the Abrahamic faiths Tim Mulgan explores a third way Ananthropocentric Purposivism claims that there is a cosmic purpose but human beings are irrelevant to it Purpose in the Universe develops a philosophical case for Ananthropocentric Purposivism that it is at least as strong as the case for either theism or atheism The book borrows traditional theist arguments to defend a cosmic purpose These include cosmological teleological ontological meta ethical and mystical arguments It then borrows traditional atheist arguments to reject a human centred purpose These include arguments based on evil diversity and the scale of the universe Mulgan also highlights connections between morality and metaphysics arguing that evaluative premises play a crucial and underappreciated role in metaphysical debates about the existence of God and Ananthropocentric Purposivism mutually supports an austere consequentialist morality based on objective values He concludes that by drawing on a range of secular and religious ethical traditions a non human centred cosmic purpose can ground a distinctive human morality Our moral practices our view of the moral universe and our moral theory are all transformed if we shift from the familiar choice between a universe without meaning and a universe where humans matter to the less self aggrandising thought that while it is about something the universe is not about us

Medjugorje and the Supernatural Daniel Maria Klimek, 2018-03-01 In June 1981 six young Croatians in the village of Medjugorje in the former Yugoslavia reported that the Virgin Mary had appeared to them The Medjugorje visionaries say that Mary has returned every day since then bringing them important messages from heaven to convey to the world Throughout history people have reported encountering extraordinary religious experiences apparitions of the Virgin Mary visions of Jesus Christ weeping statues and icons the stigmata physical healings and miracles and experiences of the afterlife and interpreted them as supernatural in origin Scholars have often tried to reinterpret such experiences including those described by the great mystics like Francis of Assisi Catherine of Siena and Teresa of Avila into natural or psychopathological categories such as hysteria hallucination delusion epileptic seizures psychosis the workings of the unconscious mind or fraud Are such reductionist explanations valid Over the past three decades the Medjugorje visionaries have been subjected to extensive medical psychological and scientific examination even while undergoing their visionary experiences Daniel Klimek argues that the case of Medjugorje affords a rare opportunity to understand a deeper dimension of extraordinary religious phenomena Presenting and analyzing the scientific studies on the visionaries in juxtaposition with the major scholars and debates surrounding religious experience Klimek concludes that a multidisciplinary approach grants a more holistic and deeper understanding of such extraordinary religious experiences
