Myth And Crisis Of Historical Consciousness:

Myth and the Crisis of Historical Consciousness American Academy of Religion, 1975 **Myth and the Crisis of Historical Consciousness** Lee W. Gibbs, W. Taylor Stevenson, 1975 *The Violence Mythos* Barbara Whitmer, 1997-10-02

Presents a powerful thesis on the nature and significance of violence and its mythos in Western culture and offers an alternative interactive mythos that bridges the mind body split inherent in most theories of violence The Violence Mythos presents us with a powerful thesis on the nature and significance of violence in human society It develops its argument with passion and concern combined with a lucid and sensitive intelligence The book is sharp and to the point challenging any complacency with its idealism and its commitment to change Whitmer is an author with attitude and with spirit The violence mythos is a collection of beliefs attitudes behaviors and social expectations about violence in Western culture It includes the war hero myth the victimizer victim exploitative dynamic the theory of innate violence the mind body dualism the myth of male aggression and the subordination of women the marginalization of trust and the development of technology in a tradition of destructive instrumentalism At the core of the violence mythos is the belief that humans are innately violent The cultural system is then able to legitimate rationalize and use violence to control violent humans and thus becomes a self reinforcing self perpetuating system of direct and indirect means of social control This is the repetitive cycle of violence in trauma reenactment transferred intergenerationally through the roles and rituals of the hero perpetrator myth The cycle ceases with the understanding of trauma in the trust triad of the interdependent mythos *Toward a Poetics of Genesis 1-11* Daniel D. Lowery, 2013-04-15 Daniel Lowery commences this work by suggesting that history is a subjective enterprise it is controlled by those who record it The power of the present decides what is counted as history and how the rest of us are told about the past shapes our view of it and concomitantly our outlook for the future In this sense then history fundamentally shapes the future Few questions are more basic to human existence than Who am I Where did I come from What is my place in this world The earliest chapters of Genesis have oriented hearers and readers for millennia in their attempts to address these concerns And so in several respects Genesis shapes the future In this study Lowery sets out to understand more accurately ancient Near Eastern language and claims about origins specifically claims found in Gen 1 11 He uses Gen 4 17 22 as a test case representing the Hebrew tradition explaining how the world came to be civilized Lowery observes that this passage serves a function within the larger narrative of Gen 1 11 akin to other ancient Near Eastern traditions of civilized beginnings Moreover it occupies a place in the overarching narrative of beginnings corresponding to what we find elsewhere throughout the ancient world Lowery focuses mainly on Mesopotamia leaving other cultures for later study This study aims to demonstrate that much of the language of Gen 1 11 is similar in many ways to its Mesopotamian counterparts More explicitly here is an exploration of the nature of the language and terms of Gen 1 11 to ascertain what truths it communicates and how it communicates them At its core this is a study of the genre and generic claims of
