Myth, Faith and Hermeneutics: Crosscultural Studies Raimundo Panikkar, 1979 **Who Guards the Guardians?** Peter Raine, 2003 This book attempts to link ecology philosophy and theology through an exploration of a new model of intercultural dialogue Case studies provide practical and theoretical applications which lead to a deeper understanding of not only environmental guardianships but also the fundamental relationship between human beings and nature's being Myths We Live by Colin Grant, 1998 Colin Grant challenges the popular use of myth as a dismissive designation of the superstitions and falsehoods of other cultures The author maintains that myths occupy a place in our present day lives that is every bit as important to us as the divinities and heroes of classical antiquity were to the ancients The myths themselves are in a constant state of flux and transformation They ebb and flow both within the context of wider culture and individual experience

Published in English *An Advaitic Modernity?* Andrew D. Thrasher, 2024-03-26 *An Advaitic Modernity* Raimon Panikkar and Philosophical Theology poses Raimon Panikkar as a stimulating dialogue partner in postmodern philosophical theology who can help us rethink the relationship between transcendence and immanence through an advaitic critique of modernity Andrew D Thrasher argues that Panikkar's advaitic critique of modernity may transform several discourses such as how Panikkar's cosmotheandric metaphysics may reshape a theology of religion and offer a religious interpretation of a relational ontology that builds on the Heideggerian ontological tradition and how Panikkar's metaphysics solves problems in Heidegger's ontology **The New Universalism** David J. Krieger, 2006-05-03 By making claims for its universalism a religious community establishes its collective identity orients itself in the world and articulates its basic common convictions about what is real meaningful valuable For those engaged in the search for a theology of religions in today's context of appreciation for radical plurality the question is this Can there be a single unified theology that expresses adequately the apparently very different truths of humanity's religions The New Universalism argues that theology can no longer content itself with correlating the question which the world poses with the answer given in revelation Within today's global horizon every religion and worldview has as much right to answer the basic questions of human existence as any other The task confronting theology therefore lies in the integration and mutual appropriation of many seemingly conflicting revelations Drawing upon the work of Panikkar and Wittgenstein Krieger constructs a method and a philosophical foundation for resolving ideological

conflicts and carrying out a theological appropriation of non Christian religions *The Cosmotheandric Experience*
Raimundo Panikkar,1998 The Cosmotheandric Experience is not a Christian or an Indic or a Buddhist study but an interdisciplinary study with a firm foundation It aims at an integration of the whole of reality We have to reconstruct the body of Prajapati even if some of the parts feel unworthy are shy or run away We have to think of all of the fragments of the present world in order to bring them together into a harmonious though not monolithic whole The Cosmotheandric principle which the author advocates could be formulated by saying that the divine the human and the earthly are three irreducible dimensions which constitute the real Bridging the Divide between faith, theology and Life Anthony Maher,2015-11-01
