Myth, History, and Faith Morton T. Kelsey, 1994-06-01 Life without myth is likely to be dead and sterile while religion without myth is a flat rational substitute for the real thing Morton Kelsey **The Historical Christ and the Jesus of Faith** C. Stephen Evans, 1996-04-18 The story of Jesus of Nazareth as recounted in the New Testament has always been understood by the church to be historically true It is an account of the life death and resurrection of a real person whose links with history are firmly signalled in the creeds of the early church which affirm that Jesus suffered under Pontius Pilate Contemporary historical scholarship has however called into question the reliability of the church's version of this story and thereby raised the question as to whether ordinary people can know its historical truth This book argues that the historicity of the story still matters and that its religious significance cannot be captured by the category of non historical myth The commonly drawn distinction between the Christ of faith and Jesus of history cannot be maintained The Christ who is the object of faith must be seen as historical the Jesus who is reconstructed by historical scholarship is always shaped by commitments of faith A reconsideration of the Enlightenment epistemologies that underlie much historical scholarship shows that historical knowledge of this story is still possible Such knowledge can be inferential based on historical evidence A careful look at contemporary New Testament studies and the philosophical and literary assumptions upon which it rests shows that this scholarship should not undermine the confidence of lay people who believe that they can know that the church's story about Jesus is true **Myth, History, and the Resurrection in German Protestant Theology** Brent A. R. Hege, 2017-10-13 The Christian faith stands or falls with the confession that Jesus Christ is risen While that assertion itself is perhaps uncontroversial precisely what this confession means has been a subject of profound significance and immense controversy for centuries Central to this discussion is the role of myth and history in the biblical witness and in the church's theological engagement with the confession that Jesus Christ is risen This book traces key trajectories of German Protestant discussions of myth history and the resurrection from its earliest critical analysis in the work of Hermann Samuel Reimarus and David Friedrich Strauss to contemporary appraisals by Eberhard Jüngel and Ingolf Ulrich Dalferth At the center of this discussion stands Rudolf Bultmann whose work on the resurrection sparked fierce debates that left a lasting impact on Protestant theology in Germany and beyond The questions raised by these theologians continue to resonate in contemporary discussions of the nature and status of biblical texts the integrity and truth of the Christian confession and the meaning and significance of the resurrection of Jesus Christ for Christian faith and life at the beginning of the twenty first century

Faith and History in the Old Testament Roderick A. F. MacKenzie, 1965 Faith and History in the Old Testament was first published in 1963 Minnesota Archive Editions uses digital technology to make long unavailable books once again accessible and are published unaltered from the original University of Minnesota Press editions This absorbing and readable account of

the religion of ancient Israel is presented against the background of other cultures of the time Father MacKenzie traces the development of Israel's belief and draws upon modern knowledge of the cultures of the ancient Near East to illuminate the history But the main stress is on the religious meaning which the Israelites themselves perceived in the events they experienced a meaning which is accepted and extended in different ways by modern Jews and by Christians The author explains in non technical style the distinctive features of the faith of the Old Testament as evident in such themes as covenant creation retribution the pursuit of wisdom and the hope of salvation At the outset he defines the study of theology and places the study of Christ with that of Israel He analyzes Israel's concept of God and the character of the covenant between God and the people of Israel discusses the Israelite literature on the creation of earth and its creatures and considers the interrelationship between myth and history He discusses the search for wisdom in Israel the public prayers and the concept of a promise from the deity In conclusion he presents the interpretation by the Old Testament authors of these distinctive features of Israel's religion The book is intended for lay people interested in modern Bible interpretation as well as for priests ministers and rabbis who wish a general survey of the Old Testament It is suitable for use as a text or supplementary reading in religion or theology courses

Christian Faith and Life, 1910 The Word as True Myth Gary J. Dorrien, 1997-01-01 Gary Dorrien follows the threads of theology through the twentieth century examining how Christians have reconciled their myth filled religious beliefs within a world secularized by Enlightenment criticism and science To understand how religion keeps its place in Christians lives Dorrien writes we must explore how modern theologians have answered the question of myth in today's Christianity Dorrien's narrative walks readers through modern theology stopping with each of the major thinkers along the way to see how they dealt with the issue of modern Christian mythology Ultimately he offers his own new neo orthodoxy a theology of Word and Spirit that is pluralistic and affirms the

mythical character of the gospel while holding fast to the Gospels myth negating condemnation of idolatry and their focus on history

Faith and the Philosophy of History Martin Wight, 2025-02-25 This book collects works by the late Professor Martin Wight 1913 1972 an historian and scholar of international relations Wight conducted research on many topics including British colonial history European studies international institutions and the history of states systems He is nonetheless best known for his lectures about the political philosophy of international relations at the London School of Economics 1949 1961 and the University of Sussex 1961 1972 He is widely regarded as an intellectual ancestor and pathbreaker of the English School of international relations even though this term only gained currency nine years after his death While there is no generally accepted definition of the English School it is usually construed as signifying an approach to the study of international relations more rooted in historical and humanistic learning than in the social sciences Wight's achievements are consistent with this broad definition This volume draws together a number of Wight's published works as well as many of his previously unpublished obscurely published and anonymous writings about faith and the philosophy of history Owing to his premature death at the age of 58 he was unable to complete several works in progress partly because his perfectionism led him to refrain from publishing many of them

Faith and Objectivity C.D. Hardwick, 2012-12-06 In the last decade too many American theologians have been preoccupied with charting and interpreting in a superficial manner the movements of the newest stars in the Continental theological firmament This preoccupation contributed much unfortunately to that faddism that was so characteristic of American theology in the Sixties the period immediately following the passing of a generation of theological giants like Barth Bultmann Tillich Gogarten and the Niebuhrs There has seldom been a period in which so many promissory notes were issued so carelessly onto the intellectual market notes that were not and perhaps could not have been redeemed Given this temper of the times it is difficult to account for the almost total neglect of the work of Professor Fritz Burl of Basel whose theology of existence is one of the most interesting and impressive contemporary attempts to interpret the myths and symbols of the Christian faith in terms of an existentialist philosophy Even if one were to apply that most superficial though for many apparently decisive criterion of radicality one might have expected his work to attract some

sustained attention because Buri has consistently posed a radical solution to most of the hotly debated issues of the times the problem of demythologization the meaning of theological language the problems raised by historical criticism and the meaning of the historical Jesus for faith to mention a few

Is Faith Rational? Wessel Stoker, 2006 Is faith rational Some respond by providing proofs for God's existence Others hold that no reasons for the Christian faith can be given This book discusses different ways of accounting for faith i.e. classical apologetics the transcendental view that faith is part of human nature and the view that argues for the rationality of faith on the basis of direct perceptions of God that appear to be objective The author subsequently proposes a rational accounting for the Christian faith in our secularized and religiously pluralistic society His starting point is the lasting religious experience of believers in everyday life He also discusses the question of how this accounting for faith can function in a world of both secular worldviews and other religions Religious experience is not subjective or arbitrary but rational In these experiences human beings are involved with God Religious experience can be described phenomenologically as an experience that transcends our capacities God reveals himself to people primarily in narratives Narratives have a rational structure and the Gospel narratives provide in narrative form arguments for faith The assent to faith involves the whole person and stamps his life story and conduct Assent to faith is thus affective but that does not exclude its being rational The positive reason for faith lies in experience itself There are no reasons for faith outside the faith itself but this does not mean that there are no points of contact in human existence for the Christian faith

Challenged: Living Our Faith in a Post Modern Age John King, 2019-12-03 My wife and I love our sons unconditionally and equally Talking with one of them about his atheism has brought me to a new dimension in my relationship with him to a review of my own christian beliefs to a more critical examination of the church and to a different understanding of ministry in today's world As personal as I make this all sound my family represents a thousand families a hundred thousand and more who have sat in painful silence because religious differences have taken away their voice They tire of confrontation angry discussions verse hurling and jabbing one another with theories over every conceivable divisive issue It is a powerful idea that those who do not share our faith should know that we do not so much in our argument as in our love It is time to listen

The Christian Doctrine of the Church, Faith, and the Consummation Emil Brunner, 2014-10-10 Emil Brunner 1889-1966 was the most widely read theologian in the English

Ecology, Myth, and Mystery N. D. R. Chandra, Nigamananda Das, 2007 [When History and Faith Collide](#) Charles W. Hedrick, 2013-02-05 Hedrick explores the tension or collision that occurs when studying the Jesus of faith with the critical eye of historical scholarship He outlines the nature of historical inquiry gives a brief history of how scholars have understood Jesus and identifies the essential issues confronting the reader of the New Testament Gospel accounts of Jesus discrepancies contradictions and the differences as well as strong similarities among different writers

Stonewall Jackson and Religious Faith in Military Command Kenneth E. Hall, 2005-05-03 The relationship between war and religion is nothing new For millennia humankind has waged war over religion and derived religion from war It is not surprising then that military leadership and religious conviction frequently coincide This study documents the long tradition of the religious warrior in Western history and literature with a special focus on Civil War general Thomas J Stonewall Jackson It also provides a general survey of the religious antecedents of Jackson and other more modern American military heroes The book begins with an introduction to the Confederate general largely from the perspective of those who lived with and served under him whose testimonies attest to his courage initiative innate tactical talent deep religious faith and eccentric personal habits The author analyzes the extent to which Jackson's national zeal has elevated him to the status of a religious martyr remembered today within an epic frame of sainthood and heroism Concise comparisons are drawn between Jackson and his Old World predecessors including Ulrich Zwingli John Knox and Oliver Cromwell Similar associations are made between Jackson and such Civil War contemporaries as William Dorsey Pender and Oliver Otis Howard A chapter addressing the representation of Stonewall in modern Civil War literature and film particularly in the novel and subsequent motion picture *Gods and Generals* provides an insightful juxtaposition of Jackson's status among the gods of the Civil War and his own reverence for the God of his Presbyterian faith

New Testament Faith for Today Amos N. Wilder, 2014-05-06 What was the faith behind the proclamations of Jesus the message of Paul and the Johannine witness and how can it be recovered today This penetrating and provocative book seeks to probe the various formulations of religious faith in the New Testament with a view to recovering the real essence and genius of Christianity today Dr Wilder sees three principal strains often harmonious but sometimes disparate in New Testament faith the proclamations of Jesus the message of Paul and the witness of John the Evangelist First he studies what has happened to our faith since its original message emerged from the concrete historical act and the resultant community of experience In the time since flesh and spirit as well as humanity and divinity have come to be regarded as mutually exclusive making it necessary for scientific humanism to develop a language of its own for religion has lost communication with it Jesus message however was a total claim and a total hope a prophetic forecast of human destiny Paul though he spoke a different language and used different symbols laid the

groundwork for an epochal revolution of the race John for his part emphasized eternal life here and now and previsioned a Christian freedom Dr Wilder ends with a stirring plea for a postliberal viewpoint that will recover the insights of the past without its mythology and terminology
