Plant Lore, Legends, and Lyrics Embracing the Myths, Traditions, Superstitions, and Folk-Lore of the Plant Kingdom Richard Folkard, 2020-09-28 THE analogy existing between the vegetable and animal worlds and the resemblances between human and tree life have been observed by man from the most remote periods of which we have any records Primitive man watching the marvellous changes in trees and plants which accurately marked not only the seasons of the year but even the periods of time in a day could not fail to be struck with a feeling of awe at the mysterious invisible power which silently guided such wondrous and incomprehensible operations Hence it is not astonishing that the early inhabitants of the earth should have invested with supernatural attributes the tree which in the gloom and chill of Winter stood gaunt bare and sterile but in the early Spring hastened to greet the welcome warmth giving Sun by investing itself with a brilliant canopy of verdure and in the scorching heat of Summer afforded a refreshing shade beneath its leafy boughs So we find these men of old who had learnt to reverence the mysteries of vegetation forming conceptions of vast cosmogonic world or cloud trees overshadowing the universe mystically typifying creation and regeneration and yielding the divine ambrosia or food of immortality the refreshing and life inspiring rain and the mystic fruit which imparted knowledge and wisdom to those who partook of it So again we find these nebulous overspreading world trees connected with the mysteries of death and giving shelter to the souls of the departed in the solemn shade of their dense foliage Looking upon vegetation as symbolical of life and generation man in course of time connected the origin of his species with these shadowy cloud trees and hence arose the belief that humankind first sprang from Ash and Oak trees or derived their being from Holda the cloud goddess who combined in her person the form of a lovely woman and the trunk of a mighty tree In after years trees were almost universally regarded either as sentient beings or as constituting the abiding places of spirits whose existence was bound up in the lives of the trees they inhabited Hence arose the conceptions of Hamadryads Dryads Sylvens Tree nymphs Elves Fairies and other beneficent spirits who peopled forests and dwelt in individual trees not only in the Old World but in the dense woods of North America where the Mik amwes like Puck has from time immemorial frolicked by moonlight in the forest openings Hence also sprang up the morbid notion of trees being haunted by demons mischievous imps ghosts nats and evil spirits whom it was deemed by the ignorant and superstitious necessary to propitiate by sacrifices offerings and mysterious rites and dances Remnants of this superstitious tree worship are still extant in some European countries The Irminsul of the Germans and the Central Oak of the Druids were of the same family as the Asherah of the Semitic nations In

England this primeval superstition has its descendants in the village maypole bedizened with ribbons and flowers and the Jack in the Green with its attendant devotees and whirling dancers The modern Christmas tree too although but slightly known in Germany at the beginning of the present century is evidently a remnant of the pagan tree worship and it is somewhat remarkable that a similar tree is common among the Burmese who call it the Padaytha bin This Turanian Christmas tree is made by the inhabitants of towns who deck its Bamboo twigs with all sorts of presents and pile its roots with blankets cloth earthenware and other useful articles *Myths & Texts* Gary Snyder, 2013-08-10 Gary Snyder's second collection *Myths Texts* was originally published in 1960 by Totem Press It is now reissued by New Directions in this completely revised format with an introduction by the author The three sequences in the book Logging Hunting Burning show the remarkable cohesiveness in Snyder's writings over the years for we find the poet absorbed then as now with Buddhist and Amerindian lore and other interconnections East and West but above all with the premedical devotion to the land and work

Mathilde Blind: Selected Fin-de-Siècle Poetry and Prose James Diedrick, 2021-11-12 Mathilde Blind's contributions to the New Woman and Decadent movements in the 1880s and 1890s placed her at the centre of fin de siècle literary culture She rose to prominence in the early 1870s both as an expert on and proponent of the poetry of Percy Bysshe Shelley and as one of the few women writers published in the *Dark Blue* 1871-73 an influential journal that featured the work of Britain's leading Pre-Raphaelites and aesthetes By the late 1880s she had established close associations with key figures of England's emergent Decadent communities from Vernon Lee and Rosamund Marriott Watson to Oscar Wilde and Arthur Symonds When her *Dramas in Miniature* appeared in 1891 she was fusing aestheticism and Decadence so distinctively in her poetry that Symonds evoked Charles Baudelaire in calling the dramatic monologues in the volume *flowers of evil* Her career thus highlights the connections between mid-Victorian aestheticism and late century Decadence It also serves as an important corrective to the male-focused narratives that long dominated accounts of these movements In addition and because Blind was born in Germany of Jewish parents and part of a community of exiled European radicals her poetry and prose alike are characterized by a transnational cosmopolitan outlook that ranges across national borders and consistently engages with Continental writers and ideas This new edition for the first time brings together the three major volumes of poetry Blind published between 1889 and 1895 alongside a critical introduction and explanatory notes Because she was also an active reviewer and essayist throughout her career it includes a selection of her reviews as well as her essay *Shelley's View of Nature Contrasted with Darwin's* which serves as an important supplement to her 1889 volume *The Ascent of Man* The edition also features a selection of critical responses to Blind's writing by leading late Victorian poets and critics

The Eureka Myth Jessica Silbey, 2014-12-17 Are innovation and creativity helped or hindered by our intellectual property laws In the two hundred plus years since the Constitution enshrined protections for those who create and innovate we re still debating the merits of IP laws and whether or not they actually work as intended Artists scientists businesses and the lawyers who serve them as well as the Americans who benefit from their creations all still wonder what facilitates innovation and creativity in our digital age And what role if any do our intellectual property laws play in the growth of innovation and creativity in the United States Incentivizing the progress of science and the useful arts has been the goal of intellectual property law since our constitutional beginnings The Eureka Myth cuts through the current debates and goes straight to the source the artists and innovators themselves Silbey makes sense of the intersections between intellectual property law and creative and innovative activity by centering on the stories told by artists scientists their employers lawyers and managers describing how and why they create and innovate and whether or how IP law plays a role in their activities Their employers business partners managers and lawyers also describe their role in facilitating the creative and innovative work Silbey s connections and distinctions made between the stories and statutes serve to inform present and future innovative and creative communities Breaking new ground in its examination of the U S economy and cultural identity The Eureka Myth draws out new and surprising conclusions about the sometimes misinterpreted relationships between creativity and intellectual property protections

Victorian Sexual Dissidence Richard Dellamora, 2019-04-08 Recent critical and historical work on the late Victorian period has furnished a vocabulary for discussing gender and sexuality These popular terms include categories such as homo hetero patriarchal feminist and masculine effeminate This collection exploits this framework while refining and resisting it in places to show how certain Victorians imagined difference in ways that continue to challenge us today One essay for example traces the remarkable feminist appropriation of male identified fields of study such as Classical philology Others address the validation of male bodies as objects of desire in writing painting and emergent modernist choreography The writings shed light on the diverse interests served by a range of cultural practitioners and on the complex ways in which the late Victorians invented themselves as modern subjects This volume will be essential reading for students of British literary and cultural history as well as for those interested in feminist gay and lesbian studies Contributors are Oliver Buckton Richard Dellamora Dennis

Pandora's Senses Vered Lev Kenaan, 2008-02-05 The notorious image of Pandora haunts mythology a woman created as punishment for the crimes of man she is the bearer of hope yet also responsible for the earth's desolation She binds together perpetuating dichotomies that underlie the most fundamental aspects of the Western canon beauty and evil body and soul depth and superficiality truth and lie Speaking in multiplicity Pandora emerges as the first sign of female complexity In this compelling study Vered Lev Kenaan offers a radical revision of the Greek myth of the first woman She argues that Pandora leaves a decisive mark on ancient poetics and shows that we can unravel the profound impact of Pandora's image once we recognize that Pandora embodies the very idea of the ancient literary text Locating the myth of the first woman right at the heart of feminist interrogation of gender and textuality Pandora's Senses moves beyond a feminist critique of masculine hegemony and shows the centrality of this iconic figure among the poetics of such central genres as the cosmological and didactic epic the Platonic dialogue the love elegy and the ancient novel Pandora's Senses innovates our understanding of gender as a critical lens through which to view ancient literature

Whitman's Queer Children Catherine A.

Davies, 2012-04-26 Davies examines the work of four of the most important twentieth century poets who have explored the epic tradition Some of the poems display an explicit concern with ideas of American nationhood while others emulate the formal ambitions and encyclopaedic scope of the epic poem The study undertakes extensive close readings of Hart Crane's The Bridge 1930 Allen Ginsberg's Howl 1956 and The Fall of America Poems of These States 1965-71 1972 James Merrill's The Changing Light at Sandover 1982 and John Ashbery's Flow Chart 1991 Although not primarily an account of a Whitmanian lineage this book considers Whitman's renegotiation of the dialectic between the public and the private as a context for the project of the homosexual epic arguing for the existence of a genealogy of epic poems that rethink the relationship between these two spheres If as Bakhtin suggests the job of epic is to accomplish the task of cultural national and political centralization of the verbal ideological world the idea of the homosexual epic fundamentally problematizes the traditional aims of the genre
