Myth And Philosophy A Contest Of Truths:

Myth and Philosophy Lawrence J. Hatab, 1990 Hatab's work is more than an interpretative study inspired by Nietzsche and Heidegger of the historical relationship between myth and philosophy in ancient Greece. Its conclusions go beyond the historical case study and amount to a defence of the intelligibility of myth against an exclusively rational or objective view of the world.

The Absence of Myth Sophia Heller, 2012-02-01 In this provocative work Sophia Heller challenges the assumption that we cannot be without myth; that myth is necessary to vital soulful living. Indeed, Heller argues we have been living in a world without myth for a long time. *The Absence of Myth* examines the loss of a religious mode of being in the world and demonstrates how theorists who insist on the presence of myth deny its historical end. Absence of myth may seem obvious, evidenced by our lack of cult and ritual and by our de-animated natural world as well as in the emergence of conceptual thought and psychological awareness which could only arise with the dissolution of a prereflective mythic mode of being in the world. But what appears to be straightforward becomes complicated when myth is intentionally conflated with thought and reflection, usually in the attempt to cultivate a mythic consciousness that aims to restore meaning to life and assuage the spiritual malaise of contemporary culture. Myth cannot rest in peace. It must be continually unearthed, redefined, and recontextualized such that modern and postmodern notions of myth are made to substitute for something that has never been experienced, only imagined.

Myths and Fictions Biderman, Scharfstein, 2021-11-22 *Myths and Fictions*, the third in a series of books on comparative philosophy and religion, is a collection of original essays, none previously published, on the theory and the actuality of myths and fictions in the different cultures of the world. Through all the essays there runs the question of the relation of literal truth to truth conceived in other ways or dimensions. Taken as a whole, the book makes a serious attempt to get beyond the confines of any single culture and enter into the mythical imagination of the ancient Hindus, Chinese, Hebrews, and Christians, and by this act of imagination to escape, in Italo Calvino's words, the limited perspective of the individual ego, not only to enter into selves like our own but to give speech to that which has no language.

Comparative Theories of Nonduality Milton Scarborough, 2009-04-21 This constructive work of comparative philosophy explains the concept of dualism, looks at the problems it creates, and suggests how these might be circumnavigated.

Myth and Modernity Milton Scarborough, 1994-01-01 This book surveys selected modern theories of myth from philosophy, religion, anthropology, sociology, and psychoanalysis to demonstrate a common commitment to a dualistic ontology and/or epistemology. With help from the work of Maurice Merleau-Ponty and Michael Polanyi, the author proposes a new theory of myth which goes beyond these dualisms. It argues that although the Enlightenment sought to banish myth, it was itself animated by myths which it could neither recognize nor accredit. Moreover, it argues that myth is a primordial, articulate grasp of the life-world and is essential for providing a fundamental orientation to all human activities, including theorizing. The myths of *Timaeus* and *Genesis* are shown tacitly to shape modernity's most sophisticated theories in

The Making of American Liberal Theology Gary J. Dorrien, 2006-01-01 In this first of three volumes Dorrien identifies the indigenous roots of American liberal theology and demonstrates a wider longer running tradition than has been thought The tradition took shape in the nineteenth century motivated by a desire to map a modernist third way between orthodoxy and rationalistic deism atheism It is defined by its openness to modern intellectual inquiry its commitment to the authority of individual reason and experience its conception of Christianity as an ethical way of life and its commitment to make Christianity credible and socially relevant to modern people Dorrien takes a narrative approach and provides a biographical reading of important religious thinkers of the time including William E Channing Ralph Waldo Emerson Horace Bushnell Henry Ward Beecher Elizabeth Cady Stanton and Charles Briggs Dorrien notes that although liberal theology moved into elite academic institutions its conceptual foundations were laid in the pulpit rather than the classroom

Dialectic and Narrative Thomas R. Flynn, Dalia Judovitz, National Endowment for the Humanities Professor of French Dalia Judovitz, 1993-01-01 Dialectic and narrative reflect the respective inclinations of philosophy and literature as disciplines that fix one another in a Sartrean gaze admixing envy with suspicion Ever since Plato and Aristotle distinguished scientific knowledge episteme from opinion doxa and valued demonstration through formal final causes over emplotment mythos the palm has been awarded to dialectic as the proper instrument of rational discourse the arbiter of coherence consistency and ultimately of truth The matter becomes more complicated when we recognize the various uses of the term dialectic in the tradition some of which complement and even overlap the narrative domain By confronting these concepts with one another either de facto or ex professo the following essays not only raise anew the ancient questions of the identities of philosophy and literature but do so in the context of recent postmodern challenges to their relative autonomy
