This carefully crafted ebook, *Lawrence of Arabia: The Man Behind the Myth Complete Autobiographical Works Memoirs*, he often sent several letters a day. *Seven Pillars of Wisdom* is an account of his war experiences. In 1919 he had been elected to a seven year research fellowship at Oxford providing him with support while he worked on the book. In addition to being a memoir of his experiences during the war, certain parts also serve as essays on military strategy, Arabian culture and geography and other topics. Lawrence re-wrote *Seven Pillars of Wisdom* three times, once blind, after he lost the manuscript while changing trains at Reading railway station. *The Mint* is a memoir of his experiences as an enlisted man in the Royal Air Force (RAF). It concerns the period following the First World War when Lawrence decided to disappear from public view. He enlisted in RAF under an assumed name, becoming 352087 Aircraftman Ross. The book is a closely observed autobiographical account of his experiences. He worked from a notebook that he kept while enlisted, writing of the daily lives of enlisted men and his desire to be a part of something larger than himself, the Royal Air Force. The book's title likens the RAF training to a coin factory with the men as the raw material and life in the training camp as being in the mill that stamps the coins out of the blank metal.
