Mythology As Metaphor:

Leadership, Myth, & Metaphor Daniel Cherry, Jeff Spiegel, 2006-01-06 Use the creative energy of metaphor to clarify and make your leadership vision a reality How do you see yourself as an educator How would you describe yourself as a leader Have you ever considered using metaphors to reframe your leadership practice vision and mission Often leaders stumble when asked to articulate their values ethics and purpose This book illustrates the significance of leadership archetypes and metaphoric reframing in understanding and facilitating organizational change Leadership Myth Metaphor reports on the findings of a professional development study funded by the Gates Foundation of more than 250 superintendents and principals celebrating educators unique individual core values while acknowledging their shared intrinsic beliefs including A commitment to a cause beyond oneself A devotion to an ethic of care A desire to improve the condition of society A wish to make a significant impression on student and adult lives A conviction to inspire others to seek their full potential Awareness of yourself on a personal and professional level leads to a deeper consideration of your mission as a leader and of your purpose in life **Postmodernism: Foundational essays** Victor E. Myth, History, and Metaphor in the Hebrew Bible Paul K.-K. Cho, 2019-02-07 Explores the influence of the sea myth at the structural and conceptual foundations of the Hebrew Bible **History and Anti-History in Philosophy** Victorino Tejera, 2017-07-05 History and Anti History in Philosophy demonstrates the viability of the idea of the unity of philosophic thinking and the reflective practice of the history of philosophy It is a concise in depth history of the deconstructive turn in philosophy and of the styles of historical and interpretive contextualization afforded by diverse schools of thought Thematic unity arises from the focus of contributors on the historical dimension of reflection in philosophy History of philosophy and intellectual history come together when they are forced to practice foundational analysis namely when they feel the need to uncover indubitables of society Indubitables are deeply held usually unnoticed premises upon which a society or group acts builds and speaks By foundational analysis the editors do not mean the search for acceptable starting points of intellectual exploration but the ongoing criticism of all such postulates of faith For those interested in contextual analysis of Kant Hegel Marx Dewey Mannheim Husserl Dilthey Heidegger and Gadamer this is an invaluable guide The editors make plain their belief that not using history as have past philosophies is unphilosophic ideas in personal construction to a text that cannot supply reasons for being taken seriously in history This volume illuminates the achievements of present day social science insights It merits a close reading by those for whom the history of ideas is a living entity **Allegories of the Anthropocene** Elizabeth M. DeLoughrey, 2019-06-28 Elizabeth M DeLoughrey traces how indigenous and postcolonial peoples in the Caribbean and Pacific Islands grapple with the enormity of colonialism and anthropogenic climate change through art poetry and literature by using allegorical narratives **Mythology and Metaphor** Rafael Radivoi, 2014-10-26 **Literature and Theology** Dr Heather Walton, 2013-06-28 This book explores current trends in the interdisciplinary study of literature and

theology an area of academic activity that has developed dramatically in the past twenty years The field of study originated from the impetus to embrace the richness of imaginative resources in theological reflection and was stimulated by the re emergence of the sacred in contemporary theory Since the mid 90s critical theory has undergone a number of significant transformations theology has become a subject of public concern and the boundaries between sacred and cultural texts have become increasingly unstable This book brings together the work of leading scholars in the field with that of emerging voices Offering an important resource for the growing number of postgraduate courses exploring the relation between religion and culture in the contemporary context this book delineates current trends in interdisciplinary debate as well as tracing emerging configurations *Metaphors, Narratives, Emotions* Stefán Snævarr, 2010-01-01 This book argues that there is a complex logical and epistemological interplay between the concepts of metaphor narrative and emotions They share a number of important similarities and connections In the first place all three are constituted by aspect seeing the seeing as or perception of Gestalts Secondly all three are meaning endowing devices helping us to furnish our world with meaning Thirdly the threesome constitutes a trinity Emotions have both a narrative and metaphoric structure and we can analyse the concepts of metaphors and narratives partly in each other's terms Further the concept of narratives can partly be analysed in the terms of emotions And if emotions have both a narrative structure and a metaphoric one then the concept of emotions must to some extent be analysable through the concepts of narratives and metaphors But there is more Metaphors especially poetic ones are important tools for the understanding of the tacit sides of emotions perhaps because of the metaphoric structure of emotions The notion that narrations can be tools for understanding emotions follows from two facts narrations are devices for explanation and emotions have a narrative structure Fourthly the threesome has an impact on our rationality It has become commonplace to say that emotions have a cognitive content that narratives have an explanatory function and that metaphors can perform cognitive functions This book is the first attempt to articulate the implications that these new ways of seeing the three concepts entail for our concept of reason The cognitive roles of the threesome suggest a richer notion of rationality than has traditionally been held a rationality enlivened with metaphoric narrative and emotive qualities

Language in Literature Jonathan Locke Hart, 2024-10-15 Language in Literature examines the overlap and blurring boundaries of English comparative and world poetry and literature Questions of language literature translation and creative writing are addressed as befitting an author who is a poet literary scholar and historian The book begins with metaphor which Aristotle thought in Poetics was the key gift of the poet and discusses it in theory and practice it moves from the identity of metaphor to identity in translation and culture it examines poetry in a comparative and world context it looks at image and text it explores literature and culture in the Cold War it explores the role of the poet and scholar in translating poetry East and West it places creative writing in theory and practice in context East and West it concludes by summing up and suggesting implications of creation in language translating and interpreting and its expression in literature especially in
