Peace Accords And Ethnic Conflict:

Peace Accords and Ethnic Conflict K. M. De Silva, S. W. R. de A. Samarasinghe, 1993 Accords and treaties figure prominently in conflict resolution in societies destabilized by ethnic conflict This volume uses examples from India Sri Lanka Canada Cyprus and the Sudan to examine factors that prompt the making of accords and explores why and how in most cases the accords do not hold for very long Experienced negotiators have been teamed up with leading academics to provide a thorough comparative perspective The book includes the texts of key accords and treaties **The Intra-Group**

Dimensions of Ethnic Conflict in Sri Lanka Kenneth Bush, 2003-12-09 Through an examination of the critical junctures in post colonial Sri Lanka Kenneth D Bush refines and advances our understanding of the dynamics underpinning violent and non violent ethnic conflict The book enables us to understand how the ebb and flow of relations within ethnic groups affects relations between groups for good or for ill Peace Agreements and Civil Wars in Africa , **Understanding Ethnic**

Conflict Raymond Taras, Rajat Ganguly, 2015-08-07 Understanding Ethnic Conflict provides all the key concepts needed to understand conflict among ethnic groups Including approaches from both comparative politics and international relations this text offers a model of ethnic conflict s internationalization by showing how domestic and international actors influence a country s ethnic and sectarian divisions Illustrating this model in five original case studies the unique combination of theory and application in Understanding Ethnic Conflict facilitates more critical analysis of contemporary ethnic conflicts and the world s response to them **Governing Ethnic Conflict** Andrew Finlay, 2010-07-15 This book offers an intellectual history

of an emerging technology of peace and explains how the liberal state has come to endorse illiberal subjects and practices The idea that conflicts are problems that have causes and therefore solutions rather than winners and losers has gained momentum since the end of the Cold War and it has become more common for third party mediators acting in the name of liberal internationalism to promote the resolution of intra state conflicts These third party peace makers appear to share lessons and expertise so that it is possible to speak of an emergent common technology of peace based around a controversial form of power sharing known as consociation In this common technology of peace the cause of conflict is understood to be competing ethno national identities and the solution is to recognize these identities and make them useful to government through power sharing Drawing on an analysis of the peace process in Ireland and the Dayton Accords in Bosnia Herzegovina the book argues that the problem with consociational arrangements is not simply that they institutionalise ethnic division and privilege particular identities or groups but more importantly that they close down the space for other ways of being By specifying identity categories consociational regimes create a residual sink category designated other These others not only offer a challenge to prevailing ideas about identity but also stand in reproach to conventional wisdom regarding the management of conflict This book will be of much interest to students of conflict resolution ethnic conflict identity and war and conflict studies in general Andrew Finlay is Lecturer in Sociology at Trinity

College Dublin *Ceasefire Agreements and Peace Processes* Malin Akebo, 2016-11-10 analyses ceasefire agreements in relation to peace processes using qualitative analysis uses a process oriented conflict dynamics approach to analyse and compare ceasefire agreements will be of much interest to students of peace and conflict studies intra state conflict Asian politics security studies and IR *Democracy and Ethnic Conflict* A. Guelke, 2004-03-31 Democracy and Ethnic Conflict addresses the problem of establishing durable democratic institutions in societies afflicted by ethnic conflict While the holding of multi party elections usually plays a role in the ending of conflict consolidating democracy presents a much larger challenge as does preventing the perversion of democracy through the dominance of a particular ethnic group

Handbook of Ethnic Conflict Dan Landis, Rosita D. Albert, 2012-02-14 Although group conflict is hardly new the last decade has seen a proliferation of conflicts engaging intrastate ethnic groups It is estimated that two thirds of violent conflicts being fought each year in every part of the globe including North America are ethnic conflicts Unlike traditional warfare civilians comprise more than 80 percent of the casualties and the economic and psychological impact on survivors is often so devastating that some experts believe that ethnic conflict is the most destabilizing force in the post Cold War world Although these conflicts also have political economic and other causes the purpose of this volume is to develop a

psychological understanding of ethnic warfare More specifically Handbook of Ethnopolitical Conflict explores the function of ethnic religious and national identities in intergroup conflict In addition it features recommendations for policy makers with the intention to reduce or ameliorate the occurrences and consequences of these conflicts worldwide Peace Agreements Nina Caspersen, 2017-01-06 Since the end of the Cold War a significant number of peace agreements have been signed many of them in bloody intra state conflicts that were previously thought beyond resolution How have these agreements addressed issues of territory security power and justice Do they reveal a blueprint for peace and what can we learn from both their successes and their failures This timely book provides a comprehensive and cutting edge analysis of peace agreements signed in separatist conflicts from 1990 to the present day Drawing on a diverse range of cases including Bosnia Indonesia the Philippines Sudan Israel Palestine and Ukraine it analyses the different peace packages focusing on the interaction of the elements in play and exploring the impact of political contestation within conflict parties and of peace process dynamics Though some of these agreements have displayed great ingenuity in finding lasting solutions many have relied on more traditional and often problematic designs For all such agreements the enduring challenge is that of ensuring flexibility while avoiding destructive ambiguity This is why the content of peace agreements really matters not only to sustain peace once it is achieved but to make the prospect of peace possible in the first place *Ethnic Conflict, Tribal Politics* Kenneth Christie, 2020-11-25 There is an urgent need for a book which combines the approaches of political science sociology and history and particularly comparative politics with ethnic studies There are currently many rapid and significant changes taking place in the world political map in terms of ethnic conflict How do we explain these changes How do we analyse them How can we compare them How do we make sense of the different ethnic conflicts that have taken place since the end of the Cold War in what some observers have dubbed the New World Order Few books on the market combine the diverse approaches of political science sociology and history at any level of analysis This work will remedy at least some of the deficiencies in the existing literature and be truly interdisciplinary in nature **The United States Institute of Peace Journal** , 1989 **The Internal Implementation of Peace Agreements After Violent Intrastate Conflict** Arist von Hehn, 2011-08-11 This study provides guidance on how to best approach the management of an internally led peace implementation process after violent intrastate conflict gives an overview of tasks to be taken on explains the legal framework provided for under international law and addresses management implications With a foreword by Nobel Peace Prize Laureate President Martti Ahtisaari **Undercurrents of Ethnic Conflicts in Kenya** John O. Ouko, 2002-01-01 This book provides graphic and scholarly perspectives of ethnic conflict in Kenya where ethnocentrism has grown with time and where both ethnic and administrative units are coterminous As the country's Rift Valley attracted in migration since independence in 1963 it became the seedbed of a simmering ethnic strife that exploded in 1991-93 causing a flood of internally displaced people IDP and grinding agricultural activity and economic enterprise to a halt International

Mediation Bias and Peacemaking Isak Svensson, 2014-11-27 This book examines the effect of biased and neutral mediators in civil wars Based on analysis of both global data and case studies of contemporary peace processes including India and Norway in Sri Lanka China in Cambodia US in Israel Palestine and Russia in Georgia the book makes two main contributions First it explores the role of biased mediators in contemporary peace processes The author develops a theory explaining why biased mediators are more effective than their neutral counterparts and the book identifies four different mechanisms through which biased mediators can be effective peace brokers By developing a comprehensive set of mechanisms to explain bias mediation the work deepens understanding of biased mediators in general and their role in resolving civil conflict in particular The second contribution offered is a novel way of measuring mediation success Previous research has concentrated on settlement behavior or implementation While these conceptualisations of mediation success all have merit they fail to address how the basic incompatible positions are regulated This book focuses on mediators ability to regulate core compatibilities by crafting institutional peace arrangements that generally are considered to enhance the prospect for durable peace This approach has wider implications for peace and conflict research by bringing together research on durability of peace and studies on international mediation two fields of research which hitherto have been kept apart This book will be of much interest to students of international mediation conflict management civil wars security studies and IR in general

Peacemaking, Power-sharing and International Law Martin Wählisch, 2019-09-05 This monograph provides a contemporary analysis of the frictions between peacemaking and international human rights law based on the cases of postconflict power sharing in Lebanon and Bosnia Herzegovina In this context it evaluates the long standing debate in the United Nations and human rights bodies about the imperfect peace Written from a practitioner scholarly viewpoint and drawing from new authentic sources the book describes the mechanisms used in peace agreements and post conflict constitutions for managing ethnic or religious diversity explains their legal limits under international human rights law and provides a conceptual framework for analysing the nexus between law and peacemaking The book argues that the relationship between the content of peace agreements and post conflict constitutions their negotiation process and the element of time needs to be untangled to better understand the legal limits of statebuilding in the aftermath of armed conflict It is a key resource for scholars in human rights law and peace and conflict studies advisers in peace processes constitution makers and peace mediators

Peace Processes and Peace Accords Samir Kumar Das, 2005-11-05 The second volume in the South Asian Peace Studies series *Peace Processes and Peace Accords* looks at the political question of peace from three perspectives the process of peace the contentious issues involved in the peace process and the ideologies that come in conflict in this process Arguing that peace is not a one time event to be achieved and rejoiced over but a matter to be sustained against various odds the contributors show that the sustainability of peace depends on a foundation of rights justice and democracy Peace accords they maintain are only a moment in the process the very act of signing an accord could

mark either a continuation of the same conflict or simply its metamorphosis Therefore as this volume shows negotiation should be redefined as joint problem solving on a long term sustained basis rather than one off hard bargaining

On the Law of Peace Christine Bell, 2008-09-25 This book provides a comprehensive analysis of the use of peace agreements from a legal perspective It describes and evaluates the development of contemporary peace processes and the peace agreements that emerge The book sets out what is in essence an anatomy of peace agreement practice and interrogates its relationship to law At its heart the book grapples with the role of law in ending violent conflict and the broader questions this raises for the relationship of law to social change Law potentially plays two key roles with respect to peace agreements first to the extent that peace agreements themselves form legal documents law plays a role in the enforcement or implementation of the peace agreement second international law has a relationship to peace agreement negotiation and content in its regulatory guise International Law regulates self determination transitional justice and the role of third parties The book documents and analyses these two roles of law In doing so the book reveals a complex dynamic relationship between the peace agreement as a legal document and the role of international law in which international law and concepts of domestic constitutionalism are being re shaped The practice of negotiating peace agreements is argued to be producing a new law of the peacemaker or *lex pacificatoria* that connects developments in international law with new forms of domestic constitutional law in a set of hybrid relationships This law of the peacemaker potentially forms part of a broader law of peace that moves beyond the traditional concept of law of peace as merely the rest of international law once the laws of war are subtracted The new *lex pacificatoria* stands as an account of the way in which international law shapes and is shaped by peace agreements The book proposes an ambivalent response to this new law which connects to contemporary debates about the force of international law and its appropriate relationship with domestic constitutionalism

Perspectives on Contemporary Ethnic Conflict Santosh C. Saha, 2006-01-01 The existing traditions of inquiry into ethnic conflict can be classified into four categories essentialism instrumentalism constructivism and institutionalism All four traditions have a distinguished lineage but none can really account for the worldwide spread of ethnic violence We need to move from the local to the macro or global This book using methodology from sociology history and politics will present the complexities of ethnic conflict in terms of linguistics religion territory and tribes in various regions These brilliant essays look at some of the most conflicted sites in the world where ethnic violence has been created and played out Burma Indonesia Rwanda Burundi Nigeria the Sudan Mexico and Guyana Divided into two parts *Perspectives on Contemporary Ethnic Conflict* is a rich text for scholars of conflict studies focusing on the sources and dynamics of ethnic violence and providing descriptions of ethnic conflict across the globe
