Understanding Peace Michael Allen Fox, 2013-11-12 Understanding Peace A Comprehensive Introduction fills the need for an original contemporary examination of peace that is challenging informative and empowering This well researched fully documented and highly accessible textbook moves beyond fixation on war to highlight the human capacity for nonviolent cooperation in everyday life and in conflict situations After deconstructing numerous ideas about war and explaining its heavy costs to humans animals and the environment discussion turns to evidence for the existence of peaceful societies Further topics include the role of nonviolence in history the nature of violence and aggression and the theory and practice of nonviolence The book offers two new moral arguments against war and concludes by defining peace carefully from different angles and then describing conditions for creating a culture of peace Understanding Peace brings a fresh philosophical perspective to discussions of peace and also addresses down to earth issues about effecting constructive change in a complex world The particular strength of Understanding Peace lies in its commitment to reflecting on and integrating material from many fields of knowledge This approach will appeal to a diverse audience of students and scholars in peace studies philosophy and the social sciences as well as to general interest readers

Peace Museums Peter van den Dungen, 2024-12-31 This book is the first comprehensive study of the history nature and purposes of peace museums comprising twenty one essays by a leading authority in the field It presents a powerful argument for the need for this new kind of museum that informs and inspires visitors that a world of peace and nonviolence is both necessary and possible Whereas there are numerous museums about war and the armed forces museums about peacemaking and peacemakers are rare indeed the very concept of peace museums is still largely unknown This is a reflection of the traditional writing and teaching of history which is dominated by narratives of war and warriors with little or no attention being paid to the history of efforts to prevent and abolish war Peace museums are ideal instruments to bring the long fascinating and vitally important

history of peace to life for a large public Among the essays included are histories of two forgotten and unknown yet heroic efforts to prevent World War I and then World War II through museums that educated and alerted visitors about the disasters ahead if war was not avoided and ways to steer a different course following the catastrophe that was the Great War At a time when a barbaric war in Europe continuing wars in Africa and ominous threats of war in Asia are raising the specter of nuclear war and World War III the need for anti nuclear bomb and anti war museums is greater than ever Such museums are essential for the development of a global culture of peace and nonviolence The book provides inspiration and hope for everyone interested in efforts to overcome an existential threat to civilization that is wholly man made **Have You Peace?**

A Question for 1855 ... Sixth Edition John Charles Ryle,1854

What is a Just Peace? Pierre Allan,Alexis

Keller,2006-01-26 Just War has attracted considerable attention The words peace and justice are often used together Surprisingly however little conceptual thinking has gone into what constitutes a Just Peace This book which includes some of the world s leading scholars debates and develops the concept of Just Peace The problem with the idea of a Just Peace is that striving for justice may imply a Just War In other words peace and justice clash at times Therefore one often starts from a given view of what constitutes justice but this a priori approach leads especially when imposed from the outside straight into discord This book presents conflicting viewpoints on this question from political historical and legal perspectives as well as from a policy perspective The book also argues that Just Peace should be defined as a process resting on four necessary and sufficient conditions thin recognition whereby the other is accepted as autonomous thick recognition whereby identities need to be accounted for renouncement requiring significant sacrifices from all parties and finally rule the objectification of a Just Peace by a text requiring a common language respecting the identities of each and defining their rights and duties This approach based on a language oriented process amongst directly concerned parties goes beyond liberal and culturalist perspectives Throughout the process negotiators need to build a novel shared reality as well as a new common language allowing for an enduring harmony between previously clashing peoples It challenges a liberal view of peace founded on norms claiming universal scope The liberal conception has difficulty in solving conflicts such as civil wars characterized typically by fundamental disagreements between different communities Cultures make demands that are identity defining and some of these defy the cultural neutrality that is one of the foundations of liberalism Therefore the concept of Just Peace cannot be solved within the liberal tradition *Catechetical Sessions on the Creed* Hagarty Maura Thompson,2004 The focus of Catechetical Session on the Creed is on understanding the treasure the gifts and the sacrament that is Church The young people are supported as they grow in their faith and in their knowledge about the basic truths that Catholics profess They will be encouraged to make the mission of the Church their own and challenged to set their heart on all that is good holy and true about being a young Catholic in the world today Routledge Companion to Peace and Conflict Studies Sean Byrne,Thomas Matyók,Imani Michelle Scott,Jessica Senehi,2019-07-24 This Companion examines contemporary challenges in

Peace and Conflict Studies PACS and offers practical solutions to these problems Bringing together chapters from new and established global scholars the volume explores and critiques the foundations of Peace and Conflict Studies in an effort to advance the discipline in light of contemporary local and global actors The book examines the following eight specific components of Peace and Conflict Studies Peace and conflict studies praxis Structure agency tension as it relates to social justice nonviolence and relationship building Gender masculinity and sexuality The role of partnerships and allies in racial ethnic and religious peacebuilding Culture and identity Critical and emancipatory peacebuilding International conflict transformation and peacebuilding Global responses to conflict It argues that new critical and emancipatory peacebuilding and conflict transformation strategies are needed to address the complex cultural economic political and social conflicts of the 21st century This book will be of much interest to students of peace and conflict studies peace studies conflict resolution transitional justice reconciliation studies social justice studies and international relations *Waging Peace* Robert R. Bowie, Richard H. Immerman, 1998-02-12 *Waging Peace* offers the first fully comprehensive study of Eisenhower's New Look program of national security which provided the groundwork for the next three decades of America's Cold War strategy Though the Cold War itself and the idea of containment originated under Truman it was left to Eisenhower to develop the first coherent and sustainable strategy for addressing the issues unique to the nuclear age To this end he designated a decision making system centered around the National Security Council to take full advantage of the expertise and data from various departments and agencies and of the judgment of his principal advisors The result was the formation of a long haul strategy of preventing war and Soviet expansion and of mitigating Soviet hostility Only now in the aftermath of the Cold War can Eisenhower's achievement be fully appreciated This book will be of much interest to scholars and students of the Eisenhower era diplomatic history the Cold War and contemporary foreign policy *Reimagining Peace through Process Philosophy* Juliet Bennett, 2025-03-07 This book explores the ways in which process philosophers extend and strengthen peace scholars outlines of a paradigm of for peace It then illustrates the value of such a peace paradigm through the example of the climate breakdown showing how process thinking and process metaphysics intervene at the roots of a global systemic crisis In doing so it articulates a new inroad to process philosophy and illuminates an integrative intervention in the systemic crises of climate change and global inequality The static process framework developed in this book makes the philosophy of Alfred North Whitehead and the fields he has inspired easier to grasp and offers a tool to assist in the application of process thought to a multitude of issues This framework depicts tensions between two modes of thought static and process thinking according to five basic orientations abstract context closed open isolating relational passive generative one multi dimensional This pattern is mapped across the domains of metaphysics economics politics and as the basis for a new mode of living and organising across multiple layers of society *Passion for Peace* Stuart Rees, 2003 *Passion for Peace* considers the use of non violence and attaining human rights for all It also raises questions about current issues including peace in the Middle

East US unilateralism the war on terrorism powerlessness associated with poverty racism and justice for asylum seekers

Interactive Readings for Christian Worship Edwin Zackrison, Melvin Campbell, 2003-08 Need some revitalization of your worship service with more involvement on the part of the congregations? Or do you need more focus on the sermon subjects? This book may well be your answer. The 53 responsive readings in the book differ from the traditional approach. Here you may find the audience cast in various roles such as in drama where they will respond as a character in a story such as in readers theatre. Good reading is easy to achieve as in choral reading and the audience gets to answer and suggest corporately as in traditional responsive readings. The audience may play the fool, the pharisee, the publican, God, the believer, or the skeptic. At all times we worked at keeping the responses short so that the long monotony of untrained reading would be avoided and a minimum of rehearsal instruction would be needed to have maximum expression. Both youth and adults have enjoyed these responsive readings. We think your congregation will as well.
