Peacemaking And Peacekeeping For The New Century:

Peacemaking and Peacekeeping for the New Century Michael W. Doyle, Olara A. Otunnu, Nelson Mandela, 2000-01-01 The UN's record in peace operations is long various distinguished by both accomplishments and failures and most importantly innovative Unfulfilled expectations and escalating violence in Somalia Rwanda and Bosnia forced retrenchment upon UN peace operations_ but at the same time a new opportunity to enhance capacities review strategies redefine roles and reaffirm responsibilities has opened up Here a dynamic group of leading diplomats academics and journalists combines forces with UN policymakers and leaders including current Secretary General Kofi Annan and former Secretary General Boutros Boutros Ghali to explore how the international community can improve its practice in negotiating and implementing peace They look at what works and what doesn't in UN peacemaking and peacekeeping and then map out alternative futures for UN action in the 21st century

Peacemaking and Peacekeeping for the New Century Olara A. Otunnu, Michael W. Doyle, 1998 Here a dynamic group of leading diplomats academics and journalists combines forces with UN policymakers and leaders including current Secretary General Kofi Annan and former Secretary General Boutros Boutros Ghali to explore how the international community can improve its practice in negotiating and implementing peace

Approaches to Peacebuilding H. Jeong, 2002-08-11 Ho Won Jeong and a cast of experts explore the ways in which the dynamics of post conflict situations can be transformed to sustainable peace Contributors focus on designs and models of peacebuilding functions of peacekeeping capacity building through negotiations reconciliation the role of gender in social reconstruction and policy coordination among different components of peacebuilding The analysis illustrates past and current experiences of peacebuilding and suggests conceptual and policy approaches that can overcome the weaknesses of existing strategies

Peace and Conflict Studies Ho-Won Jeong, 2017-07-05 Ho Won Jeong explains and assesses major approaches to dealing with ethnic conflict communal violence inter state war and social injustice The book analyses not only the sources of violence and conflict but also how to manage and prevent them As peace is relevant to improvement in human well being and the future survival of humanity the volume encompasses a variety of themes ranging from alternative security policies methods of peaceful settlement human rights self determination environmental politics global governance and non violence Reflecting on the current thinking and drawing lessons from the past the book can be considered as the most authoritative introduction to the field since the end of the Cold War

Soldiers in Peacemaking Beatrice de Graaf, Frédéric Dessberg, Thomas Vaisset, 2023-08-10 What is the role of a soldier at the end of war when either victory or defeat is inevitable This book delves into that question exploring how the military and soldiers on the ground have contributed to the transition to peace With case studies from 1800 to the present day Soldiers in Peace making offers a historical overview of the part military men and women have played in the aftermath of war From UN peacekeeping in Cambodia to military observers in former Yugoslavia the post Cold War US Army and more the essays in this collection map the strategy politics and

practicalities involved in the transition from war to postwar Analyzing the legitimacy of each peace and the military's approach to them the chapters explore how soldiers have engaged with politics and political leaders interacted with civil populations and called upon their own expertise to enable the peace making process In exploring the hybrid role of military men and women as diplomats peacemakers negotiators and fighters this book reveals the crucial part they have played as conflicts come to a close

Peacebuilding as Politics Elizabeth M. Cousens, Chetan Kumar, Karin Wermester, 2001 Examines successes and failures of large scale interventions to build peace in El Salvador Cambodia Haiti Somalia and Bosnia and Herzegovina Sheds lights on the unique conditions for and constraints on peacebuilding in each country and examines the quality and coherence of international responses Cousens is director of research at the International Peace Academy Kumar is affiliated with the Office of the Special Representative of the UN Secretary General for Children and Armed Conflict Annotation copyrighted by Book News Inc Portland OR

Peacebuilding in the United Nations Fernando Cavalcante, 2019-05-06 This book traces the trajectory and different meanings of the concept of peacebuilding in the United Nations since the early 1990s It analyses how that concept gained life in a particular context and the implications of this process for the Organisation's support to societies affected by armed conflict in general and for peace operations in particular Departing from tenets about the influence of ideas in world politics and engaging with the critique of the liberal peace scholarship the book provides a theoretically informed narrative of how peacebuilding acquired different meanings while remaining largely motivated justified legitimated and informed by a proactive and top down agenda of promoting liberal democratic institutions norms and values as a remedy to the challenges faced by societies affected by armed conflict The book will appeal to scholars policymakers and practitioners in peacebuilding and post conflict development

The United Nations Franz Cede, Lilly Sucharipa-Behrmann, 2001-02-01 The political changes in the world have profoundly altered the United Nations This new book is one of the first to describe the structure of the world organization in the present context of international relations The United Nations Law and Practice is a no nonsense book concise informative and up to date In their respective careers as diplomats or academics all authors combine vast practical and theoretical experience in dealing with the UN

Japan's Security Identity Bhubhindar Singh, 2013 Since the end of the Cold War there has been a significant change in Japanese security policy as Japan's security identity has shifted from a peace state to an international state In this book Bhubhindar Singh argues that from the 1990s onwards the Japanese security policymaking elite recognized that its earlier approach to security policy which was influenced by the peace state security identity was no longer appropriate Rather as a member of the international community Japan had to carve out a responsible role in regional and international security affairs which required greater emphasis on the role of the military in Japan's security policy To explore the change in Japan's security identity and its associated security behaviour this book contrasts the three areas that define and shape Japanese security policy Japan's conception or definition of national security the country's contribution in military terms to

regional and international affairs and the changes to the security policy regime responsible for the security policy formulation. Further, it seeks to challenge the dominant realist interpretation of Japanese security policy by adopting an identity-based approach and showing how whilst realist accounts correctly capture the trajectory of Japanese post-Cold War security policy, they fail to explain the underlying causes of the change in Japanese security behaviour in the post-Cold War period. This book is an important addition to the current literature on Japanese security policy and will be of great use to students and scholars interested in Japanese and Asian politics as well as security studies and international relations more broadly.

Humanitarian Intervention and Conflict Resolution in West Africa John M. Kabia, 2016-05-13 The end of the Cold War has been characterized by a wave of violent civil wars that have produced unprecedented humanitarian catastrophe and suffering. Although mostly intra-state, these conflicts have spread across borders and threatened international peace and security. One of the worst affected regions is West Africa, which has been home to some of Africa's most brutal and intractable conflicts for more than a decade. This volume locates the peacekeeping operations of the Economic Community of West African States (ECOWAS) within an expanded post-Cold War conceptualization of humanitarian intervention. It examines the organization's capacity to protect civilians at risk in civil conflicts and to facilitate the processes of peacemaking and post-war peace building. Taking the empirical case of ECOWAS, the book looks at the challenges posed by complex political emergencies (CPEs) to humanitarian intervention and traces the evolution of ECOWAS from an economic integration project to a security organization, examining the challenges inherent in such a transition.

Strategies of Peace Daniel Philpott, Gerard Powers, 2010-03-24 Scholars of peacebuilding rethink the basic goals and methods of conflict resolution and argue for a holistic approach that they term strategic peacebuilding, which aims not only for stability but for a comprehensive solution that incorporates apology, forgiveness, reconciliation, and most crucially, religion.

Adaptive Mediation and Conflict Resolution Cedric de Coning, Ako Muto, Rui Saraiva, 2022-03-24 This open access book introduces adaptive mediation as an alternative approach that enables mediators to go beyond liberal peace mediation or other determined design models of mediation in the context of contemporary conflict resolution and peace-making initiatives. Adaptive mediation is grounded in complexity theory and is specifically designed to cope with highly dynamic conflict situations characterized by uncertainty and a lack of predictability. It is also a facilitated mediation process whereby the content of agreements emerges from the parties to the conflict themselves, informed by the context within which the conflict is situated. This book presents the core principles and practices of adaptive mediation in conjunction with empirical evidence from four diverse case studies: Colombia, Mozambique, The Philippines, and Syria, with a view to generating recommendations for how mediators can apply adaptive mediation approaches to resolve and transform contemporary and future armed conflicts.

Democratizing Global Governance E. Aksu, J. Camilleri, 2002-07-15 Is globalization beyond human control? In this thought-provoking text, the myths and mantras of this apparently irresistible force are challenged and dissembled. By examining a number of fundamental

questions the contributors put forward a radical reform agenda for global governance Can the global multilateral system be democratic Are security and economic concerns separable Can the development of a global civil society contribute to effective global governance An important and wide ranging study this book will be essential reading for graduates and researchers in international relations

United States Congressional Serial Set, Serial No. 15001, Senate Documents Nos. 20-24 United States. 79th Congress, 2nd session, The Serial Set contains the House and Senate Documents and the House and Senate Reports This volume includes Senate Reports from 109th Congress 2nd Session 2006

Making War and Building Peace Michael W. Doyle, Nicholas Sambanis, 2011-04-22 Making War and Building Peace examines how well United Nations peacekeeping missions work after civil war Statistically analyzing all civil wars since 1945 the book compares peace processes that had UN involvement to those that didn't Michael Doyle and Nicholas Sambanis argue that each mission must be designed to fit the conflict with the right authority and adequate resources UN missions can be effective by supporting new actors committed to the peace building governing institutions and monitoring and policing implementation of peace settlements But the UN is not good at intervening in ongoing wars If the conflict is controlled by spoilers or if the parties are not ready to make peace the UN cannot play an effective enforcement role It can however offer its technical expertise in multidimensional peacekeeping operations that follow enforcement missions undertaken by states or regional organizations such as NATO Finding that UN missions are most effective in the first few years after the end of war and that economic development is the best way to decrease the risk of new fighting in the long run the authors also argue that the UN's role in launching development projects after civil war should be expanded

Peace Operations After 11 September 2001 Thierry Tardy, 2004-07-31 This book explores the possible consequences of the events of 11 September 2001 and of the fight against terrorism the way peace operations are perceived and conducted and the way that states international organizations such as NATO or the EU and non state actors consider these operations The 11 September attacks illustrate the widening of the security agenda the persistence of instability and the need to deal with it in both a preventive and a curative way The events have had a major impact on US foreign and defence policies on security policies on the hierarchy of priorities and US views of peace operations around the world This book shows that these different elements mean that the international environment of peace operations is likely to be modified while the local environment has remained largely unchanged

Understanding the UN Security Council Neil Fenton, 2017-11-30 This impressive work sheds light on the recent history of the UN Security Council UNSC examining how the penchant for UN backed humanitarian intervention in the 1990s has given way to an impotent UNSC unable to play a meaningful role in the war in Iraq It examines the precepts that govern UNSC politics including the sanctity of sovereign states the norm of non intervention and state interests Designed for readers who are interested in gaining a deeper understanding of the workings of the UNSC the attitudes of its members towards the use of force and sovereignty as well as understanding its limitations in international

politics this volume evaluates key issues such as the principle of consent the use of force intervention and sovereignty provides a rich array of case studies to understand the challenges of consent based peacekeeping presents strong analytical consistency drawing on a wide variety of sources

Security council reform: a new veto for a new century? (Egmont Paper 9) Jan Wouters,2005

In irons U.S. military might in the new century ,1995 This book is about the future condition of America s military might The message is sobering unsettling and for the moment unheeded Despite the best intentions of government U S fighting strength is being steadily and perceptibly eroded Unless the nation takes powerful remedial action or is very lucky before the end of this century this erosion in military power will lead to profound decline decay or worse Worse means that the debilitating form of in irons will become inevitable As will be shown the reasons for this accelerating and downward defense spiral are now predominantly structural domestic and embedded in the way the United States Government does and will do business in a world that possesses but a single superpower The larger questions of whether a dramatic cut in U S military capabilities and in the ability to project force on a timely and effective operational basis will matter and will harm U S national security are currently less precisely answerable However any message of warning is sure to be muffled and muzzled by measures of disinterest and complacency naturally arising from the public s attention on almost exclusively non defense issues and from the immediate and overwhelming superiority of today s U S military forces that seemingly contradicts any forecasts of despair
