Peasants King In Burgundy Agrarian Foundations Of French Absolutism:

Peasants and King in Burgundy Hilton L. Root, 1987 **The Social Interpretation of the French Revolution** Alfred Cobban, 1999-05-27 Alfred Cobban's *The Social Interpretation of the French Revolution* is one of the acknowledged classics of post war historiography. This revisionist analysis of the French Revolution caused a furore on first publication in 1964, challenging as it did established orthodoxies during the crucial period of the Cold War. Cobban saw the French Revolution as central to the grand narrative of modern history but provided a salutary corrective to many celebrated social explanations, determinist and otherwise of its origins and development. A generation later, this concise but powerful intervention was reissued in this 1999 edition with an introduction by Gwynne Lewis providing students with both a context for Cobban's own arguments and assessing the course of Revolutionary studies in the wake of *The Social Interpretation*. This book remains a handbook of revisionism for Anglo Saxon scholars and is essential reading for all students of French history at undergraduate level and above.

Reinterpreting the French Revolution Bailey Stone, 2002-10-21 Publisher Description *Markets in Historical Contexts* Mark Bevir, Frank Trentmann, 2004-02-12 *Markets in Historical Contexts* is the result of a dialogue between historians and social scientists thinking about markets in modern society. How should we approach markets after the collapse of Marxism? What alternative ways of thinking about markets can we recover from the past? The essays in this volume set out to challenge essentialist accounts of the market. Instead, they suggest that markets are always embedded in distinctive traditions and practices that shape the ways in which they are conceived and the manner of their working. The essays range widely over European and non European societies from the eighteenth century to the present, from the great transformation to globalization. Rational peasants, republican economists, popular conservatives, guild theorists, early environmentalists, communitarians, progressives, consumers, Gandhi's descendants and others are all revived. The volume thus recovers alternative ways of thinking about markets, many of which are neglected or marginalized in contemporary debates.

Spain, Europe, and the 'Spanish Miracle', 1700-1900 David R. Ringrose, 1998-11-26 A challenging re-examination of Spanish history questioning orthodoxies about Spain's economy and society.

The Military Revolution and Political Change Brian Downing, 2020-12-08 To examine the long run origins of democracy and dictatorship, Brian Downing focuses on the importance of medieval political configurations and of military modernization in the early modern period. He maintains that in late medieval times, an array of constitutional arrangements distinguished Western Europe from other parts of the world and predisposed it toward liberal democracy. He then looks at how medieval constitutionalism was affected by the military revolution of the early modern era, the shift from small decentralized feudal levies to large standing armies. Downing won the American Political Science Association's Gabriel Almond Award for the dissertation on which this book was based.
