Prelude To Man:

Romanticism and Transcendence J. Robert Barth, 2003 Grounded in the thought of Samuel Taylor Coleridge Romanticism and Transcendence explores the religious dimensions of imagination in the Romantic tradition both theoretically and in the poetry of Wordsworth and Coleridge J Robert Barth suggests that we may look to Coleridge for the theoretical grounding of the view of religious imagination proposed in this book but that it is in Wordsworth above all that we see this imagination at work Barth first argues that the Romantic imagination with its profound symbolic import of its very nature has religious implications and notes parallels between Coleridge's view of the imagination and that of Ignatius Loyola in his Spiritual Exercises He then turns to the role of religious experience in Wordsworth using The Prelude as a privileged source Next after comparing the conception of humanity and God in Wordsworth and Coleridge Barth considers the role of religious experience and imagery in two of Coleridge's central poetic texts The Rime of the Ancient Mariner and Christabel Finally Barth examines the continuing role of the Romantic idea of the religious imagination today in literature and all the arts linking it with the thought of theologian Karl Rahner and literary critic George Steiner Romanticism and Transcendence brings together literary theory poetry and religious experience areas that are interrelated but are often not seen in relationship By exploring levels of Wordsworth's and Coleridge's poetry that are often ignored Barth provides insight into how and why the imagination was so important to their work He also demonstrates how rich with religious value and meaning poetry and the arts can be The interdisciplinary nature of this important new study will make it useful not only to Wordsworth and Coleridge scholars and other Romantic specialists but also to anyone concerned with the intellectual history of the nineteenth century and to theologians in general

Ballingall,2023-07-15 This book offers an original interpretation of Plato's Laws and a new account of its enduring importance Ballingall argues that the republican regime conceived in the Laws is built on reverence an archaic virtue governing emotions of self assessment particularly awe and shame Ballingall demonstrates how learning to feel these emotions in the right way at the right time and for the right things is the necessary basis for the rule of law conceived in the dialogue The Laws remains surprisingly neglected in the scholarly literature although this is changing The cynical populisms haunting liberal democracies are focusing new attention on the characterological basis of constitutional government and Plato's Laws remains an indispensable resource on this question especially when we attend to the theme of reverence at its core *Dawn's Prelude (Song of Alaska Book #1)* Tracie Peterson,2009-09-01 Newly widowed Lydia Sellers discovers that through an unforeseen fluke she is the sole recipient of her husband's fortune But instead of granting her security it only causes strife as her adult stepchildren battle to regain the inheritance for themselves Lydia longing to put the memories of her painful marriage behind her determines to travel to Alaska to join her aunt Lydia's arrival in Sitka however brings two things she didn't expect One is the acquaintance of Kjell Bjorklund the handsome owner of the sawmill Second is the discovery that she is pregnant with her dead husband's child

as guiding truths by which to define the permanent meaning of Romanticism but as data of cultural history that shed important light on an evolving civilization

The Romanticism series in the Comparative History of Literatures in European Languages is the result of a remarkable international collaboration. The editorial team coordinated the efforts of over 100 experts from more than two dozen countries to produce five independently conceived yet interrelated volumes that show not only how Romanticism developed and spread in its principal European homelands and throughout the New World but also the ways in which the affected literatures in reaction to Romanticism have redefined themselves on into Modernism. A glance at the index of each volume quickly reveals the extraordinary richness of the series' total contents. Romantic Irony sets the broader experimental parameters of comparison by concentrating on the myriad expressions of irony as one of the major impulses in the Romantic philosophical and artistic revolution and by combining cross-cultural and interdisciplinary studies with special attention also to literatures in less widely diffused language streams. Romantic Drama traces creative innovations that deeply altered the understanding of genre at large, fed popular imagination through vehicles like the opera and laid the foundations for a modernist theater of the absurd. Romantic Poetry demonstrates deep patterns and a sharing of crucial themes of the revolutionary age which underlie the lyrical expression that flourished in so many languages and environments. Nonfictional Romantic Prose assists us in coping with the vast array of writings from the personal and intimate sphere to modes of public discourse including Romanticism's own self-commentary in theoretical statements on the arts, society, life, the sciences, and more. Nor are the discursive dimensions of imaginative literature neglected in the closing volume, Romantic Prose Fiction, where the basic Romantic themes and story types, the romance, novel, novella, short story, and other narrative forms, are considered throughout Europe and the New World. This enormous realm is seen not just in terms of Romantic theorizing but in the light of the impact of Romantic ideas and narration on later generations. As an aid to readers, the introduction to Romantic Prose Fiction explains the relationships among the volumes in the series and carries a listing of their tables of contents in an appendix. No other series exists comparable to these volumes which treat the entirety of Romanticism as a cultural happening across the whole breadth of the Old and New Worlds and thus render a complex picture of European spiritual strivings in the late eighteenth and the nineteenth centuries, a heritage still very close to our age.

Journey Iii: Return to Earth F. Thomas Warren, 2015-08-29

From *The Day the Earth Stood Still* to *War of the Worlds* and all the similar attempts to portray alien visitors to our world, the wonder of this genre will continue unabated. ET appealed to the wonder in all of us for things out there. Ghost spoke to the hope we all have for life after death, the concomitant desire that love conquers all, and that sinners ultimately pay. Any message intended by Close Encounters of the Third Kind was unfulfilled in the wonderment and wizardry of the overpowering special effects. The portrayal of extraterrestrials in movies and television has either been the evil invaders or the mysterious entities too esoteric for us to interface with. Envision in your mind such repeat visitors that are

real with definite purpose who reach out to Earth's common man and woman in fulfilling that purpose. By so doing such a visit would be similar to that of an intelligent mankind's visit to other worlds. Envision such a purpose that regales the heart in explaining the soul and its possibilities when corporeal life is no more. Such a story is *Journey III: Return to Earth*. Journey III set in the world events of 1980 will appeal to the Everyman's dream: the dream to participate in the adventure and hope that lives in each of us. Hang on.

The Maghrib in the Mashriq Maribel Fierro, Mayte Penelas, 2021-01-18. This is a pioneering book about the impact that knowledge produced in the Maghrib (Islamic North Africa and al Andalus) Muslim Iberia had on the rest of the Islamic world. It presents results achieved in the Research Project 'Local contexts and global dynamics: al Andalus and the Maghrib in the Islamic East' AMOI funded by the Spanish Ministry of Science, Innovation and Universities FFI2016-78878-R AEI/FEDER/UE and directed by Maribel Fierro and Mayte Penelas. The book contains 18 contributions written by senior and junior scholars from different institutions all over the world. It is divided into five sections dealing with how knowledge produced in the Maghrib was integrated in the Mashriq, starting with the emergence and construction of the concept 'Maghrib' (sections 1 and 2) how travel allowed the reception in the Maghrib of knowledge produced in the Mashriq but also the transmission of locally produced knowledge outside the Maghrib and the different ways in which such transmission took place (sections 3 and 4) and how the Maghribis who stayed or settled in the Mashriq manifested their identity (section 5). The book will be of interest not only for those whose research concentrates on the Maghrib but more generally for those who want to understand the complex and shifting dynamics between centres and peripheries as regards intellectual production and circulation.
