Principles Of Neuropsychological Rehabilitation:

Principles of Neuropsychological Rehabilitation George P. Prigatano, 1999 Without guiding principles clinicians can easily get lost in the maze of problems that a brain damaged patient presents This book underlines the importance of patients subjective experience of brain disease or injury and the frustration and confusion they undergo It shows that the symptom picture is a mixture of premorbid cognitive and personal characteristics with the neuropsychological changes directly associated with brain pathology By closely observing the patient s behavior the clinician can teach him or her about the direct and indirect effects of brain damage The book provides guidelines both for the remediation of higher cerebral disturbances and the management of patients interpersonal problems It presents a new perspective on disorders of self awareness and recovery as well as deterioration phenomena after brain injury It will be an invaluable resource for psychologists neurologists and psychiatrists involved in neuropsychological rehabilitation Essentials of Neuropsychological Rehabilitation Barbara A. Wilson, Shai Betteridge, 2019-09-04 For people with disabilities caused by nonprogressive brain injury challenges in everyday living can be multifaceted and overwhelming This book presents key principles of holistic neuropsychological rehabilitation helping practitioners stay on track through complex terrain Leading authorities Barbara A Wilson and Shai Betteridge provide a framework for effective intervention based on a collaborative understanding of clients strengths and needs They describe essential strategies for assessing and remediating the impact of cognitive and psychosocial problems in everyday life Detailed case examples illustrate the process of building partnerships with families setting meaningful goals developing skills and supports and addressing emotional and mental health concerns Innovative uses of technology are highlighted Several reproducible clinical tools can be downloaded and printed in a convenient 8 1 2 x 11 size **Neuropsychological Rehabilitation** Jamuna Rajeswaran, 2012-09 Rajeswaran clinical neuropsychology National Institute of Mental Health and Neurosciences India brings together nine chapters by neuropsychologists psychiatrists and psychologists particularly from the National Institute of Mental Health and Neurosciences from India as well as from Australia who discuss principles and applications in neuropsychological rehabilitation They introduce assessment theories and methods then discuss computerized cognitive retraining programs for patients with traumatic brain injury and other brain disorders a holistic approach that involves cognitive tasks and mediation and psychological and other professional services EEG neurofeedback training cognitive behavioral principles a circuitry approach to rehabilitation cognitive remediation of neurocognitive deficits in schizophrenia interventions for specific learning disorders and challenges in the field The book lacks an index Annotation 2012 Book News Inc Portland OR booknews com **International Handbook of Neuropsychological Rehabilitation** Anne-Lise Christensen, Barbara P. Uzzell, 2000 This volume provides comprehensive international coverage of neuropsychological rehabilitation It contains scientific discussions of dynamic brain changes genetics structure physiology and hormones plasticity of the central nervous

system functional reorganization and brain repair in response to treatment in all stages and emphasizes acute care of early and precise diagnostics It is intended for clinicians professionals and students in neuropsychology health psychology rehabilitation behavioral neurology occupational and physical therapy

Psychological Management of Stroke Nadina B. Lincoln,2012-02-27 Psychological Management of Stroke presents a comprehensive review and synthesis of the current data relating to the assessment treatment and psychological wellbeing of stroke patients Information on clinical practice and the research evidence to support that practice will assist clinical psychologists and other relevant health care professionals through all phases of stroke recovery and care Each chapter features a careful synthesis of recent international research about psychological factors relevant to stroke survivors their families and the services in which they are cared for and treated Research results and effective treatment approaches are complemented by the inclusion of several personal case studies that reveal the perspectives of both survivors and their carers Written by clinical psychologists working in stroke services Psychological Management of Stroke represents an invaluable resource for anyone involved in the treatment of the psychological aspects of stroke

Errorless Learning in Neuropsychological Rehabilitation Catherine Haslam,Roy P.C. Kessels,2018-01-02 Errorless learning is one of the most studied principles in neurorehabilitation This is the first volume to capture all the key elements in the field in one invaluable resource providing an up to date and broad analysis of the use of errorless learning principles in rehabilitation after brain injury With contributions from key researchers in the field Errorless Learning in Neuropsychological Rehabilitation covers the historical foundations of errorless learning current understanding of underlying mechanisms which support learning and its use in memory and language in rehabilitation as applied to particular populations across the age span This volume also addresses questions of efficacy through analysis of research comparing errorless learning with other established learning methods and principles Errorless Learning in Neuropsychological Rehabilitation is an essential resource for practitioners researchers and students of psychology neuropsychology and rehabilitation

Essentials of Neuropsychological Rehabilitation Barbara A. Wilson,Shai Betteridge,2019-07-29 For people with disabilities caused by nonprogressive brain injury challenges in everyday living can be multifaceted and overwhelming This book presents key principles of holistic neuropsychological rehabilitation helping practitioners stay on track through complex terrain Leading authorities Barbara A Wilson and Shai Betteridge provide a framework for effective intervention based on a collaborative understanding of clients strengths and needs They describe essential strategies for assessing and remediating the impact of cognitive and psychosocial problems in everyday life Detailed case examples illustrate the process of building partnerships with families setting meaningful goals developing skills and supports and addressing emotional and mental health concerns Innovative uses of technology are highlighted Several reproducible clinical tools can be downloaded and printed in a convenient 8 1 2 x 11 size

Psychological Approaches to Rehabilitation after Traumatic Brain Injury Andy Tyerman, Nigel S. King, 2009-01-26 The psychological effects of traumatic brain injury TBI provide a major challenge to rehabilitation services This text will increase understanding of the nature of these effects and provide practical guidance from experienced practitioners about psychological interventions for use in both rehabilitation and long term adjustment Provides practical guidance and

illustrative case examples from experienced practitioners Structured around five main areas overview of psychological effects and services cognitive rehabilitation managing emotional and behavioural problems vocational rehabilitation and family impact and interventions Alternate Therapies in the Treatment of Brain Injury and Neurobehavioral Disorders Ethan B Russo, Margaret Ayers, Barbara L Wheeler, Susan Schaefer, Gregory Murrey, 2017-09-25 Get the tools to provide more effective treatment for the neurobehaviorally disordered TBI patient As traditional treatment success rates for many persons with traumatic brain injury TBI are proving less than effective clinicians search for other therapies that may be more productive Alternate Therapies in the Treatment of Brain Injury and Neurobehavioral Disorders A Practical Guide discusses at length various nontraditional treatment approaches such as music therapy art therapy EEG biofeedback and others that may provide additional help for the neurobehaviorally disordered TBI patient This text provides a practical in depth overview of a range of nontraditional interventions and therapies Each treatment is extensively discussed with explanations on how it can be effectively applied in rehabilitation programs Models case samples contacts and lists of training programs and professional organizations are given for each therapeutic modality Each chapter has clear illustrative drawings tables and charts as well as comprehensive references for further research Alternate Therapies in the Treatment of Brain Injury and Neurobehavioral Disorders A Practical Guide discusses these alternative treatments horticulture therapy art therapy music therapy melodic intonation therapy recreational therapy chemical dependency treatment real time EEG feedback craniosacral therapy This book is a comprehensive source for nontraditional therapies essential for physicians neuropsychologists psychiatrists rehabilitation specialists hospital directors administrators and TBI professionals Clinical Neuropsychology and Cost Outcome Research George Prigatano, Neil Pliskin, 2020-03-27 Neuropsychologists are being increasingly called upon to demonstrate the value of their services This edited book introduces clinical neuropsychologists to the concepts and challenges involved in conducting cost outcome research It provides examples of how such research can be conducted within clinical neuropsychology and therefore is a beginning step in what must become an interdisciplinary effort The text suggests that more than cost effectiveness studies should be considered when demonstrating the clinical utility of neuropsychological services The concept of objective and subjective markers of value is emphasized particularly as it relates to measuring the impact of a neuropsychological examination Chapters review the economic burdens associated with different neurological conditions commonly seen by neuropsychologists They also provide examples of how clinical neuropsychological services to different patient populations may reduce costs and increase benefits and suggest directions for beginning cost outcome research Furthermore the book summarizes the utility of various neuropsychological services that may be helpful to readers concerned with healthcare economies The book is intended as a resource for clinical neuropsychologists who wish to explain to healthcare providers the value of their work It is the first book of the National Academy of Neuropsychology book series entitled Neuropsychology Scientific Bases and Clinical Application **Textbook**

of Traumatic Brain Injury, Third Edition Jonathan M. Silver, M.D., Thomas W. McAllister, M.D., David B. Arciniegas, M.D., 2018-12-05 Despite the increased public awareness of traumatic brain injury TBI the complexities of the neuropsychiatric neuropsychological neurological and other physical consequences of TBI of all severities across the lifespan remain incompletely understood by patients their families healthcare providers and the media Keeping pace with advances in the diagnosis treatment and science of TBI the Textbook of Traumatic Brain Injury Third Edition comprehensively fills this gap in knowledge Nearly all 50 chapters feature new authors all of them experts in their field Chapters new to this edition include biomechanical forces biomarkers neurodegenerative dementias suicide endocrine disorders chronic disease management and social cognition An entirely new section is devoted to the evaluation and treatment of mild TBI including injuries in athletes military service members and veterans and children and adolescents These chapters join newly updated sections on the assessment and treatment of the cognitive emotional behavioral and other physical sequelae of TBI The Textbook of Traumatic Brain Injury is a must read for all of those working in any of the multitude of disciplines that contribute to the care and rehabilitation of persons with brain injury This new volume is also a potentially useful reference for policymakers in both the public and private sectors

Clinical Neuropsychology and the Psychological Care of Persons with Brain Disorders George P. Prigatano, 2019-09-06 The administration of psychological care to persons with brain disorders requires a series of skills that integrate the knowledge of clinical neuropsychology with developmental psychology psychotherapy rehabilitation and the study of the humanities In Clinical Neuropsychology and the Psychological Care of Persons with Brain Disorders Dr Prigatano describes his approach to this complex topic He reviews some of the defining characteristics of human nature and blends that discussion with an understanding of how the brain normally develops and declines with age The psychological struggles of people at each stage of development are further described as different brain disorders occur at different times in development

The Assessment, Evaluation and Rehabilitation of Everyday Memory Problems Barbara A. Wilson, 2013-11-07 In the World Library of Psychologists series international experts present career long collections of what they judge to be their finest work extracts from books key articles salient research findings and their major theoretical and practical contributions This volume of self selected papers recognises Professor Barbara A Wilson s major contribution to the study of neuropsychology Published over a 25 year period the papers included here address the assessment treatment and evaluation of rehabilitation provided to people who have memory difficulties arising from an injury or illness affecting the brain This selection of papers includes work on errorless learning the natural history of the development of compensatory memory systems paging systems developed to enhance independent daily living for memory impaired people and single case experimental designs to appraise the response of individual patients The final section includes a practical framework for understanding compensatory behaviour a model of cognitive rehabilitation and a discussion of the dilemmas created by the different aims of neuroscience as opposed to those of

clinicians This book will be of great interest to clinical psychologists neuropsychologists occupational therapists and speech and language therapists along with anyone who is interested in reducing the impact of memory problems on people who have suffered brain injury

Clinical Neuropsychology Laura H. Goldstein, Jane E. McNeil, 2004-05-14 Clinical Neuropsychology A Practical Guide to Assessment and Management for Clinicians shows how knowledge of neuropsychological applications is relevant and useful to a wide range of clinicians It provides a link between recent advances in neuroimaging neurophysiology and neuroanatomy and how these discoveries may best be used by clinicians Anyone working with clients whose cognitive functioning shows some change and who needs to assess and make recommendations about rehabilitation and management will find this book essential reading Practical focus on what is important for clinicians in each chapter Tackles both assessment issues and rehabilitation Distils findings from latest research and shows how they should be applied Wide range of applications e g learning disabilities ageing problems in children

The Corsini Encyclopedia of Psychology, Volume 3 Irving B. Weiner, W. Edward Craighead, 2010-01-19 Psychologists researchers teachers and students need complete and comprehensive information in the fields of psychology and behavioral science The Corsini Encyclopedia of Psychology Volume Three has been the reference of choice for almost three decades This indispensable resource is updated and expanded to include much new material It uniquely and effectively blends psychology and behavioral science The Fourth Edition features over 1 200 entries complete coverage of DSM disorders and a bibliography of over 10 000 citations Readers will benefit from up to date and authoritative coverage of every major area of psychology

The Effectiveness of Rehabilitation for Cognitive Deficits Peter W. Halligan, Derick T. Wade, 2005 In this book some of the leading clinicians and cognitive neuroscientists consider the effectiveness of cognitive rehabilitation They situate the issues within an overall context that considers the different types and levels of diagnosis and assessment the adequacy of underlying cognitive theory for rehabilitation and more importantly the clinical effectiveness of current treatments to improve functional recovery By employing an evidence based approach that critically evaluates the published literature the book provides for a better understanding of the strengths and limitations of the cognitive approach and hopefully a more realistic expectation of its outcome for patients with neurological deficits The book will serve as a valuable source for a wide spectrum of professionals who deal with the neuropsychological and neurological effects of brain damage

BOOK JACKET *Luria's Legacy in the 21st Century* Anne-Lise Christensen, Elkhonon Goldberg, Dmitri Bougakov, 2009 This is a collection of essays by leading neuropsychologists and cognitive neuroscientists to honor Alexander Romanovich Luria and to highlight the enduring impact of his legacy on cognitive neuroscience and clinical neuropsychology A wide range of topics is covered from functional neuroimaging in neuropsychology to bedside evaluation techniques Several generations of neuropsychologists and cognitive neuroscientists are their work by Luria's pioneering insight
