The Thinking Machine Jacques Futrelle, 2014-08-26 For the world s most brilliant criminologist every mystery has a solution His name is Professor Augustus S F X Van Dusen but to the newspapers he is known as The Thinking Machine Slender stooped his appearance dominated by his large forehead and perpetual squint Van Dusen spends his days in the laboratory and his nights puzzling over the details of extraordinary crimes What seems

beyond comprehension to the police is mere amusement to the professor All things that start must go somewhere he firmly believes and with the application of logic all problems can be solved Whether unraveling a perfect murder investigating a case of corporate espionage or reasoning his way out of an inescapable prison cell Van Dusen lets no detail elude his brilliant mind In this highly entertaining collection featuring many of the stories that made The Thinking Machine a national sensation ingenious criminals and ruthless villains are no match for an egghead scientist This ebook has been professionally proofread to ensure accuracy and readability on all devices

James Joyce and the Problem of Psychoanalysis Luke Thurston, 2004-07-01 From its very beginning psychoanalysis sought to incorporate the aesthetic into its domain Despite Joyce's deliberate attempt in his writing to resist this powerful hermeneutic his work has been confronted by a long tradition of psychoanalytic readings Luke Thurston argues that this very antagonism holds the key to how psychoanalytic thinking can still open up new avenues in Joycean criticism and literary theory In particular Thurston shows that Jacques Lacan's response to Joyce goes beyond the application of theory rather than diagnosing Joyce's writing or claiming to have deciphered its riddles Lacan seeks to understand how it can entail an unreadable signature a unique act of social transgression that defies translation into discourse Thurston imaginatively builds on Lacan's work to illuminate Joyce's place in a wide ranging literary genealogy that includes Shakespeare Hogg Stevenson and Wilde This study should be essential reading for all students of Joyce literary theory and psychoanalysis

Bible Problems Solved by Early Christians David W. T. Brattston, 2020-10-13 This book deals with questions or problems encountered in the Bible where answers can be found in the ante Nicene fathers The fathers were uniquely qualified by being close in time and culture to Christ himself when his unwritten teachings and Scripture interpretations and those of the apostles were still fresh in Christian memory It is designed for sincere readers of the Bible who may from time to time be puzzled by the occasional passage which seems out of step with the rest of the Scriptures or our usual impression of Christian teaching This work is written for individual and group Bible students without advanced theological qualifications rather than the intellectual market It is written for use in Bible studies in local congregations or church history classes especially in sessions when the pastor or teacher is unable to attend Bible Problems Solved by Early Christians is different from almost all other works and ministries which give solutions to problems or questions because the answers in the book come not from a modern day comparison of different verses within the Bible itself or from the interpretations of any particular religious denomination but from Christian writers who lived in the first centuries after Jesus
