Public Finance in Underdeveloped Countries . Public Finance in Developing countries Alan Richmond Prest, 1972 **Public Finance in Under-developed Countries** Alan Richmond Prest, 1975 Public Finance and Less Developed Economy Paulus Antonius Maria Philips, 2012-12-06 Since the end of the second world war special international interest has been devoted to the economically underdeveloped countries The question is in what way can the welfare of these societies be rapidly increased and their standard of living raised An enormous volume of literature on this subject has been published in the last decade and many international organizations are engaged upon the study of the problem which to quote VAN BEUKERING resolves itself into as many problems as there are underdeveloped areas 1 Much fruitful work has already been done in this field and in some of the countries concerned the old economic tree has already put forth a few fresh shoots Yet the problem of development in

Public Finances During the Korean Modernization Process Roy Bahl, Chuk Kyo Kim, Chong Kee Park, 2020-03-17. This final volume in the series *Studies in the Modernization of the Republic of Korea 1945-1975* is an analysis of the contribution of tax and expenditure policy to Korea's rapid economic development during the 1953-1975 period. Based upon specially compiled and comprehensive revenue and expenditure data, the authors first trace the history of Korean fiscal policy during the modernization period and then examine how Korea's fiscal development has differed from that of other countries. The results of the analysis show that Korea did not follow the traditional path of a steadily increasing tax effort, reliance on direct taxes and emphasis on income distribution. Instead, through improved tax administration and expenditure control, the savings rate was increased dramatically.

Planning and Budgeting in Poor Countries Naomi Caiden, Aaron B. Wildavsky, 1980-01-01. This substantial treatment of budgeting in poor countries and discussion of the relationship between planning and budgeting covers over eighty nations and three fourths of the world's population. While there are many treatments of planning, the approach of this study is radically different. The authors argue that the requisites of comprehensive economic planning do not exist in poor countries and that in the effort to create them, planners merge into the environment they have set out to change. Caiden and Wildavsky provide a unique and thorough examination of planning and budgeting by governments of poor countries throughout the world and recommend reforms that are workable and realistic for these countries. They analyze the political, economic and social developments that influence budgeting and planning in developing countries.
