Condition Susan Gubar, 2000-03-07 Is feminism dead as has been claimed by notable members of the media and the academy Has feminist knowledge with its proliferation of methodologies and fields been purchased at the price of power Are the conflicts among feminists evidence of self destructive infighting or do they herald the emergence of innovative modes of inquiry Given a feminism now ensconced within higher education as specialized or fractious scholarship Susan Gubar's Critical Condition Feminism at the Turn of the Century demonstrates that an invigorated concentration on activism and artistry can accentuate not the clinical or disparaging meaning of critical but its sense of compelling urgency and irreverent vitality As a pioneer of feminist studies and the object of some of the more rancorous criticism lodged against early feminist scholars Gubar stands in a unique position to comment on current dilemmas Moving beyond defensiveness produced by generational rivalry the impasse propagated by smug deployments of identity politics and the obscurity of poststructuralist theory she claims that the very controversies that undermine feminism's unity also prove its resilience Gubar begins by considering the volatile impact of gender on recent redefinitions of race sexuality religion and class proposed by four important groups in contemporary feminism African American performance and visual artists lesbian creative writers Jewish American women and newly institutionalized female academics She then addresses major divisions including the rifts between various area studies and women's studies as well as strains between generations that both threaten and invigorate feminist inquiry Gubar's forays into art and activism politics and the profession provide a sometimes distressing sometimes comical sometimes optimistic view of feminism emerging from a time of contention into a lively period of pluralized perspectives and disciplines **Nostalgia and Sexual Difference (RLE Feminist Theory)** Janice Doane, DEVON

HODGES, 2013-05-20 Dissatisfaction with the present can cause people to gaze nostalgically back to an idealized past that nostalgia pervades contemporary rhetoric In lamenting the degeneracy of present day America social and literary critics as well as contemporary novelists often choose as their scapegoat the women's movement and its increasing influence Doane and Hodges show us how these social observers seek to reinstate America and American values in ways that overtly or covertly do battle with the feminist movement for control of rhetoric the power of language *Where There's Life, There's*

Lawsuits Jeffrey Miller, 2003 If the police sniff at your door without a warrant is it an illegal search If the mortuary loses your cremated remains can your family get compensation Is it a crime to try to pick an empty pocket Is Yiddish displacing Latin as the second language of our law And exactly why is it that Robin Hood's merry men could not have frequently been merry Our experiences with the law show how we cope with the most dramatic poignant and ridiculous moments of our lives Judgments in lawsuits can make vivid even inspirational literature shining their high beam on whether we have demonstrated grace under pressure Where There's Life There's Lawsuits collects Jeffrey Miller's 20 years of research and bemusement as a legal historian and columnist for The Lawyers Weekly chronicling this intersection of law and the human tragicomedy

Lutes, Jennifer Travis, 2021-04-15 Gender in American Literature and Culture introduces readers to key developments in gender studies and American literary criticism It offers nuanced readings of literary conventions and genres from early American writings to the present and moves beyond inflexible categories of masculinity and femininity that have reinforced misleading assumptions about public and private spaces domesticity individualism and community The book also demonstrates how rigid inscriptions of gender have perpetuated a legacy of violence and exclusion in the United States Responding to a sense of 21st century cultural and political crisis it illuminates the literary histories and cultural imaginaries that have set the stage for urgent contemporary debates

Aggressive Fictions Kathryn Hume, 2012-01-15 A frequent complaint against contemporary

American fiction is that too often it puts off readers in ways they find difficult to fathom Books such as Bret Easton Ellis's *American Psycho* Katherine Dunn's *Geek Love* and Don DeLillo's *Underworld* seem determined to upset disgust or annoy their readers or to disorient them by shunning traditional plot patterns and character development Kathryn Hume calls such works aggressive fiction Why would authors risk alienating their readers and why should readers persevere Looking beyond the theory based justifications that critics often provide for such fiction Hume offers a commonsense guide for the average reader who wants to better understand and appreciate books that might otherwise seem difficult to enjoy In her reliable and sympathetic guide Hume considers roughly forty works of recent American fiction including books by William Burroughs Kathy Acker Chuck Palahniuk and Cormac McCarthy Hume gathers attacks on the reader into categories based on narrative structure and content Writers of some aggressive fictions may wish to frustrate easy interpretation or criticism Others may try to induce certain responses in readers Extreme content deployed as a tactic for distancing and alienating can actually produce a contradictory effect for readers who learn to relax and go with the flow the result may well be exhilaration rather than revulsion
