

Reclaiming Mission: Reflections on Mission as Global Interconnectedness and Spirit-Empowered Evangelism

ANICKA FAST¹

I enjoyed participating in the panel “Perspectives from emerging leaders” at the Council of International Anabaptist Ministries 2018 plenary meeting. Here, I offer a selection from some of my actual responses to the questions asked by moderator Jamie Pitts, as well as some additional responses I had prepared but did not share at the time.

Share a significant experience that has given you perspective about global mission partnerships.

As the daughter of parents who worked as missionary Bible translators in Papua New Guinea, I spent part of my childhood living on a large, fenced compound where several hundred expatriate missionaries lived alongside a few hundred more Papua New Guinean employees. I relatively often heard expatriate missionaries justify the task of Bible translation through appeal to an eschatological vision of many peoples, tribes, nations, and languages praising God together. They argued that making the Bible available to new people groups had value because it helped to bring this vision to fruition—essentially saying that Bible translation contributed to the fullness of the global church. However, this discourse about a global and multicultural church contrasted with the almost completely segregated worship that took place on Sunday mornings, where missionaries and Papua New Guineans worshipped separately for the most part. The incongruity I felt then has stuck with me ever since and has played a big part in leading me to theological studies that focus on ecclesiology.

Her research interests include the missionary encounter in DR Congo, political theology in an African context, and Anabaptist/Mennonite missiology and ecclesiology. She lives in Montréal with her husband and two daughters, and attends Hochma, a French-speaking congregation of Mennonite Church Eastern Canada.*

Church Bill Henard, 2018-06-01 It s no secret churches are dying Tragically thousands of churches in the United States are shrinking some closing their doors forever The key to reversing these trends argues Bill Henard is for a local church to

recognize where it is in the church life cycle Unless churches intentionally do something about it many of them will follow the same pattern from birth to plateau and eventually to death But if a church learns to identify its place within the life cycle and embraces the necessary processes it can return to growth In a day when church membership has decreased evangelistic zeal has cooled and budgets are disappearing ReClaimed Church is the tool that struggling churches need Having previously written and taught seminary courses on church revitalization Bill Henard uses his expertise to provide all the practical insights and instructions needed to reclaim your church **Recovering Jewishness** Frederick S. Roden,2016-02-22

Judaism and Jewish life reflect a diversity of identity after the past two centuries of modernization This work examines how the early reformers of the 19th century and their legacy into the 20th century created a livable liberal Jewish identity that allowed a reinvention of what it meant to be Jewish a process that continues today Many scholars of the modern Jewish identity focus on the ways in which the past two centuries have resulted in the loss of Jewishness through assimilation intermarriage conversion to other faiths genocide in the Holocaust and decline in religious observance In this work author Frederick S Roden presents a decidedly different perspective that the changes in Judaism throughout the 19th and 20th centuries resulted in a malleable welcoming and expanded Jewish identity one that has benefited from intermarriage and converts to Judaism The book examines key issues in the modern definition of Jewish identity who is and is not considered a Jew and why issues of Jewish authenticity and the recent history of the debate Attention is paid to the experiences of individuals who came to Judaism from outside the tradition through marrying into Jewish families and or choosing Judaism as a religion In his consideration of the tragedy of the Holocaust the author examines how a totalitarian regime s racial policing of Jewish identity served to awaken a connection with and reconfiguration of what that Jewish identity meant for those who retrospectively realized their Jewishness in the postwar era *Shalom: God's Ultimate Purpose for the World* Dae-Young

Lee,2021-06-23 What is our preconception about Muslims Do we continue to practice medical missions in a way that is no longer considered an effective means of presenting the gospel to the unreached Is our gospel message biblically balanced and firmly contextualized in the context that we try to serve There are numerous questions that we may ask ourselves when we desire to share God s love with people who are still alienated from it Christian cross cultural missions should reconsider the strategies and attitudes that no longer reflect biblical principles This book brings a lot of insightful thoughts and suggestions from the author s medical ministry experience in the Arab world to those who want to reach out to the unreached The theology of shalom enables us to deeply understand God s ultimate purpose toward the world that he created and to devote our lives to bring people to his kingdom in the humble way that Jesus has presented throughout his life on earth when he was with us This book demonstrates how Christian medical missions can be manifested in a more biblical way and can serve people who have been physically injured and emotionally broken more effectively Karl Barth and the Future of Evangelical Theology Christian T Collins Winn,John L Drury,2017-09-28 The theology of Karl Barth has often been a

productive dialogue partner for evangelical theology but for too long the dialogue has been dominated by questions of orthodoxy Karl Barth and the Future of Evangelical Theology contributes to the conversation through a creative reconfiguration of both partners in the conversation neither of whom can be rightly understood as preservers of Protestant orthodoxy Rather American evangelicalism is identified with the revivalist forms of Protestantism that arose in the post Reformation era while Barth is revisited as a theologian attuned both to divine and human agency In the ensuing conversation questions of orthodoxy are not eliminated but subordinated to a concern for the life of God and God's people By offering an alternative to the dominant constraints this book opens up new avenues for fruitful conversation on Barth and the future of evangelical theology

Women and Missions: Past and Present Shirley Ardener, Fiona Bowie, Deborah Kirkwood, 2021-02-25 This collection of essays by eminent anthropologists missiologists and historians explores the hitherto neglected topic of women missionaries and the effect of Christian missionary activity upon women The book consists of two parts The first part looks at 19th century women missionaries as presented in literature at the backgrounds and experience of women in the mission field and at the attitudes of missionary societies towards their female workers Although they are traditionally presented as wives and support workers it becomes apparent that on the contrary women missionaries often played a culturally important role The second and longest section asks whether women missionaries are indeed a special case and provides some fascinating studies of the impact of Christian missions on women in both historical material and a wealth of contemporary material Of particular value is the perspective of those who were themselves objects of missionary activity and who reflected upon this experience Women actively absorbed and adapted the teachings of the Christian missionaries and Western models are seen to be utilized and developed in sometimes unexpected ways

Language, Politics and Identity in Taiwan Hui-Ching Chang, Richard Holt, 2014-11-20 Following the move by Chiang Kai shek and the Chinese Nationalist Party Kuomintang KMT to Taiwan after losing the Chinese civil war to the Chinese Communist Party CCP in the late 1940s and Chiang's subsequent lifelong vow to

reclaim the mainland China has occupied if not monopolized the gaze of Taiwan where its projected images are reflected Whether mirror image shadow or ideal contrast China has been and will continue to be a key reference point in Taiwan's convoluted effort to find its identity Language Politics and Identity in Taiwan traces the intertwined paths of five sets of names Taiwan has used to name China since the KMT came to Taiwan in 1949 the derogatory Communist bandits the ideologically focused Chinese Communists the seemingly neutral geographical designators mainland and opposite shore both shores and the ethnic and national label China with the official designation People's Republic of China In doing so it explores how Taiwanese identities are constituted and reconstituted in the shifting and switching of names for China in the application of these names to alternative domains of Taiwanese life in the waning or waxing of names following tides of history and polity and in the increasingly contested meaning of names Through textual analyses of historical archives and other mediated texts and artifacts the chapters chart Taiwan's identity negotiation over the past half century and critically evaluate key interconnections between language and politics This unique book will be of great interest to students and scholars of Taiwan studies Chinese politics communication studies and linguistics Beyond Missio Dei Sarosh Koshy, 2021-11-24 In this book Sarosh Koshy strives to go beyond the mission model of Christianity that emerged alongside and within the colonial enterprise and ethos since the sixteenth century Rather than denounce the inheritance of the mission movement that transformed both the church and world in innumerable ways it is a simultaneous expression of appreciation for this precious heritage and an attempt to do justice by it through a yearning quest for relevant paradigms of Christian engagement Indeed there is an intense tension within this book and in fact a twin tension at that The tension is between those seeking to keep the current mission paradigm alive out of habit or as a self-serving device thus corrupting and withering away a bequeathal that essentially set free the voluntary independent spirit of Christian individuals and their intentional collectives from both the ecclesiastical and political authorities On the other side are those who enlist mission both as a subsequent activity and as a basis to pursue innocuous and at times apparently heroic options that would seemingly satisfy a supposed missional mandatoriness This work enlists postcolonial and poststructuralist resources pedagogically to teach of mission missiology World Christianity and intercultural theology *Hope and Community* Veli-Matti Kärkkäinen, 2017 The culmination of Kärkkäinen's multivolume magnum opus This fifth and final volume of Veli-Matti Kärkkäinen's ambitious five volume systematic theology develops a constructive Christian eschatology and ecclesiology in dialogue with the Christian tradition with contemporary theology in all its global and contextual diversity and with other major living faiths Judaism Islam Buddhism and Hinduism In Part One of the book Kärkkäinen discusses eschatology in the contexts of world faiths and natural sciences including physical cosmological and neuroscientific theories In Part Two on ecclesiology he adopts a deeply ecumenical approach His proposal for greater Christian unity includes the various dimensions of the church's missional existence and a robust dialogical witness to other faith communities
