*Reclaiming Capital* Christopher Gunn, Hazel Gunn, 2018-08-06 Towns without nationally advertised fast food restaurants often eagerly await the day when the golden arches sprout next door to the local car dealership But what really happens to a community with the arrival of the uni burger Christopher Gunn and Hazel Dayton Gunn demonstrate that perhaps three quarters of the money a community spends at its burger emporium will leave the area Poor communities remain poor they assert because local capital tends to be drained off to financial centers corporate accounts and stockholders portfolios In keeping with ecologists injunction to think globally and act locally this imaginative book documents ways in which communities have counteracted constraints of the capitalist economic system and succeeded in promoting democratic control of their resources Taking as one example the local impact of a new McDonald s restaurant Gunn and Gunn first illustrate how capital potentially available for community development may be identified They then explore a variety of alternative institutions credit unions nonprofit corporations and consumers and workers cooperatives among others that serve to attract and retain resources foster growth and extend public control over the development process The authors also consider how grassroots activism for social change may be integrated with more conventional political practice *Reclaiming Capital* will be a vital resource for activists elected officials and others concerned with urban and regional planning Reclaiming Capital Christopher Eaton Gunn, Hazel Dayton Gunn, 1991 Social surplus Alternative institutions of accumulation gaining financial resources Alternative institutions of accumulation building assets in the community Constraining capital Creating public assets Collective action communities and social change Full Employment and Social Justice Michael J. **Getting Past Capitalism** Cynthia Kaufman, 2012-08-24 Getting Past Capitalism begins with a critique of the impacts of capitalism on human society and the environment It looks in new ways at what capitalism is and at how it is reproduced That investigation opens the door to fresh ways of looking at how to challenge it Cynthia Kaufman looks

at some fundamental questions about how capitalism comes to look like a system that is unbeatable and how people come to have desires that work to reinforce capitalism Kaufman uses this analysis to develop ideas about how to challenge capitalism She argues that rather than looking for the fulcrum point in a system that will make it able to be overthrown we should try to understand what kinds of practices open more spaces for stopping the reproduction of capitalist processes and what kinds of structures need to be developed to make capitalism a less important part of our world Getting Past Capitalism includes a critique of capitalism and presentation of alternatives to capitalism many of which already exist It explores strategies for developing and strengthening those alternatives

**Integrated Activism** Alexis Zeigler, 2013-08-13 How do peak oil climate change and the limits of growth affect abortion rights income equality and civil liberty In this impassioned treatise author and activist Alexis Zeigler reveals the hidden connections between ecology economics politics and social justice and shows us how to use these connections to effect real long lasting change Most activist movements says Zeigler suffer from a kind of tunnel vision in which the true causes and resulting side effects of the desired change are left unexamined rendering the movements shortsighted and unaware of their own long term fallout We cannot effectively address our problems in isolation or with ecological blinders on Instead we must integrate our activism and ensure that all strategies and actions take into account the historically demonstrated fact that a society's environmental resources ultimately define its level of freedom fairness and financial equity Packed with surprising facts and eye opening arguments Integrated Activism is a must read not only for every serious activist but also for anyone looking for a solid creditable philosophy and approach to building a fairer freer more sustainable future

*Going Local* Michael Shuman, 2013-06-17 National drug chains squeeze local pharmacies out of business while corporate downsizing ships jobs overseas All across America communities large and small are losing control of their economies to outside interests Going Local shows how some cities and towns are fighting back Refusing to be overcome by Wal Marts and layoffs they are

taking over abandoned factories switching to local produce and manufactured goods and pushing banks to loan money to local citizens Shuman details how dozens of communities are recapturing their own economies with these new strategies investing not in outsiders but in locally owned businesses [Japanese Auto Transplants in the Heartland](#) Robert Perrucci, No detailed description available for Japanese Auto Transplants in The Heartland **Political Economy and Contemporary Capitalism** Ron P. Mahalingam, 1993 **Markets and Power** Eric A. Schutz, 2016-07-01 In what ways do the actions and economic behavior of today s multinational corporations resemble the functioning and processes of the old command economics of the Soviet Union By ignoring questions about power relations in markets mainstream neoclassically oriented economists conclude that there are no significant power structures operating in market systems to control allocation and distribution This book argues

to the contrary that there are fundamental and systemic power structures monopoly access to information or finance employer power etc at work in market economies which affects their ability to achieve real competition in much the same way as state controlled command economies hinder business activities Thus for example the biggest firms at the hubs of financial networks wield a kind of shaping power upon large numbers of relatively autonomous firms not only upon those that belong to the networks but also on the many firms outside them that are also affected
