Reclaiming Morality In America:

Reclaiming Morality in America William P. Murchison,1994 Murchison argues that a religious reawakening is needed to cure such problems as drug abuse violent crime and domestic violence **Reclaiming Teenage Morality** M. V. Willis,1993

Why Conservatives Tell Stories and Liberals Don't David M Ricci,2015-12-03 Why do conservatives tell stories Because it helps them win elections and assail liberal policies like health care reform and economic stimulus Why is important but the what and the how behind the stories that conservatives tell are equally interesting and in this new book David Ricci reveals all He shows how conservative activists and candidates tell many tales that come together to project a large scale story a cultural narrative a vision of what America is and what it should do to prosper socially economically and politically Liberals by contrast tend to look for theories rather than stories for mathematical explanations rather than theological axioms for data rather than anecdotes and for statistics rather than homilies The difference is paradoxical Liberals are unlikely to fashion sweeping narratives that capture the public s attention and commitment Yet conservatives may tell attractive stories like the ones that got us into Iraq that momentarily capture voter support but end up costing the country more than it can afford **My Concerns for America** Herbert W. Byrne,2008-10 Since 1960 vast changes have taken place in our country During that period cultural changes were numerous some good and some bad This work refers to changes that give cause for grave concern including increase in crime child abuse abortion and disturbing developments in government all described and suggested solutions for them made Herbert W Byrne Ed D has worked in Christian ministry for over forty years serving as Pastor Evangelist classroom teacher and Sunday School lecturer in over thirty different denominations in the United States and Canada He is the author of more than twelve books in the field of Christian Education **Get Off My Honor!** Hans Zeiger,2005 A Boy Scout defends the honor of the stalwart organization from the cultural onslaught threatening it *Politicians and Other Moral Amateurs* William Murchison,2016-04 William Murchison comments on Washington politicians public figures and other topics from a Main Street USA viewpoint He is a nationally syndicated opinion columnist for Creators Syndicate This is a collection of the very best of William Murchison from 2014

Imagining America at War Cynthia Weber,2020-07-24 Ten films released between 9 11 and Gulf War II reflect raging debates about US foreign policy and what it means to be an American Tracing the portrayal of America in the films Pearl Harbor World War II We Were Soldiers and The Quiet American the Vietnam War Behind Enemy Lines Black Hawk Down and Kandahar episodes of humanitarian intervention Collateral Damage and In the Bedroom vengeance in response to loss Minority Report futurist pre emptive justice and Fahrenheit 9 11 an explicit critique of Bush s entire war on terror Cynthia Weber presents a stimulating new study of how Americans construct their identity and the moral values that inform their foreign policy This is not just another book about post 9 11 America It introduces the concept of moral grammars of war and explains how they are articulated Many Americans asked in the wake of 9 11 not only why do they hate us but what does it

mean to be a moral American and how might such an American act morally in contemporary international politics This text explores how these questions were answered at the intersections of official US foreign policy and post 9 11 popular films It also details US foreign policy formation in relation to traditional US narratives about US identity who we think we were are who we wish we'd never been who we really are and who we might become as well as in relation to their foundations in nationalist discourses of gender and sexuality This book will be of great interest to students of American Studies US Foreign Policy Contemporary US History Cultural Studies Gender and Sexuality Studies and Film Studies America's Education Deficit and the War on Youth Henry A. Giroux, 2013-04 America's latest war according to renowned social critic Henry Giroux is a war on youth While this may seem counterintuitive in our youth obsessed culture Giroux lays bare the grim reality of how our educational social and economic institutions continually fail young people Their systemic failure is the result of what Giroux identifies as four fundamentalisms market deregulation patriotic and religious fervor the instrumentalization of education and the militarization of society We see the consequences most plainly in the decaying education system schools are increasingly designed to churn out drone like future employees imbued with authoritarian values inured to violence and destined to serve the market And those are the lucky ones Young people who don't conform to cultural and economic discipline are left to navigate the neoliberal landscape on their own if they are black or brown they are likely to become ensnared by a harsh penal system Giroux sets his sights on the war on youth and takes it apart examining how a lack of access to quality education unemployment the repression of dissent a culture of violence and the discipline of the market work together to shape the dismal experiences of so many young people He urges critical educators to unite with students and workers in rebellion to form a new pedagogy and to build a new democratic society from the ground up Here is a book you won't soon forget and a call that grows more urgent by the day **Claiming America** K. Wong, 2011-02-07 A collection of essays that recovers the lives and experiences of individuals who staked their claim to Chinese American identity

America on the Cusp of God's Grace Dennis G. Hurst, 2010-11-12 America on the Cusp of God's Grace issues a rousing call for true Bible believing patriots to save America by reverting back to the august principles of our Founding Fathers With simple straightforward language Dennis G Hurst digs deep into the ideas and beliefs upon which the Republic was founded and then juxtaposes them with the sobering reality of today Hurst provides a history of the beginning of America from its seventeenth century colonies based on religious freedom to the Revolutionary Wars stunning impact on the world and to the Constitutional Conventions innovative ideas Hurst shows how faith in God guided the Founders during every step of the process and compares and contrasts this history with the present state of American culture In addition he looks at the damaging effects of Islam on the United States and how it has brought about a decisive polarizing effect on ideologies today But Hurst doesn't stop with mere commentary and historical scholarship Instead he offers a blueprint for how God loving American citizens begin a revival in their country This includes a return to character leadership and integrity plus a steady

focus on Christ True believers were this countrys founders true believers were its sustainers and true believers will be its rescuers even an America on the Cusp of Gods Grace Race and Ethnicity in America Russell M. Lawson, Benjamin A. Lawson, 2019-10-11 Divided into four volumes Race and Ethnicity in America provides a complete overview of the history of racial and ethnic relations in America from pre contact to the present The five hundred years since Europeans made contact with the indigenous peoples of America have been dominated by racial and ethnic tensions During the colonial period from 1500 to 1776 slavery and servitude of whites blacks and Indians formed the foundation for race and ethnic relations After the American Revolution slavery labor inequalities and immigration led to racial and ethnic tensions after the Civil War labor inequalities immigration and the fight for civil rights dominated America s racial and ethnic experience From the 1960s to the present the unfulfilled promise of civil rights for all ethnic and racial groups in America has been the most important sociopolitical issue in America Race and Ethnicity in America tells this story of the fight for equality in America The first volume spans pre contact to the American Revolution the second the American Revolution to the Civil War the third Reconstruction to the Civil Rights Movement and the fourth the Civil Rights Movement to the present All volumes explore the culture society labor war and politics and cultural expressions of racial and ethnic groups *From Darkness to Light* Berdj Kenadjian, 2006 *From Darkness to Light* is the true story of how two little known men guided by unseen celestial forces confronted and overcame overwhelming obstacles to create a new understanding of the root causes of world disorder and its bitter fruit of widespread anxiety **Reclaiming American Virtue** Barbara J. Keys Keys, 2014-02-17 The American commitment to promoting human rights abroad emerged in the 1970s as a surprising response to national trauma In this provocative history Barbara Keys situates this novel enthusiasm as a reaction to the profound challenge of the Vietnam War and its aftermath Instead of looking inward for renewal Americans on the right and the left looked outward for ways to restore America s moral leadership Conservatives took up the language of Soviet dissidents to resuscitate the Cold War while liberals sought to dissociate from brutally repressive allies like Chile and South Korea When Jimmy Carter in 1977 made human rights a central tenet of American foreign policy his administration struggled to reconcile these conflicting visions Yet liberals and conservatives both saw human rights as a way of moving from guilt to pride Less a critique of American power than a rehabilitation of it human rights functioned for Americans as a sleight of hand that occluded from view much of America s recent past and confined the lessons of Vietnam to narrow parameters From world s judge to world s policeman was a small step and American intervention in the name of human rights would be a cause both liberals and conservatives could embrace *America's Future* ,1994 *Freedom Reclaimed* John E. Schwarz, 2005-01-02 A political scientist examines how the meaning of freedom has changed in American discourse and how we can reclaim our most treasured value The vision of American freedom that the Founders enshrined in the Declaration of Independence is very different from the free market idea of freedom that is ascendant today In *Freedom Reclaimed* John E Schwarz examines the profound implications of

this shift in political rhetoric Schwarz shows how the three decade shift toward free market freedom has brought economic hardship to the majority of Americans and suffering to the political life of the nation As the nation moves further away from its impelling original commitment most Americans now have only limited access to the freedom the Founders envisioned In policy discussions on employment education social issues and health care Schwarz recasts our understanding of what freedom means and involves He then sets forth a program that can help America return to its ennobling vision and resume its historic journey
