Reclaiming the Nation Vrinda Narain, 2008-01-01 Living in pluralist India has had critical consequences for Muslim women who are expected to follow a determined and strict code of conduct The impact of this contradiction is most evident in the continuing denial of gender equality within the family as state regulation of gender roles in the private sphere ultimately affects the status of women in the public sphere Reclaiming the Nation examines the relationship between gender and nation in post colonial India through the lens of marginalized Muslim women Drawing on feminist legal theory postcolonial feminist theory and critical race theory Vrinda Narain explores the idea of citizenship as a potential vehicle for the emancipation of Muslim women Citizenship Narain argues opens the possibility for Indian women to reclaim a sense of selfhood free from imposed identities In promoting the hybridity of culture and the modernity of tradition Narain shows how oppositional categories such as public versus private Muslim versus feminist and Western versus Indian have been used to deny women equal rights A timely account of the struggle for liberation within a restrictive religious framework Reclaiming the Nation is an insightful look at gender nationhood and the power of self determination

A Nation Within Ezra Rosser, 2021-10-07 In *A Nation Within* Ezra Rosser explores the connection between land use patterns and development in the Navajo Nation Roughly the size of Ireland or West Virginia the Navajo reservation has seen successive waves of natural resource based development over the last century grazing and over grazing oil and gas uranium and coal yet Navajos continue to suffer from high levels of unemployment and poverty Rosser shows the connection between the exploitation of these resources and the growth of the tribal government before turning to contemporary land use and development challenges He argues that in addition to the political challenges associated with any significant change external pressures and internal corruption have made it difficult for the tribe to implement land reforms that could help provide space for economic development that would benefit the Navajo Nation and Navajo tribal members

Unveiling the Nation Emily Laxer,2019-05-09 Over the last few decades politicians in Europe and North America have fiercely debated the effects of a growing Muslim minority on their respective national identities Some of these countries have prohibited Islamic religious coverings in public spaces and institutions while in others legal restriction remains subject to intense political conflict Seeking to understand these different outcomes social scientists have focused on the role of countries historically rooted models of nationhood and their attendant discourses of secularism Emily Laxer s Unveiling the Nation problematizes this approach Using France and Quebec as illustrative cases she traces how the struggle of political parties for power and legitimacy shapes states responses to Islamic signs Drawing on historical evidence and behind the scenes interviews with politicians and activists Laxer uncovers unseen links between structures of partisan conflict and the strategies that political actors employ when articulating the secular boundaries of the nation In France s historically class based political system she demonstrates parties on the left and the right have converged around a restrictive secular agenda in order to limit the siphoning of votes by the ultra right In Quebec by contrast the longstanding electoral salience of the national question has encouraged political actors to project highly conflicting images of the province s secular past present and future At a moment of heightened debate in the global politics of religious diversity Laxer s Unveiling the Nation sheds critical light on the way party politics and its related instabilities shape the secular boundaries of nationhood in diverse societies
