

# RECLAIMING THE AMERICAN RIGHT

THE LOST LEGACY OF THE CONSERVATIVE MOVEMENT

JUSTIN RAIMONDO

foreword by PATRICK J. BUCHANAN

introduction by GEORGE W. CAREY

# Reclaiming The American Right The Lost Legacy Of The Conservative Movement

**Emile Doak**

## **Reclaiming The American Right The Lost Legacy Of The Conservative Movement:**

**Reclaiming the American Right** Justin Raimondo, 2023-04-04 Many conservatives want to know Where did the Right go wrong Justin Raimondo provides the answer in this captivating narrative Raimondo shows how the noninterventionist Old Right which included half forgotten giants and prophets such as Senator Robert A Taft Garet Garrett and Colonel Robert McCormick was supplanted in influence by a Right that made its peace with bigger government at home and perpetual war for perpetual peace abroad First published in 1993 Reclaiming the American Right is as timely as ever This new edition includes commentary by Pat Buchanan political scientist George W Carey Chronicles executive editor Scott Richert and the Ludwig von Mises Institute s David Gordon [The American Right After Reagan](#) Edward Ashbee, John Dumbrell, Alex Waddan, 2019 This timely and significant book provides a comprehensive overview of right wing ideology and policy making in the years since Ronald Reagan left office The authors assess the ways in which the Reagan legacy rather than the empirical realities of his tenure has impacted economic social and cultural policy formation and conservative efforts at reshaping the United States Against this background they provide an explanation for why the Republican party turned towards Donald Trump

**American Conservatism** Bruce Frohnen, Jeremy Beer, Nelson O. Jeffrey, 2014-05-20 A must own title National Review Online American Conservatism An Encyclopedia is the first comprehensive reference volume to cover what is surely the most influential political and intellectual movement of the past half century More than fifteen years in the making and more than half a million words in length this informative and entertaining encyclopedia contains substantive entries on those persons events organizations and concepts of major importance to postwar American conservatism Its contributors include iconic patriarchs of the conservative and libertarian movements celebrated scholars well known authors and influential movement activists and leaders Ranging from abortion to Zoll Donald Atwell and written from viewpoints as various as those which have informed the postwar conservative movement itself the encyclopedia s more than 600 entries will orient readers of all kinds to the people and ideas that have given shape to contemporary American conservatism This long awaited volume is not to be missed

**Key Thinkers of the Radical Right** Mark Sedgwick, 2019-01-04 Since the start of the twenty first century the political mainstream has been shifting to the right The liberal orthodoxy that took hold in the West as a reaction to the Second World War is breaking down In Europe populist political parties have pulled the mainstream in their direction in America a series of challenges to the Republican mainstream culminated in the 2016 election of Donald Trump In Key Thinkers of the Radical Right sixteen expert scholars explain sixteen thinkers providing an introduction to their life and work a guide to their thought and an explanation of their work s reception The chapters focus on thinkers who are widely read across the political right in both Europe and America such as Julius Evola Alain de Benoist and Richard B Spencer Featuring classic modern and emerging thinkers this selection provides a good representation of the intellectual right and avoids making political or value judgments In an increasingly polarized political environment Key Thinkers of the

Radical Right offers a comprehensive and unbiased introduction to the thinkers who form the foundation of the radical right

*Conservatism in America Since 1930* Gregory L. Schneider, 2003-06 Presents forty essays speeches and other documents on conservatism or by conservatives spanning 1930 to the turn of the century including works by Seward Collins Barry Goldwater William F Buckley Jr Irving Kristol Ronald Reagan Newt Gingrich and others

*Revolt from the Heartland* Joseph A. Scotchie, 2018-04-17 The dominant forces of American conservatism remain wedded at all costs to the Republican Party but another movement one with its roots in the pre World War II era has stepped forth to fill an intellectual vacuum on the right This Old Right first rose in opposition to the New Deal fighting both statism at home and the emergence of an American empire abroad More recently this movement sometimes called paleoconservatism has provided the ideological backbone of modern populism and the opposition to globalization with decisive effects on presidential politics In *Revolt from the Heartland* Joseph Scotchie provides an intellectual history of the Old Right treating its main figures and defining its conflict with the traditional left right political mainstream As Scotchie s account makes clear the Old Right and its descendents have articulated an arresting and powerful worldview They include an array of learned and provocative writers including M E Bradford Russell Kirk Richard Weaver and Murray Rothbard and more recently Clyde Wilson Thomas Fleming Samuel Francis and Chilton Williamson Jr Beginning with the movement s anti Federalist forerunners Scotchie traces its developments over two centuries of American history In the realm of politics and economics he examines the anti imperialist stance against the Spanish American War and the League of Nations the split among conservatives on Cold War foreign policy and the hostility to the socialist orientation of the New Deal Identifying a number of social and cultural attitudes that define the Old Right Scotchie finds the most important to be the importance of the classics a recognition of regional cultures the primacy of family over state the moral case against immigration In general too a Tenth Amendment approach to such recurring issues as education abortion and school prayer characterizes the group As Scotchie makes clear the Old Right and its grass roots supporters have and continue to be a powerful force in modern American politics in spite of a lack of institutional support and media recognition *Revolt from the Heartland* is an important study of a persisting current in American political life

**Goddess of the Market** Jennifer Burns, 2009-10-19 Worshipped by her fans denounced by her enemies and forever shadowed by controversy and scandal the novelist and philosopher Ayn Rand was a powerful thinker whose views on government and markets shaped the conservative movement from its earliest days Drawing on unprecedented access to Rand s private papers and the original unedited versions of Rand s journals Jennifer Burns offers a groundbreaking reassessment of this key cultural figure examining her life her ideas and her impact on conservative political thought *Goddess of the Market* follows Rand from her childhood in Russia through her meteoric rise from struggling Hollywood screenwriter to bestselling novelist including the writing of her wildly successful *The Fountainhead* and *Atlas Shrugged* Burns highlights the two facets of Rand s work that make her a perennial draw for those on the right her

promotion of capitalism and her defense of limited government Both sprang from her early bitter experience of life under Communism and became among the most deeply enduring of her messages attracting a diverse audience of college students and intellectuals business people and Republican Party activists libertarians and conservatives The book also traces the development of Rand s Objectivist philosophy and her relationship with Nathaniel Branden her closest intellectual partner with whom she had an explosive falling out in 1968 One of the Denver Post s Great Reads of 2009 One of Bloomberg News s Top Nonfiction Books of 2009 Excellent Time magazine A terrific book a serious consideration of Rand s ideas and her role in the conservative movement of the past three quarters of a century The American Thinker A wonderful book beautifully written completely balanced extensively researched The match between author and subject is so perfect that one might believe that the author was chosen by the gods to write this book She has sympathy and affection for her subject but treats her as a human being with no attempt to cover up the foibles Mises Economics Blog **Creating Conservatism** Michael J. Lee,2014-08-01 Creating Conservatism charts the vital role of canonical post World War II 1945 1964 books in generating guiding and sustaining conservatism as a political force in the United States Dedicated conservatives have argued for decades that the conservative movement was a product of print rather than a march a protest or a pivotal moment of persecution The Road to Serfdom Ideas Have Consequences Witness The Conservative Mind God and Man at Yale The Conscience of a Conservative and other mid century texts became influential not only among conservative office holders office seekers and well heeled donors but also at dinner tables school board meetings and neighborhood reading groups These books are remarkable both because they enumerated conservative political positions and because their memorable language demonstrated how to take those positions functioning in essence as debate handbooks Taking an expansive approach the author documents the wide influence of the conservative canon on traditionalist and libertarian conservatives By exploring the varied uses to which each founding text has been put from the Cold War to the culture wars Creating Conservatism generates original insights about the struggle over what it means to think and speak conservatively in America

*Corporate Conservatives Go to War* Charlie Whitham,2020-05-30 World War II presented a unique opportunity for American business to improve its reputation after years of censure for inflicting the Great Depression upon the nation No employers organization worked harder or devoted greater resources to reviving business prestige during the war than the National Association of Manufacturers which spent millions of dollars on promoting the indispensability of private enterprise to the successful mobilization of the American economy in an uncompromising multi media campaign which spanned the factory floor to the movie theatre Now using unpublished primary sources the full extent of the NAM s wartime mission to raise the stature of American business in the post war era is revealed During the war the NAM erected a vast structure of research on an unprecedented scale numbering more than one hundred persons dedicated to planning the best solutions for restoring American free enterprise capitalism after the war in a direct challenge to the liberal prescriptions of the reigning

administration These studies were painstakingly assembled and widely distributed and served as a complimentary arm to the better known pro business propaganda message of the organization What emerges is a unique and telling glimpse into the minds of the corporate class of wartime America that reveals the determination of a major employers organization to exploit the exceptional circumstances of total war to influence both the power brokers in Washington who wrote economic policy and the American public as a whole to embrace a post war future ruled by private enterprise capitalism Main Street Conservatism Emile Doak, 2022-11-15 The political right is at an inflection point The policies that have guided the conservative movement for decades are no longer relevant to the problems we face Donald Trump's election exposed the vast chasm between the priorities of the conservative professional class and those of the voters it purportedly serves But this chasm existed long before it was exposed in 2016 and as we move further into the post Trump era these issues aren't going away The right must contend with the forces that drove Trump to power The American Conservative has been contending with those very forces for two decades Launched in 2002 to reignite conversations conservatives had neglected for too long the magazine has emerged as the best explainer of our present discontents and the distinct Main Street conservatism that it forms as the best path forward Main Street Conservatism The Future of the Right takes seminal essays from TAC's robust back catalog and presents them in four broad topic areas that are driving our ongoing political realignment foreign policy political economy American culture and faith family TAC's prescience on these issues creates an anthology that is very much relevant to the issues we now face The magazine was founded in opposition to the Iraq war and has been a consistent proponent of a foreign policy fit for a republic not an empire ever since Long before the 2008 financial crisis the magazine warned of the pitfalls of globalization and an over financialized economy On immigration TAC's prescience on these issues creates an anthology that is very much relevant to the issues we now face inaugural editorial took seriously the challenge of assimilation and placed the issue in the context of defending and defining a uniquely American culture And all the while the magazine has been mindful to robustly defend the bedrock of our society faith and family With essays from leading conservatives like Patrick J Buchanan Sir Roger Scruton Walter McDougall Robert W Merry Rod Dreher and many more Main Street Conservatism The Future of the Right is far more than a disjointed anthology The book like the magazine from which it is taken is indispensable for understanding American conservatism in our current moment Noble Cause Corruption, the Banality of Evil, and the Threat to American Democracy, 1950-2008 John DiJoseph, 2010-04-12 Noble Cause Corruption the Banality of Evil and the Threat to American Democracy 1950-2008 is a probe of the mindset of American government officials from presidents of the United States on down who decided that necessity required that the American democracy had to be defended by actions and policies that were contrary to the traditional ideals of the democracy The emphasis is on the activities of the U S military and intelligence agencies The probe relies for its historical data on well recognized previously published reports and histories The probe is unique in that it focuses on the mindset of the individuals involved The analysis

of the mindset ranges from Aristotle the latest research of mental health professionals to the insights of thinkers Edmund Burke Reinhold Niebuhr Friedrich Meinecke and George Kennan The conclusions reached are disturbing the defense of the democracy has been a failure and the mindset of the officials has continued to the present day and does not bode well for the future of the democracy     Antifascism Paul Gottfried,2021-10-15 No doubt Gottfried s book will rank among the most scholarly and convincing responses to the delirium of the present I ments A conservative take on the antifascist movement Antifascism argues that current self described antifascists are not struggling against a reappearance of interwar fascism and that the Left that claims to be opposing fascism has little in common with any earlier Left except for some overlap with critical theorists of the Frankfurt School Paul Gottfried looks at antifascism from its roots in early twentieth century Europe to its American manifestation in the present The pivotal development for defining the present political spectrum he suggests has been the replacement of a recognizably Marxist Left by an intersectional one Political and ideological struggles have been configured around this new Left which has become a dominant force throughout the Western world Gottfried discusses the major changes undergone by antifascist ideology since the 1960s fascist and antifascist models of the state and assumptions about human nature nationalism versus globalism the antifascism of the American conservative establishment and Antifa in the United States Also included is an excursus on the theory of knowledge presented by Thomas Hobbes in Leviathan In Antifascism Gottfried concludes that promoting a fear of fascism today serves the interests of the powerful in particular those in positions of political journalistic and educational power who want to bully and isolate political opponents He points out the generous support given to the intersectional Left by multinational capitalists and examines the movement of the white working class in Europe including former members of Communist parties toward the populist Right suggesting this shows a political dynamic that is different from the older dialectic between Marxists and anti Marxists     Into the Bosnian Quagmire: The Case Against U.S. Intervention in the Balkans Justin Raimondo,1996     *Democracy - the God That Failed* Hans-Hermann Hoppe,2001 The core of this book is a systematic treatment of the historic transformation of the West from monarchy to democracy Revisionist in nature it reaches the conclusion that monarchy is a lesser evil than democracy but outlines deficiencies in both Its methodology is axiomatic deductive allowing the writer to derive economic and sociological theorems and then apply them to interpret historical events A compelling chapter on time preference describes the progress of civilization as lowering time preferences as capital structure is built and explains how the interaction between people can lower time all around with interesting parallels to the Ricardian Law of Association By focusing on this transformation the author is able to interpret many historical phenomena such as rising levels of crime degeneration of standards of conduct and morality and the growth of the mega state In underscoring the deficiencies of both monarchy and democracy the author demonstrates how these systems are both inferior to a natural order based on private property Hoppe deconstructs the classical liberal belief in the possibility of limited government and calls for an alignment of conservatism

and libertarianism as natural allies with common goals He defends the proper role of the production of defense as undertaken by insurance companies on a free market and describes the emergence of private law among competing insurers Having established a natural order as superior on utilitarian grounds the author goes on to assess the prospects for achieving a natural order Informed by his analysis of the deficiencies of social democracy and armed with the social theory of legitimation he foresees secession as the likely future of the US and Europe resulting in a multitude of region and city states This book complements the author's previous work defending the ethics of private property and natural order Democracy The God that Failed will be of interest to scholars and students of history political economy and political philosophy **Fascism** Paul Gottfried, 2016-02-08 For historians Fascism offers clear and provocative insights and arguments and the very detailed notes are especially helpful Recommended Choice What does it mean to label someone a fascist Today it is equated with denouncing him or her as a Nazi But as intellectual historian Paul E Gottfried writes in this provocative yet even handed study the term's meaning has evolved over the years Gottfried examines the semantic twists and turns the term has endured since the 1930s and traces the word's polemical function within the context of present ideological struggles Like conservatism liberalism and other words whose meanings have changed with time fascism has been used arbitrarily over the years and now stands for a host of iniquities that progressives multiculturalists and libertarians oppose even if they offer no single coherent account of the historic evil they condemn Certain factors have contributed to the term's imprecise usage Gottfried writes including the equation of all fascisms with Nazism and Hitler as well as the rise of a post Marxist left that expresses predominantly cultural opposition to bourgeois society and its Christian and or national components Those who stand in the way of social change are dismissed as fascist he contends an epithet that is no longer associated with state corporatism and other features of fascism that were once essential but are now widely ignored Gottfried outlines the specific historical meaning of the term and argues that it should not be used indiscriminately to describe those who hold unpopular opinions His important study will appeal to political scientists intellectual historians and general readers interested in politics and history *The Crusader* Timothy Stanley, 2012-02-14 The Crusader tells the fascinating life story of Pat Buchanan the three time presidential candidate Nixon confidant White House communications director during Iran Contra pundit and bestselling author Buchanan is one of America's most controversial conservative rebels After serving Nixon and Reagan he led a revolt against the Republican establishment that was a forerunner for the Tea Party In 1992 he tried to take away his party's nomination from the incumbent president George H W Bush Although he lost Buchanan set the tone for political debate for the next two decades when he declared a cultural war against liberalism and a jihad on Republican moderates Throughout the 1990s his radical rollicking presidential campaigns tore apart the GOP and articulated the hopes and fears of a new generation of Middle American conservatives This balanced and often funny biography explores the highs and lows of Buchanan's career from his stunning victory in the 1996 New Hampshire primary to his humiliating grudge match against

Donald Trump in the 2000 Reform Party contest At its heart is a man who embodies the contradictions of the conservative movement a wealthy bookworm who branded himself as an everyman reactionary a Republican insider who became a populist outsider a patriarch whose campaigns were directed by his sister a socially unacceptable ideologue who won the affection of liberals and conservatives alike Rachel Maddow Ralph Nader Eugene McCarthy Ron Paul even Mel Gibson Timothy Stanley tells the intimate story of the man who defined the culture war for a generation of Americans with outrage and wit the man who when asked what he thought about gun control replied I think it s important to have a steady aim

*Bringing the Market Back in* J. Kelley,1997-05-19 This timely volume tells the fascinating story of how an almost forgotten classical liberalism resuscitated itself in America Using educational institutions think tanks foundations and the Libertarian Party market liberals capitalized on the post 1969 crisis of Great Society liberalism to promote an alternate vision Despite Ronald Reagan s anti government rhetoric the activist state survived because market liberals remained a minority albeit a vocal one Kelley argues that the recent Gingrich Revolution will fail for the same reason Although remaining profoundly skeptical about the modern state Americans have yet to be persuaded by F A Hayek s vision of a classical liberal utopia

**From Left to Right** Brian T. Thorn,2016-07-22 In *From Left to Right* Brian Thorn explores what motivated Canadian women to become politically engaged in the 1940s and 50s Although women in these decades are often depicted as being trapped in the suburbs caring for children baking pies and leaving politics to men they joined diverse political parties including the Social Credit Party the Co operative Commonwealth Federation and the Communist Party of Canada Thorn argues controversially that while women on the left and right had different goals their activism continued to be informed by maternalism They used their roles as wives and mothers to influence their parties positions on war and unions to break down barriers between the private and public spheres and to push for a new world order Along the way they laid the foundations for the 1960s feminist movement

Opposing the Crusader State Robert Higgs,Carl P. Close,2007-09-01 *Opposing the Crusader State* Alternatives to Global Interventionism edited by Robert Higgs and Carl Close examines the history of American noninterventionism and its relevance in today s world For more than a century U S foreign policy whether conducted by Democrats or Republicans liberals or conservatives has been based on the assumption that Americans interests are served best by intervening abroad to secure open markets for U S exports fight potential enemies far from American shores or engage in democratic nation building Before the twentieth century however a foreign policy of nonintervention was widely considered more desirable and Washington s and Jefferson s advice that the republic avoid foreign entanglements was largely heeded Arguing that interventionism is not an appropriate default setting for U S foreign policy the book s contributors clarify widespread misunderstandings about noninterventionism question the wisdom of nation building debate the validity of democratic peace theory and make the case for pursuing a peace strategy based on private property rights and free trade Readers will come away from this book with a richer understanding of the noninterventionist movements in U S

history write Higgs and Close in the book's introduction. Most important perhaps they will have a firmer understanding of why many classical liberals embrace the strengthening of commercial ties between all countries as a means of avoiding war.

Dollars for Dixie Katherine Rye Jewell, 2017-04-24 In Dollars for Dixie Katherine Rye Jewell demonstrates how conservative southern industrialists pursued a political campaign to preserve regional economic arrangements.

## **Reclaiming The American Right The Lost Legacy Of The Conservative Movement** Book Review: Unveiling the Magic of Language

### **Reclaiming The American Right The Lost Legacy Of The Conservative Movement Introduction**

In this digital age, the convenience of accessing information at our fingertips has become a necessity. Whether its research papers, eBooks, or user manuals, PDF files have become the preferred format for sharing and reading documents. However, the cost associated with purchasing PDF files can sometimes be a barrier for many individuals and organizations. Thankfully, there are numerous websites and platforms that allow users to download free PDF files legally. In this article, we will explore some of the best platforms to download free PDFs. One of the most popular platforms to download free PDF files is Project Gutenberg. This online library offers over 60,000 free eBooks that are in the public domain. From classic literature to historical documents, Project Gutenberg provides a wide range of PDF files that can be downloaded and enjoyed on various devices. The website is user-friendly and allows users to search for specific titles or browse through different categories. Another reliable platform for downloading Reclaiming The American Right The Lost Legacy Of The Conservative Movement free PDF files is Open Library. With its vast collection of over 1 million eBooks, Open Library has something for every reader. The website offers a seamless experience by providing options to borrow or download PDF files. Users simply need to create a free account to access this treasure trove of knowledge. Open Library also allows users to contribute by uploading and sharing their own PDF files, making it a collaborative platform for book enthusiasts. For those interested in academic resources, there are websites dedicated to providing free PDFs of research papers and scientific articles. One such website is Academia.edu, which allows researchers and scholars to share their work with a global audience. Users can download PDF files of research papers, theses, and dissertations covering a wide range of subjects. Academia.edu also provides a platform for discussions and networking within the academic community. When it comes to downloading Reclaiming The American Right The Lost Legacy Of The Conservative Movement free PDF files of magazines, brochures, and catalogs, Issuu is a

popular choice. This digital publishing platform hosts a vast collection of publications from around the world. Users can search for specific titles or explore various categories and genres. Issuu offers a seamless reading experience with its user-friendly interface and allows users to download PDF files for offline reading. Apart from dedicated platforms, search engines also play a crucial role in finding free PDF files. Google, for instance, has an advanced search feature that allows users to filter results by file type. By specifying the file type as "PDF," users can find websites that offer free PDF downloads on a specific topic. While downloading Reclaiming The American Right The Lost Legacy Of The Conservative Movement free PDF files is convenient, it's important to note that copyright laws must be respected. Always ensure that the PDF files you download are legally available for free. Many authors and publishers voluntarily provide free PDF versions of their work, but it's essential to be cautious and verify the authenticity of the source before downloading Reclaiming The American Right The Lost Legacy Of The Conservative Movement. In conclusion, the internet offers numerous platforms and websites that allow users to download free PDF files legally. Whether it's classic literature, research papers, or magazines, there is something for everyone. The platforms mentioned in this article, such as Project Gutenberg, Open Library, Academia.edu, and Issuu, provide access to a vast collection of PDF files. However, users should always be cautious and verify the legality of the source before downloading Reclaiming The American Right The Lost Legacy Of The Conservative Movement any PDF files. With these platforms, the world of PDF downloads is just a click away.

### **FAQs About Reclaiming The American Right The Lost Legacy Of The Conservative Movement Books**

1. Where can I buy Reclaiming The American Right The Lost Legacy Of The Conservative Movement books? Bookstores: Physical bookstores like Barnes & Noble, Waterstones, and independent local stores. Online Retailers: Amazon, Book Depository, and various online bookstores offer a wide range of books in physical and digital formats.
2. What are the different book formats available? Hardcover: Sturdy and durable, usually more expensive. Paperback: Cheaper, lighter, and more portable than hardcovers. E-books: Digital books available for e-readers like Kindle or software like Apple Books, Kindle, and Google Play Books.
