Reclaiming The Fire:

Reclaiming the Fire Steven Berglas, 2001-07-03 The definitive work on avoiding burnout written by the psychologist who is the leading specialist on the issue An illuminating and useful book for anyone coping with the pressures of work In *Reclaiming the Fire* Dr Steven Berglas analyzes the rises and falls of corporate executives middle managers lawyers entrepreneurs and others as they struggle to handle the trappings of successful careers How does one deal with encore anxiety the monotony of having to use talents that are no longer psychologically rewarding Why is it that our national obsession with wealth traps people in careers that often lead them to wonder Is that all there is And why do highly successful people often set themselves up for disastrous falls Dr Berglas answers all these questions and many more in this groundbreaking book by discussing real people whose careers have left them feeling pressured burdened and jaded In his most progressive and striking contribution to the literature on career success Dr Berglas debunks the persistent myth that women suffer more stress and burnout than men He disproves the common claim that women involved both in careers and in family life suffer from trying to have it all and he demonstrates how the drive to form close interpersonal ties a drive that is intrinsic to women can actually prevent both men and women from experiencing burnout In a related analysis of the mentoring process Dr Berglas shows why it is more important for careerists to build legacies for future generations a process he terms generativity than to become obsessed with their own personal success He proves that the process not only benefits the student but provides the mentor with psychological satisfaction and even improved physical health *Reclaiming the Fire* uses the working world not the psychiatric couch as a venue for understanding the psychological and emotional burdens of success It is the first comprehensive account of how to balance self esteem and ambition while maintaining challenge and stimulation throughout your career *Reclaiming the Fire* provides insight into Why baby boomers are currently suffering an epidemic of career dissatisfaction Why women are uniquely suited to cope with the pressures that cause men to suffer burnout and what men can learn from them How to escape golden handcuffs the workaholic devotion to a job that is no longer emotionally satisfying How to cope with anger that threatens to sabotage your career How all professionals can identify the passions that will allow them to sustain and enjoy success throughout their lives Reclaim the Fire ,
