Aboriginal Title P. G. McHugh, 2011-08-18 Aboriginal title represents one of the most remarkable and controversial legal developments in the common law world of the late twentieth century Overnight it changed the legal position of indigenous peoples The common law doctrine gave sudden substance to the tribes claims to justiciable property rights over their traditional lands catapulting these up the national agenda and jolting them out of a previous culture of governmental inattention In a series of breakthrough cases national courts adopted the argument developed first in western Canada and then New Zealand and Australia by a handful of influential scholars By the beginning of the millennium the doctrine had spread to Malaysia Belize southern Africa and had a profound impact upon the rapid development of international law of indigenous peoples rights This book is a history of this doctrine and the explosion of intellectual activity arising from this inrush of legalism into the tribes relations with the Anglo settler state The author is one of the key scholars involved from the doctrine s appearance in the early 1980s as an exhortation to the courts and a figure who has both witnessed and contributed to its acceptance and subsequent pattern of development He looks critically at the early conceptualisation of the doctrine its doctrinal elaboration in Canada and Australia the busiest jurisdictions through a proprietary paradigm located primarily and constrictively inside adjudicative processes He also considers the issues of interdisciplinary thought and practice arising from national legal systems recognition of aboriginal land rights including the emergent and associated themes of self determination that surfaced more overtly during the 1990s and after The doctrine made modern legal history and it is still making it

First Nations, First Thoughts Annis May Timpson, 2010-01-01

Countless books and articles have traced the impact of colonialism and public policy on Canada s First Nations but few have explored the impact of Aboriginal thought on public discourse and policy development in Canada First Nations First Thoughts brings together Aboriginal and non Aboriginal scholars who cut through the prevailing orthodoxy to reveal Indigenous thinkers and activists as a pervasive presence in diverse political constitutional and cultural debates and arenas including

urban spaces historical texts public policy and cultural heritage preservation This innovative thought provoking collection contributes to the decolonization process by encouraging us to imagine a stronger fairer Canada in which Aboriginal self government and expression can be fully realized A Brief History of Australia Barbara A. West, Frances T. Murphy, 2010 Basic facts a chronology a bibliography and a list of suggested reading make up the appendixes Book Jacket **A Stolen Life** Antonio Buti, 2019-07-01 On Christmas Day 1957 Joe Trevorror walked through the blistering heat to seek help for his sick baby boy When relatives agreed to take Bruce to the hospital Joe was relieved his son was in safe hands but within days Bruce would be living with another family and Joe would never see his son again At the age of ten Bruce was returned to his Indigenous family sparking a life long search for an identity that could never truly be known and a court case that made history **Conflict in Caledonia** Laura DeVries, 2011-11-07 On 28 February 2006 the Six Nations of the Grand River blocked workers from entering a half built housing development in southern Ontario They renamed the land Kanonhstaton the protected place The protest drew national and international attention to the issue of Aboriginal land rights and sparked a series of ongoing events known as the Caledonia Crisis Laura DeVries powerful account of the dispute links the actions of police governmental officials and locals to entrenched non Aboriginal discourses about law landscape and identity It encourages non Aboriginal Canadians to reconsider their assumptions to view facts such as the rule of law as culturally specific notions that prevent truly equitable dialogue DeVries not only reveals the conflicting visions of justice held by various parties to the dispute she also seeks out possible solutions in alternative conceptualizations of sovereignty over land and law embedded in the Constitution From Treaty Peoples to Treaty Nation Greg Poelzer, Ken S. Coates, 2015-07-28 Canada is a country founded on relationships and agreements between Indigenous peoples and newcomers Although recent court cases have upheld Aboriginal title rights the cooperative spirit of the treaties is being lost as Canadians engage in endless arguments about First Nations issues Each new court decision adds fuel to the debate raging between those who want to see an end to special Aboriginal rights and those who demand a return to Aboriginal sovereignty Greg Poelzer and Ken Coates breathe new life into these debates by looking at approaches that have failed and succeeded in the past and offering all Canadians from policy makers to concerned citizens realistic steps forward Rather than getting bogged down in debates on Aboriginal rights they highlight Aboriginal success stories and redirect the conversation to a place of common ground Upholding equality of economic opportunity as a guiding principle they argue that the road ahead is clear if all Canadians take up their responsibilities as treaty peoples Canada will become a leader among treaty nations Beyond Communal and Individual Ownership Leon Terrill, 2015-10-05 Over the last decade Australian governments have introduced a series of land reforms in communities on Indigenous land This book is the first in depth study of these significant and far reaching reforms It explains how the reforms came about what they do and their consequences for Indigenous landowners and community residents It also revisits the rationale for their introduction and discusses the significant gap between public

debate about the reforms and their actual impact Drawing on international research the book describes how it is necessary to move beyond the concepts of communal and individual ownership in order to understand the true significance of the reforms The book s fresh perspective on land reform and careful assessment of key land reform theories will be of interest to scholars of indigenous land rights land law indigenous studies and aboriginal culture not only in Australia but also in any other country with an interest in indigenous land rights

Earth into Property Anthony Hall,2010-08-23 *Earth into Property* The Bowl with One Spoon Part Two explores the relationship between the dispossession of Indigenous peoples and the making of global capitalism Beginning with Christopher Columbus s inception of a New World Order in 1492 Anthony Hall draws on a massive body of original research to produce a narrative that is audacious encyclopedic and transformative in the new light it sheds on the complex historical processes that converged in the financial debacle of 2008 and 2009 *Israel/Palestine in World Religions* S. Ilan Troen,2024-04-24 The struggle over Israel Palestine is not just another contest by competing nationalisms or an instance of geopolitical competition It is also about control of sacred territory that involves local Jews

Muslims and Christians as well as worldwide faith communities each with their own interests and stake in what transpires. This balanced introduction to a complex subject presents the multiple positions within the great monotheistic traditions. It demonstrates that the secular discourses in the public square concerning ownership, privileges, historical precedence, political rights and justice that have allegedly replaced religious claims actually coexist with and often complement the theological. It explores the century long tangle of secular and theological debates about Israel's legitimacy. Whether readers support a Jewish state or are resolutely opposed, the serious and substantial scholarship of this well reasoned and innovative book will contribute to a nuanced and better informed understanding of this persistent issue that has entered its second century on the international agenda.

Anthropology in the Mining Industry Glynn Cochrane, 2017-01-14. This book outlines how Rio Tinto, one of the world's largest miners, redesigned and rebuilt relationships with communities after the rejection of the company during Bougainville's Civil War. Glynn Cochrane recalls how he and colleagues utilized their training as social anthropologists to help the company to earn an industry leadership reputation and competitive business advantage by establishing the case for long term on the ground, smoke in the eyes interaction with people in local communities around the world, despite the appeal of maximal efficiency techniques and quicker, easier answers. Instead of using ready made formulaic toolkits, Rio Tinto relied on community practitioners to try to accommodate local preferences and cultural differences. This volume provides a step by step account of how mining companies can use social anthropological and ethnographic insights to design ways of working with local communities, especially in times of upheaval.

Law, Politics, and Responding to Injustice Coel Kirkby, Wojciech Sadurski, Kevin Walton, 2024-12-04. This book examines the issue of injustice and our responses to it in a range of contemporary contexts. In her ground breaking book *The Faces of Injustice* (1990), Judith Shklar draws attention to our tendency to view injustice as an abnormality. Of course, it is not; injustice is ubiquitous. But how should we respond to it? The book brings together leading legal and political theorists to explore the nature of injustice, its relationship to law and responses to it in a variety of contexts. Their chapters cover issues such as protest, resistance, violence, the moral obligation to obey the law, civil disobedience, democratic reform and transitional justice. They all, though, share a concern to examine such issues through a Shklar inspired focus on injustice. This book will appeal to academics and advanced students in law, politics and philosophy.
