Recognizing Biography:

Recognizing Biography William H. Epstein, 2017-11-15 Epstein's narrative interweaves interpretive and theoretical chapters as it emplots the discourse of English biography from Walton to Strachey. In this way, familiar generic relationships between biographer, subject, life, text, falsehood, and readership are analyzed in specific, if constantly shifting, historical, literary, cultural, and economic texts.

The Biographical Turn Hans Renders, Binne de Haan, Jonne Harmsma, 2016-09-13 The Biographical Turn showcases the latest research through which the field of biography is being explored. Fifteen leading scholars in the field present the biographical perspective as a scholarly research methodology investigating the consequences of this bottom-up approach and illuminating its value for different disciplines. While biography has been on the rise in academia since the 1980s, this volume highlights the theoretical implications of the biographical turn that is changing the humanities. Chapters cover subjects such as gender, religion, race, new media, and microhistory, presenting biography as a research methodology suited not only for historians but also for explorations in areas including literature studies, sociology, economics, and politics. By emphasizing agency, the use of primary sources, and the critical analysis of context and historiography, this book demonstrates how biography can function as a scholarly methodology for a wide range of topics and fields of research. International in scope, The Biographical Turn emphasizes that the individual can have a lasting impact on the past and that lives that are now forgotten can be as important for the historical narrative as the biographies of kings and presidents. It is a valuable resource for all students of biography, history, and historical theory.

Reframing Indigenous Biography Shino Konishi, Malcolm Allbrook, Tom Griffiths, 2024-11-11 This book explores the history, practice, and possibilities of writing about the lives of First Nations peoples in Australia, as well as Aotearoa New Zealand, North America, and the Pacific. This interdisciplinary collection recognises the limitations of Western biographical conventions for writing Indigenous long and short form biographies. Through a series of diverse life stories of both historical and contemporary First Nations figures, this book investigates innovative ways to ameliorate the challenges we face in recovering the stories of Indigenous people and reimagining their lives in productive new ways. Many of the chapters in this collection are deeply reflective, aiming not just to relate the life story of an individual but also to reflect on the archival, intellectual, and emotional journeys that biographers undertake in researching Indigenous biography. This volume will be of value to scholars and students interested in Indigenous Studies, biography, history, literature, creative writing, archaeology, and colonial and postcolonial studies.

Metabiography Caitríona Ní Dhúill, 2020-03-09 This book explores the contradictions of biography. It charts shifting approaches to the writing and reading of biographies from post-hagiographical attitudes of the Enlightenment, heroic biographies of Romanticism, and irreverent modernist portraits through to contemporary experiments in politically committed and hybrid forms of life writing. The book shows how biographical texts, in fact, destabilise the models of historical visibility, cultural prominence, and narrative coherence that the genre itself seems to uphold. Addressing the fraught

relationships between genre and gender private and public image and text life and narrative that play out in the modern biographical tradition Metabiography suggests new possibilities for reading writing and thinking about this enduringly popular genre

Rereading Modernism Lisa Rado, 2012-08-21 Until about 1986 feminists generally considered modernism a reactionary misogynist and hegemonic mire not worth investigating Since then enough studies of modernism have appeared that 17 feminist critics can now review and debate their treatment of the period They evaluate the progress and goals of the new era of modernist scholarship As the authors in this volume suggest instead of condemning writers for

not practicing or portraying an acceptable politics of gender we ought instead to show how their assumptions about the nature of the sexes inform their texts both in their creation and in their reception This also allows examination of the complex and changing relationship between human subjectivity and aesthetics This volume is a highly reflective dialogue introspective and evaluative at a moment of crisis within modernist studies and feminist studies The analysis of critical work on early twentieth century literature not only helps reread and redefine a definition of modernism it also intends to redirect and reintegrate feminist theory A Concise Companion to English Renaissance Literature Donna B. Early Modern* Alan Stewart,2018-05-10 The Oxford History of Life Writing Volume2 Early Modern explores life writing in England between 1500 and 1700 and argues that this was a period which saw remarkable innovations in biography autobiography and diary keeping that laid the foundations for our modern life writing The challenges wrought by the upheavals and the sixteenth century English Reformation and seventeenth century Civil Wars moulded British and early American life writing in unique and lasting ways While classical and medieval models continued to exercise considerable influence new forms began to challenge them The English Reformation banished the saints lives that dominated the writings of medieval Catholicism only to replace them with new lives of Protestant martyrs Novel forms of self accounting came into existence from the daily moral self accounting dictated by strands of Calvinism to the daily financial self accounting modelled on the new double entry book keeping This volume shows how the most ostensibly private journals were circulated to build godly communities how women found new modes of recording and understanding their disrupted lives how men started to compartmentalize their lives for public and private consumption The volume doesn t intend to present a strict chronological progression from the medieval to the modern nor to suggest the triumphant rise of the fact based historical biography Instead it portrays early modern England as a site of multiple sometimes conflicting possibilities for life writing all of which have something to teach us about how the period understood both the concept of a life and what it mean to write a life
