## **Recommencer La Philosophie:**

*Metaphysics, Religion, and Heresy* Yvanka Raynova, 2019-08-21 This special issue of Labyrinth is the second part of a diptych dedicated to the eminent French philosopher François Laruelle in honor of his 80th Anniversary The included essays deal with the Origins of Laruelle's Non Philosophy in Ravaisson's Understanding of Metaphysics the question of Religious Pluralism the non philosophical mystique and the rehabilitation of heresis the analogies and differences of Laruelle's non philosophy to Iamblichus or Martin Heidegger The contributors to this issue are Vincent Le John M Allison Eleni Lorandou Stanimir Panayotov Ameen Mettawa David Bremner and Yvanka B Raynova

*The Death of Philosophy* Isabelle Thomas-Fogiel, 2011 Philosophers debate the death of philosophy as much as they debate the death of God Kant claimed responsibility for both philosophy's beginning and end while Heidegger argued it concluded with Nietzsche In the twentieth century figures as diverse as John Austin and Richard Rorty have proclaimed philosophy's end with some even calling for the advent of postphilosophy In an effort to make sense of these conflicting positions which often say as much about the philosopher as his subject Isabelle Thomas Fogiel undertakes the first systematic treatment of the end of philosophy while also recasting the history of western thought itself Thomas Fogiel begins with postphilosophical claims such as scientism which she reveals to be self refuting for they subsume philosophy into the branches of the natural sciences She discovers similar issues in Rorty's skepticism and strands of continental thought Revisiting the work of late nineteenth and early twentieth century philosophers when the split between analytical and continental philosophy began Thomas Fogiel finds both traditions followed the same path the road of reference which ultimately led to self contradiction This phenomenon whether valorized or condemned has been understood as the death of philosophy Tracing this pattern from Quine to Rorty from Heidegger to Levinas and Habermas Thomas Fogiel reveals the self contradiction at the core of their claims while also carving an alternative path through self reference Trained under the French philosopher Bernard Bourgeois she remakes philosophy in exciting new ways for the twenty first century

**The Object of Comedy** Jamila M. H. Mascot, Gregor Moder, 2020-02-12 What is the object of comedy What makes us laugh and why Is comedy subversive restorative or reparative What is at stake politically socially and metaphysically when it comes to comedic performances This book investigates not only the object of comedy but also its objectives both its deliberate goals and its unintended side effects In researching the object of comedy the contributions gathered here encounter comedy as a philosophical object instead of approaching comedy as a genre the book engages with it as a language a medium an artifice a weapon a puzzle or a trouble a vocation and a repetition Thus philosophy meets comedy at the intersection of various fields e g psychoanalysis film studies cultural studies and performance studies regions that comical practices and theories in fact already traverse

*Weakness of Will from Plato to the Present (Studies in Philosophy and the History of Philosophy, Volume 49)* Tobias Hoffmann, 2008 In thirteen original essays eminent scholars of the history of philosophy and of contemporary philosophy examine weakness of

will or incontinence the phenomenon of acting contrary to one's better judgment      *Critical Philosophy of Innovation and the Innovator* Xavier Pavie, 2020-10-13 The major innovations which have occurred between the end of the 20th and the beginning of the 21st century represent a fresh challenge to the responsibility of innovators. Innovators have disrupted and continue to disrupt the world through the growth of technology: DNA sequencing, genetic engineering, the management of large databases, different forms of intrusion into our private lives, etc. It is up to them to take full responsibility for their actions and question what they are accomplishing, why they are accomplishing it, to what end, and with what means. Such questionings are those found in a practice conducted by Ancient philosophers: spiritual exercises. These were internal or external discourses enabling individuals to act, think, to know how to behave and how to master oneself. It is surely toward these practices innovators of today should turn in order to innovate with wisdom      *Movies with Stanley Cavell in Mind* David LaRocca, 2021-06-03 In *Movies with Stanley Cavell in Mind*, some of the scholars who have become essential for our understanding of Stanley Cavell's writing on film gather to use his landmark contributions to help us read new films from Hollywood and elsewhere that exist beyond his immediate reach and reading. In extending the scope of Cavell's film philosophy, we naturally find ourselves contending with it and amending it as the case may be. Through a series of interpretive vignettes, the group effort situates for the expert and novice alike how Cavell's writing on film can profitably enrich one's experience of cinema generally and also inform how we might continue the practice of serious philosophical criticism of specific films, mindful of his sensibility. The resulting conversations between texts, traditions, disciplines, genres, and generations create propitious conditions for discovering what it means to watch and listen to movies with Stanley Cavell in mind      ,      **Ethics after Wittgenstein** Richard Amesbury, Hartmut von Sass, 2021-01-28 What does it mean for ethics to say as Wittgenstein did that philosophy leaves everything as it is? Though clearly absorbed with ethical questions throughout his life and work, Wittgenstein's remarks about the subject do not easily lend themselves to summation or theorizing. Although many moral philosophers cite the influence or inspiration of Wittgenstein, there is little agreement about precisely what it means to do ethics in the light of Wittgenstein. *Ethics after Wittgenstein* brings together an international cohort of leading scholars in the field to address this problem. The chapters advance a conception of philosophical ethics characterized by an attention to detail, meaning, and importance, which itself makes ethical demands on its practitioners. Working in conversation with literature and film, engaging deeply with anthropology and critical theory, and addressing contemporary problems from racialized sexual violence against women to the Islamic State, these contributors reclaim Wittgenstein's legacy as an indispensable resource for contemporary ethics      **De VSV. Études de syntaxe latine offertes en hommage à Marius Lavency** Charlotte Methuen, 1999 Peeters 2004      *Understanding Cavell, Understanding Modernism* Paola Marrati, 2025-08-21 Stanley Cavell undoubtedly one of the most singular and influential voices in contemporary philosophy has written extensively on modernist art, particularly on painting, photography, music, and literature.

He has also dedicated an impressive body of work to cinema whose complex and nuanced status in regard to modernism constitutes one of Cavell's main concerns. However, Cavell's importance for understanding modernism is not exhausted by his interest in and analyses of modernist art and literature. Equally significant and perhaps even more original is his understanding of ordinary language philosophy as a modernist enterprise in its own terms. Following the structure for the *Understanding Philosophy: Understanding Modernism* series, this volume is divided into three distinct parts. The first part, *Conceptualizing Cavell*, features introductory essays on Cavell's most important works. The second part, *Cavell and Aesthetics*, delves into more specific aspects and problems pertaining to Cavell's aesthetics and its moral and political implications. The third part is an extended glossary of Cavell's key words and concepts.

**Freedom and the Human Person** Richard Velkley, 2007-12. In the Western tradition, freedom and the human person have been at the center of philosophical, theological, moral, and political debates since the origins of this tradition. Although contemporary discourse betrays the multiplicity of these roots, the necessary historical perspective for evaluating them is almost always lacking, even in scholarly studies. The terms *freedom* and *person* carry such overwhelming force in the modern world that the critical distance required for grasping what is at stake in using them is extremely hard to gain. The present collection seeks to contribute toward finding that distance by making the tradition of thought more a living reality and not an object of arid analyses. Unlike most collections, the present one transcends disciplinary boundaries as it acknowledges the interconnectedness of philosophical, theological, and political arguments on these themes. The contributors are prominent authorities in particular historical periods or in figures in Western thought, and they treat approaches to freedom and the human person in ancient Greek, biblical, medieval, and modern sources, although the major emphasis is on the thought of leading philosophers: Plato, Boethius, Aquinas, Ockham, Machiavelli, Locke, Kant, Hegel, Nietzsche, Husserl, et al. Their essays bring forward profound contrasts in how freedom and personhood have been grounded and characterized, notably the contrasts between groundings in natural reason and in supernatural revelation, between premodern teleological thinking and modern thinking on self-sovereignty without teleology, and within modern thought between positions favoring individual autonomy and others securing freedom and its exercise in communal or traditional life. Several of the papers shed light on the relations of freedom and personhood to the human powers of speech, thought, and judgment. The contributors to the volume are Seth Benardete, Michael Gillespie, Leon Kass, Robert B. Pippin, Robert Rethy, John M. Rist, Brian J. Shanley, O. P. Susan Meld Shell, Robert Sokolowski, Eleonore Stump, Nathan Tarcov, and Michael P. Zuckert, with Jesse Covington and James Thompson. Richard Velkley, former professor of philosophy at the Catholic University of America, is Celia Scott Weatherhead Professor of Philosophy at Tulane University. He is author of *Freedom and the End of Reason: On the Moral Foundation of Kant's Critical Philosophy* and *Being after Rousseau: Philosophy and Culture in Question*.

**Stanley Cavell and Philosophy as Translation** Paul Standish, Naoko Saito, 2017-02-28. Translation exposes aspects of language that can easily be ignored, renewing the sense of the proximity and

inseparability of language and thought The ancient quarrel between philosophy and literature was an early expression of a self understanding of philosophy that has in some quarters at least survived the centuries This book explores the idea of translation as a philosophical theme and as an important feature of philosophy and practical life especially in relation to the work of Stanley Cavell The essays in this volume explore philosophical questions about translation especially in the light of the work of Stanley Cavell They take the questions raised by translation to be of key importance not only for philosophical thinking but for our lives as a whole Thoreau s enigmatic remark The truth is translated reveals that apparently technical matters of translation extend through human lives to remarkable effect conditioning the ways in which the world comes to light The experience of the translator exemplifies the challenge of judgement where governing rules and principles are incommensurable and it shows something of the ways in which words come to us opening new possibilities of thought This book puts Cavell s rich exploration of these matters into conversation with traditions of pragmatism and European thought Translation then far from a merely technical matter is at work in human being and it is the means of humanisation The book brings together philosophers and translators with common interests in Cavell and in the questions of language at the heart of his work

**Stanley Cavell and the Arts** Rex Butler,2020-10-15 In the late 1990s Rosalind Krauss one of the principal theorists of post modernism in the arts began using the term post medium in her work It was a nod to the American ordinary language philosopher Stanley Cavell who had been thinking through a concept of medium in art for 30 years Today with the decline of post modernism Stanley Cavell has emerged as one of the most important figures for thinking again about the visual arts film and theatre Stanley Cavell and the Arts looks at Cavell s extensive writings on a wide variety of artforms and at a number of writers Michael Fried William Rothman influenced by his work Over a 50 year career Cavell wrote about visual art photography classical music Shakespeare the plays of Samuel Beckett and perhaps most notably Hollywood cinema Stanley Cavell and the Arts offers an overview of Cavell s writings on the arts situating them within his wider philosophical practice analysing in detail his treatment of particular art forms and looking at the work of those he has deeply shaped

The Thought of Stanley Cavell and Cinema David LaRocca,2020-01-23 Stanley Cavell was by many accounts America s greatest philosophical thinker of film Like Bazin in France and Perkins in England Cavell did not just transform the American capacity to take film as a subject for philosophical criticism he had to first invent that legitimacy Part of that effort involved the creation of several key now canonical texts in film studies among them the seminal The World Viewed along with Pursuits of Happiness and Contesting Tears The present collection offers for the first time anywhere a concerted effort mounted by some of today s most compelling writers on film to take careful account of Cavell s legacy The contributors think anew about what precisely Cavell contributed what holds up what is in need to revision or updating and how his writing continues to be of vital significance and relevance for any contemporary approach to the philosophy of film

*The Transformation of Political Culture 1789-1848* F. Furet, M. Ozouf, 2015-11-24 This third volume in a much praised series on The French Revolution and the Creation of Modern Political Culture examines the way in which the Revolution has been portrayed in European thought and its impact upon the development of political philosophy in the nineteenth century Opening with the influence of Burke and other contemporaries of the Revolution and the ensuing debate over the question Why the Terror this volume explores such diverse themes as the legacy of the Revolution on the political and social evolution of Germany England Italy and Russia the crisis it brought about in the Catholic Church and the difficulties encountered in determining the end of the Revolution By showing that the upheaval in European politics and philosophy caused by the French Revolution continued to shape nations peoples and thought the texts brought together in this volume permit a better understanding of the event s extraordinary complexity

**Law and Philosophy of Language** Pascal Richard, 2021-06-29 Academic legal production when it focuses on the study of law generally grasps this concept on the basis of a reference to positive law and its practice This book differs clearly from these analyses and integrates the legal approach into the philosophy of normative language philosophical realism and pragmatism The aim is not only to place the

examination of law in the immanence of its practice but also to take note of the fact that legal enunciation must be taken seriously In order to arrive at this analysis it is necessary to go beyond traditional perspectives and to base reflection on an investigation of the conditions for enunciating law in our democracies This analysis thus offers a renewal of the ethics inherent in the action of jurists and an original reflection on the role of certain legal tools such as concepts categories or provisions In this sense the work nourishes its originality not only by the transversality of its approach but also by the will to situate legal thought in concrete forms of its implementation The book will be essential reading for academics working in the areas of legal theory legal philosophy and constitutional theory **Inheriting Stanley Cavell** David LaRocca,2020-06-25

Some of the people who knew Stanley Cavell best or know his work most intimately are gathered in *Inheriting Stanley Cavell* to lend critical insight into the once and future legacy of this American titan of thought Former students colleagues long time friends as well as distant admirers explore moments when their personal experiences of Cavell s singular philosophical and literary illuminations have as he put it risen to the level of philosophical significance Many of the memories dreams and reflections on offer in this volume carry with them a welcome register of the autobiographical expressing much as Cavell did through his own writing how the personal can become philosophical and thus provide a robust mode for the making of meaning and the clarifying of the human condition Here in varied styles and through a range of dynamic content authors engage the lingering question of inheriting philosophy in whatever form it might take and what it means to think about inheritance and enact it **Language, Form(s) of Life, and Logic** Christian Martin,2018-09-10 This volume deals with the connection between thinking and speaking and our form s of life All contributions engage with Wittgenstein s approach to this topic As a whole the volume takes a stance against both biological and ethnological interpretations of the notion form of life and seeks to promote a broadly logico linguistic understanding instead The structure of this book is threefold Part one focuses on lines of thinking that lead from Wittgenstein s earlier thought to the concept of form of life in his later work Contributions to part two examine the concrete philosophical function of this notion as well as the ways in which it differs from cognate concepts Contributions to part three put Wittgenstein s notion of form of life in perspective by relating it to phenomenology ordinary language philosophy and problems in contemporary analytic philosophy Biographie Universelle Classique.
