Ecclesiology and Postmodernity Gerard Mannion, 2017-01-13 What in the world is postmodernity Is it the dominant reality today If it is what does it mean to be a church in a postmodern world It seems that the church had a difficult time coming to terms with a modern world an era ruled by the claims of scientific certainty Having done so more or less it is now confronted by the claims of postmodernity which seem to reverse the whole equation to say that certainty and objectivity are chimeras What is truth Pilate asked and postmodernity at least as caricatured by its opponents responds There s no such thing Gerard Mannion in Ecclesiology and Postmodernity addresses the situation of the church in a postmodern world The fundamental changes in human society and culture wrought by the twentieth century require the church to consider its response in the twenty first century What is the church s moral Vision how does its practice look what is the nature of its aspiration toward holiness in our times Mannion believes that since Vatican II the Catholic Church has been in a kind of limbo awaiting a Vision of its own life for the future Rather than focusing on specific controversies Mannion offers concrete suggestions about how the church can create a better harmony between its own self understanding its ecclesiological Vision and its day to day life its ecclesial practice Gerard Mannion PhD educated at King s College Cambridge University and New College Oxford University is Associate Professor of Ecclesiology and Ethics in the Department of Theology and Religious Studies at Liverpool Hope University UK He is also the director of Church In Our Times Centre for the Study of Contemporary Ecclesiology co director of the Applied Ethics Initiative at Liverpool Hope co chair of the AAR American Academy of Religion Ecclesiological Investigations Program Unit and co ordinator of the Ecclesiological Investigations International Research Network Mannion is the author of Schopenhauer Religion and Morality and co editor of Readings in Church Authority Gifts and Challenges for

Navigating Postmodern Theology Michael J. McGrahey, 2023-07-03 Theology in the postmodern era has encountered various cultural and narrative shifts which have helped shape the Roman Catholic Church and Christianity at large Negatively the Church has been affected by external factors e.g. globalization immigration emigration increased access to technology etc and internal struggles e.g. reduced church attendance an aging population etc Positively postmodernity has ushered in a return to religion through new philosophical and theological ideas e.g. phenomenology existentialism post metaphysics etc This book aims to contribute to the ongoing postmodern concerns addressed in the cultural and narrative shifts by focusing on the work of Jean Luc Marion and Gianni Vattimo The emphasis of this project focuses on the use of metaphysics as the foundational tool of theology and its corresponding limitations while also addressing the Christian virtue of caritas Addressing this attribute of Christianity this project observes the possibility of a return to religion one that reflects the postmodern exploration of religion by the several philosophers addressed herein While Michael J McGrahey avoids offering a reconstruction of theology or more specifically ecclesiology he aims to re establish the importance of philosophy metaphysics and caritas in the postmodern context

Critical Essays on Edward Schillebeeckx's Theology Cornelius C. Simut, 2010-02-18 This book presents the main teachings of Edward Schillebeeckx widely considered one of the most important Catholic thinkers of the twentieth century Schillebeeckx is known for his radical departure from traditional theology which he saw as no longer relevant to the modern world Because today's world has been shaped by a process of secularization heavily based on reason and progress in science technology economics urbanism etc modern people seek relevant answers to their deep existential questions that can be explained rationally In his quest to foster relevant and meaningful answers for today's world Schillebeeckx changed the traditional metaphysical content of Christian theology into explanations that radically reinterpret traditional Christian doctrines Primarily the supernatural essence of Christianity is given up as irrelevant and is replaced by a natural perspective on the world In Schillebeeckx's thoroughly historical and truly immanent theology God is man's terrestrial future Christ the symbol of universal human values and the Church is identified with the world as those communities which share these universal human values Schillebeeckx is convinced that these explanations emptied of metaphysical content can help today's people understand their existence in a new relevant and meaningful way

Drawn from Shadows Into Truth Ray Ryland, 2013 Autobiographical narrative of the author's spiritual pilgrimage from an Oklahoma farm boy to a naval officer to a Protestant minister to a married Catholic priest

The Modern Theologians David F. Ford, 2013-09-23 This popular text has been updated to ensure that it continues to provide a current and comprehensive overview of the main Christian theologies of the twentieth and twenty first centuries Each chapter is written by a leading theologian and gives a clear picture of a particular movement topic or individual New and updated treatments of topics

covered in earlier editions with over half the chapters new to this edition or revised by new authors New section singling out six classic theologians of the twentieth century Expanded treatment of the natural sciences gender Roman Catholic theology since Vatican II and African Asian and Evangelical theologies Completely new chapters on spirituality pastoral theology philosophical theology postcolonial biblical interpretation Pentecostal theology Islam and Christian theology Buddhism and Christian theology and theology and film As in previous editions the text opens with a full introduction to modern theology Epilogue discussing the present situation and prospects of Christian theology in the twenty first century *Scholarship and Christian Faith* Douglas Gordon Jacobsen, Rhonda Hustedt Jacobsen, 2004 Argues that the idea of Christian scholarship has been under discussed This book which is organised as a conversation offers a definition and analysis of Christian scholarship that opens the way for dialogue between evangelicals and Catholics and Protestants from a variety of church traditions

From Maintenance to Mission Robert S. Rivers, 2005 Evangelization contrary to what many people believe is not just a Protestant concern in fact writes Robert Rivers it is Catholic to the core In this practical approachable work he suggests that the Catholic parish is a wonderful setting to carry out the evangelizing work of the church He makes the case that evangelization holds the key to the future of the church because it was in fact the centerpiece of post Vatican Council reform Drawing from the USCCB document Go and Make Disciples which offers a comprehensive plan and strategy for evangelization he explores ways to challenge us to become Catholic evangelizers And he proposes ways to move from maintenance to mission oriented parishes My purpose affirms the author is to try to place before the reader a compelling vision of Catholic evangelization and share some strategic thinking that might enable us to implement the great vision to which we have been called He attains that goal convincingly practically and hopefully *Towards a Truly Catholic Church* Thomas P. Rausch, 2005 Ecclesiology which takes into account the Second Vatican Council ecumenism and globalization Provided by publisher *The Crisis of Authority in Catholic Modernity* Michael J. Lacey, Francis Oakley, 2011-04-06 One deep problem facing the Catholic church is the question of how its teaching authority is understood today It is fairly clear that while Rome continues to teach as if its authority were unchanged from the days before Vatican II 1962-65 the majority of Catholics within the first world church at least take a far more independent line and increasingly understand themselves rather than the church as the final arbiters of decision making especially on ethical questions This collection of essays explores the historical background and present ecclesial situation explaining the dramatic shift in attitude on the part of contemporary Catholics in the U S and Europe The overall purpose is neither to justify nor to repudiate the authority of the church's hierarchy but to cast some light on the context within which it operates the complexities and ambiguities of the historical tradition of belief and behavior it speaks for and the kinds of limits it confronts consciously or otherwise The authors do not hope to fix problems although some of the essays make suggestions but to contribute to a badly needed intra Catholic dialogue without which they believe problems will continue to fester and solutions will remain elusive

Evangelizing America Thomas P. Rausch, 2004 Evangelizing America probes the interdependence of culture and faith surveys different approaches to evangelization among contemporary Catholics and looks at what evangelization means in a parish context BOOK JACKET Title Summary field provided by Blackwell North America Inc All Rights Reserved

Catholicism in the Third Millennium Thomas P. Rausch, 2016-03-24 What is Catholicism And where is the Catholic Church headed in the third millennium These two questions provide the structure for Thomas Rausch s Catholicism in the Third Millennium Here Rausch combines a faithful presentation of the tradition with a critical theological reflection and interpretation of where the Church is today and where it might be moving Catholicism in the Third Millennium offers an appreciation of the forces and movements that have shaped and continue to influence the ongoing change and development of Roman Catholicism Chief among these is the influence of the Second Vatican Council 1962 1965 in reshaping Catholicism This revised edition includes updated text from Rausch s Catholicism at the Dawn of the Third Millennium particularly the final chapter on The Unfinished Agenda of Vatican II Each chapter concludes with focus questions developed by Catherine E Clifford of St Paul s University Ottawa This experience of guided reading provides readers with a broad survey of Roman Catholic faith and practice in its contemporary context For readers who wish to compare particular passages of this volume with the Catechism of the Catholic Church an outline is provided in an appendix with references to the appropriate sections of the Catechism A second appendix offers a glossary of terms used in the book while a third appendix lists a number of basic works for further investigation of Catholic faith and life Chapters are The Church and the Council Faith and the Believing Community A Visible Church A Living Tradition Sacraments and Christian initiation Christian Life and Discipleship Sin Forgiveness and Healing Sexual Morality and Social Justice Prayer and Spirituality The Fullness of Christian Hope and The Unfinished Agenda Includes Appendix I Outlook of Book with References to the Catechism of the Catholic Church Appendix II Glossary of Terms and Appendix III Basic Reference Works on Catholicism An Index of Names and an Index of Subjects are also included Thomas P Rausch SJ PhD is professor of theology at Loyola Marymount University in Los Angeles He is the author of Catholicism at the Dawn of the Third Millennium Reconciling Faith and Reason and editor of the bestselling The College Student s Introduction to Theology published by Liturgical Press Catherine E Clifford PhD is a professor of theology at St Paul s University in Ottawa Ontario

Catholicism and Science Peter M.J Hess, Paul L. Allen, 2008-03-30 When most people think about Catholicism and science they will automatically think of one of the famous events in the history of science the condemnation of Galileo by the Roman Catholic Church But the interaction of Catholics with science has been and is far more complex and positive than that depicted in the legend of the Galileo affair Understanding the natural world has always been a strength of Catholic thought and research from the great theologians of the Middle Ages to the present day and science has been a hallmark of Catholic education for centuries Catholicism and Science a volume in the Greenwood Guides to Science and Religion series covers all aspects of the relationship of science and the Church How Catholics interacted with

the profound changes in the physical sciences natural philosophy and biological sciences natural history during the Scientific Revolution how Catholic scientists reacted to the theory of evolution and their attempts to make evolution compatible with Catholic theology and the implications of Roman Catholic doctrinal and moral teachings for neuroscientific research and for investigation into genetics and cloning The volume includes primary source documents a glossary and timeline of important events and an annotated bibliography of the most useful works for further research *Saint Paul and the New*

Evangelization Ronald D. Witherup, 2013-09-01 To some the New Evangelization seems to mean warmed over and outdated apologetics that rarely resonate with people today But that approach fails to do justice to what evangelization is really all about In *Saint Paul and the New Evangelization* one of today's most respected Scripture scholars offers a far richer more deeply biblical approach Ronald D Witherup SS analyzes the techniques of one of the church's best evangelists Paul of Tarsus to show how we can help reinvigorate the faith of friends and loved ones You don't need to know a lot about the Bible or theology Just follow St Paul's inspiring example and discover how to talk about your faith in ways that change hearts and minds Who is Jesus? Thomas P. Rausch, 2016-03-24 Who is Jesus This is the fundamental question for christology The

earliest Christians used various titles most of them drawn from the Old Testament or Hebrew Scriptures to express their faith in Jesus They called him prophet teacher Messiah Son of David Son of Man Lord Son of God Word of God and occasionally even God In *Who Is Jesus* Thomas Rausch SJ focuses on the New Testament's rich variety of christologies *Who Is Jesus* covers the three quests for the historical Jesus the methods for retrieving the historical Jesus the Jewish background the Jesus movement his preaching and ministry death and resurrection the various New Testament christologies and the development of christological doctrine from the New Testament period to the Council of Chalcedon Chapters are *The Three Quests for the Historical Jesus* *Methodological Considerations* *The Jewish Background* *Jesus and His Movement* *The Preaching and Ministry of Jesus* *The Death of Jesus* *God Raised Him from the Dead* *New Testament Christologies* *From the New Testament to Chalcedon* *Sin and Salvation* and *A Contemporary Approach to Soteriology* Thomas P Rausch SJ PhD is the T Marie Chilton Professor of Catholic Theology at Loyola Marymount University in Los Angeles A specialist in ecclesiology ecumenism and the theology of the priesthood he has published eight books including the award winning *Catholicism at the Dawn of the Third Millennium* *The College Student's Introduction to Theology* and *Reconciling Faith and Reason* *Apologists Evangelists and Theologians in a Divided Church* published by Liturgical Press Theology and Conversation Jacques

Haers, P. De Mey, 2003 This collection of articles presents the main contributions to the third LEST Louvain Encounters in Systematic Theology conference held at the KU Leuven's Faculty of Theology November 2001 Its theme *Theology and Conversation Towards a Relational Theology* continues the explorations in contemporary theology as set out in the 1997 LEST I conference on *The Myriad Christ* BETL 152 and in the 1999 LEST II conference on *Sacramental Presence in Postmodern Context* BETL 160 In LEST III also the plurality and diversity of theological approaches play a major role and the

question is raised whether the contemporary theological endeavour in a global world contains in itself the tools to respectfully and constructively approach this diversity The ideas of relation and conversation as found in the theologies of the Trinity and of creation as presupposed in ecclesial praxis and as articulated in reflections that take their bearings from spiritual experience provide a powerful means for renewed theological reflection capable of confronting plurality and diversity

Hermeneutics of Doctrine in a Learning Church Gregory A. Ryan, 2020-08-10 In *Hermeneutics of Doctrine in a Learning Church* Gregory A Ryan offers an account of the dynamic multi dimensional task of interpreting Christian tradition He integrates doctrinal hermeneutics the pastorality of doctrine exemplified by Pope Francis and a systematic appraisal of Receptive Ecumenism to provide an original perspective on this task The book focuses on three contemporary Catholic theologians Francis Sch ssler Fiorenza Ormond Rush and Paul D Murray highlighting how each recognises the dynamic interaction of multiple perspectives involved in authentic ecclesial interpretation Christian tradition whether passed on in teaching scripture practices or structures needs to be continually received and interpreted This book offers theologians ecumenists and church workers a fresh model for receptive ecclesial learning in which doctrinal hermeneutics and pastoral realities are dynamically integrated
