Reconfigurations Of Class And Gender Studies In Social Inequality:

Reconfigurations of Class and Gender Janeen Baxter, Mark Western, 2001 This far reaching volume reasserts the significance of class and gender for understanding socioeconomic conditions The contributors urge a nuanced approach that focuses on the specific institutional contexts of class gender relations in various advanced industrial nations *On Sociology Second Edition Volume One* John H. Goldthorpe, 2007 Looking to unify increasingly disparate areas of theory and research John Goldthorpe presents a new mainstream combining the demonstrated strengths of large scale quantitative research and the explanatory power of social action theory **Home Ownership and Social Inequality in Comparative Perspective** Karin Kurz, 2004-07-09 This cross national comparative study analyzes the relationship between social inequality and the attainment of home ownership over the life course in 12 countries *Social Class and Changing Families in an Unequal America* Marcia Carlson, Paula England, 2011-06-21 This book offers an up to the moment assessment of the condition of the American family in an era of growing inequality *Social Stratification, Class, Race, and Gender in Sociological Perspective, Second Edition* David Grusky, 2019-09-05 The volume offers essential reading for undergraduates who need an introduction to the field for graduate students who wish to broaden their understanding of stratification research and for advanced scholars who seek a basic reference guide Although most of the selections are middle range theoretical pieces suitable for introductory courses the anthology also includes advanced contributions on the cutting edge of research The editor outlines a modified study plan for undergraduate students requiring a basic introduction to the field *The Global Dynamics of Racial and Ethnic Mobilization* Susan Olzak, 2006-05-24 This book tests a new approach to understanding ethnic mobilization and considers the interplay of global forces national level variation in inequality and repression and political mobilization of ethnicity It advances the claim that economic and political integration among the world's states increases the influence of ethnic identity in political movements Drawing on a 100 country dataset analyzing ethnic events and rebellions from 1965 to 1998 Olzak shows that to the degree in which a country participates in international social movement organizations ethnic identities in that country become more salient International organizations spread principles of human rights anti discrimination sovereignty and self determination At the local level poverty and restrictions on political rights then channel group demands into ethnic mobilization This study will be of great importance to scholars and policy makers seeking new and powerful explanations for understanding why some conflicts turn violent while others do not **The Cambridge Handbook of Social Sciences in Australia** Ian McAllister, Steve Dowrick, Riaz Hassan, 2003-08-07 First published in 2003 The Cambridge Handbook of Social Sciences in Australia is a high quality reference on significant research in Australian social sciences The book is divided into three main sections covering the central areas of the social sciences economics political science and sociology Each section examines the significant research in the field placing it within the context of broader debates about the nature of the social sciences and the ways in which institutional changes have shaped how they are

defined taught and researched *Social Class* Annette Lareau, Dalton Conley, 2008-07-10 Class differences permeate the neighborhoods classrooms and workplaces where we lead our daily lives But little is known about how class really works and its importance is often downplayed or denied In this important new volume leading sociologists systematically examine how social class operates in the United States today *Social Class* argues against the view that we are becoming a classless society The authors show instead the decisive ways social class matters from how long people live to how they raise their children to how they vote The distinguished contributors to *Social Class* examine how class works in a variety of domains including politics health education gender and the family Michael Hout shows that class membership remains an integral part of identity in the U S in two large national surveys over 97 percent of Americans when prompted identify themselves with a particular class Dalton Conley identifies an intangible but crucial source of class difference that he calls the opportunity horizon children form aspirations based on what they have seen is possible The best predictor of earning a college degree isn't race income or even parental occupation it is rather the level of education that one's parents achieved Annette Lareau and Elliot Weininger find that parental involvement in the college application process which significantly contributes to student success is overwhelmingly a middle class phenomenon David Grusky and Kim Weeden introduce a new model for measuring inequality that allows researchers to assess not just the extent of inequality but also whether it is taking on a more polarized class based form John Goldthorpe and Michelle Jackson examine the academic careers of students in three social classes and find that poorly performing students from high status families do much better in many instances than talented students from less advantaged families Erik Olin Wright critically assesses the emphasis on individual life chances in many studies of class and calls for a more structural conception of class In an epilogue journalists Ray Suarez Janny Scott and Roger Hodge reflect on the media's failure to report hardening class lines in the United States even when images on the nightly news such as those involving health crime or immigration are profoundly shaped by issues of class Until now class scholarship has been highly specialized with researchers working on only one part of a larger puzzle *Social Class* gathers the most current research in one volume and persuasively illustrates that class remains a powerful force in American society **Creating Wealth and Poverty in Postsocialist China** Deborah Davis, Feng Wang, 2009 Presents an up to date look at the social processes and consequences of China's rapid economic growth *Sociological Abstracts* Leo P. Chall, 2003 CSA Sociological Abstracts abstracts and indexes the international literature in sociology and related disciplines in the social and behavioral sciences The database provides abstracts of journal articles and citations to book reviews drawn from over 1 800 serials publications and also provides abstracts of books book chapters dissertations and conference papers [Decolonizing Applied Linguistics Research in Latin America](#) Harold Castañeda-Peña, Paola Gamboa, Claire Kramsch, 2023-09-29 This collection explores the critical decolonial practices of applied linguistics researchers from Latin America and the Latin American diaspora shedding light on the processes of epistemological decolonization and moving from a monolingual to a

multilingual stance The volume brings together participants from an AILA 2021 symposium in which researchers reflected on applied linguistics in Latin America and on the ways in which it brought concerns around social justice the legacy of coloniality and the role of monolingual English in education to the fore Each chapter is composed of four parts an autobiographical section written both in Spanish or Portuguese and in English followed by a reflection on the epistemological differences between versions a discussion in English of the research project a critical reflection on the epistemic practices and critical pedagogies enacted in the project and the author s understanding of the concept of decolonization and recommendations for further decolonizing the monolingual mindset of language teachers and learners At once linguistic epistemological and political the collection aims to diversify the concept of decoloniality itself and showcase other ways in which decolonial thought can be implemented in language education This book will be of interest to scholars in applied linguistics sociolinguistics and language education

Young People, Class and Place Robert MacDonald, Tracy Shildrick, Shane Blackman, 2013-10-18 Under the weight of apparently growing consumer affluence globalisation and post modern social theory many have proclaimed the declining significance of social class and place to young people s lives and for social science Drawing upon new empirically grounded theoretically innovative studies this volume begs to differ It argues that the youth phase provides a privileged vantage point from which to interrogate and think about broader processes of social change and social continuity These themes are addressed by all the diverse contributions gathered here The chapters include investigation of the problems of growing up in gang neighbourhoods and young people s use of space for leisure new patterns of class formation and youth transition in Eastern Europe the effects of classed labels and identities such as chav and charver in youth culture and schooling the changing meanings of class and place for young women in changing socio economic landscapes new patterns of youth culture and transition among Black young men in East London and how we think and theorise about change and continuity in youth studies Together these new empirical studies and critical theoretical analyses confirm the continuing central importance of class and place in shaping the opportunities transitions sub cultures and life styles of young people This book was based on a special issue of Journal of Youth Studies

Public Sociology John Germov, Marilyn Poole, 2023-05-12 Public Sociology highlights the relevance of sociological perspectives to Australian social life and encourages students to apply a sociological gaze to their own lives and the communities in which they live This fully revised and updated fifth edition adds new chapters and material on a wide range of contemporary issues from the COVID 19 pandemic and fake news to Indigenous issues and the Black Lives Matter BLM movement Public Sociology presents a wide range of topics in a user friendly and accessible way introducing key theories and research methods and exploring core themes including youth families and intimate relationships class and inequality and race and ethnic relations All chapters have been extensively revised to bring them up to date in a fast changing social world reflecting the latest sociological debates in response to changing lifestyles and evolving political landscapes In addition to

updated statistics and research findings an expanded glossary and the latest citations to the scholarly literature each chapter includes numerous learning features for students and instructors including definitions of key terms concise summaries of main points discussion questions and guides to further reading and additional resources This is the essential sociological reference to help students in the social sciences make sense of a complex and challenging world New to the Fifth Edition New chapters on the COVID 19 pandemic Indigenous issues youth and identity and sport Exploration of the latest social issues including the pandemic BLM expanded discussion of gender MeToo LGBTIQ and intersectionality rising inequality and the post truth age All chapters thoroughly revised and updated with the latest research Updated design images and chapter opening vignettes to engage the reader *The Political Sociology of the Welfare State* Edited by Stefan Svallfors,2007-06-13 A comparative analysis of the political attitudes values aspirations and identities of citizens in advanced industrial societies this book focusses on the different ways in which social policies and national politics affect personal opinions on justice political responsibility and the overall trustworthiness of politicians On the Edge of Commitment Stephen Lawrence Morgan,2005 This book offers a new model of educational achievement to explain why some students are committed to preparation for college **Reshaping Gender and Class in Rural Spaces** Belinda Leach,2016-04-08 Leach and Pini bring together empirical and theoretical studies that consider the intersections of class gender and rurality Each chapter engages with current debates on these concepts to explore them in the context of contemporary social and economic transformations in which global processes that reconstitute gender and class interconnect with and take shape in a particular form of locality the rural The book is innovative in that it responds to calls for more critical work on the rural other contributes to scholarship on gender and rurality but does so through the lens of class This book places the question of gender rurality and difference at its centre through its focus on class addresses the urban bias of much class scholarship as well as the lack of gender analysis in much rural and class academic work focuses on the ways that class mediates the construction and practices of rural men masculinities and rural women femininities challenges prevalent and divergent assumptions with chapters utilising contemporary theorisations of class With the empirical strongly grounded in theory this book will appeal to scholars working in the fields of gender rurality identity and class studies Social Problems Anna Leon-Guerrero,2010-09-16 With an engaging writing style that has made it a popular choice at both 2 and 4 year schools the Third Edition of Anna Leon Guerrero s *Social Problems* textbook clearly presents contemporary social problems and addresses their consequences while emphasizing community involvement by both individuals and groups to achieve real solutions With an overarching focus on social inequalities this proven text provides a platform for discussion that encourages critical thinking through compelling illustrations boxed features learning checks discussion questions and online learning tools all designed to inspire hope rather than simply present a disheartening parade of maladies *Making the Transition* Irena Kogan,Clemens Noelke,Michael Gebel,2011-10-11 After the breakdown of socialism in Central and Eastern Europe the

role of education systems in preparing students for the real world changed Though young people were freed from coercive state institutions the shift to capitalism made the transition from school to work much more precarious and increased inequality in early career outcomes This volume provides the first large scale analysis of the impact social transformation has had on young people in their transition from school to work in Central and Eastern European countries Written by local experts the book examines the process for those entering the workforce under socialism during the turbulent transformation years in the early 2000s and today It considers both the risks and opportunities that have emerged and reveals how they are distributed across social groups Only by studying these changes can we better understand the long term impact of socialism and post socialist transformation on the problems young people in this part of the world are facing today **Gender Equality** Janet C. Gornick, Marcia K. Meyers, 2020-05-05 In the labor market and workplace anti discrimination rules affirmative action policies and pay equity procedures exercise a direct effect on gender relations But what can be done to influence the ways that men and women allocate tasks and responsibilities at home In Gender Equality Volume VI in the Real Utopias series social scientists Janet C Gornick and Marcia K Meyers propose a set of policies paid family leave provisions working time regulations and early childhood education and care designed to foster more egalitarian family divisions of labor by strengthening men s ties at home and women s attachment to paid work Their policy proposal is followed by a series of commentaries both critical and supportive from a group of distinguished scholars and a concluding essay in which Gornick and Meyers respond to a debate that is a timely and valuable contribution to egalitarian politics *Forthcoming Books* Rose Arny, 2001-08
