**Fictive Theories** S. McManus, 2005-06-03 Fictive Theories is a significant and innovative intervention in key debates in political theory concerning the ways theory should be philosophically grounded and the task that political theory should set itself Susan McManus argues that political theory has been grounded in controlling fictions from fictions of human nature to morals laws that function to close possibility Starting by interrogating the often hidden work of fictions in political theories she argues that all theorizing is a form of world creating Rather than hiding the fictions at work in political theory McManus argues that theory should become self consciously fictive and that there are political and ethical advantages to so doing She then develops a uniquely deconstructive and utopian understanding of the project of political theory grounded in the fictive a creative and future oriented imagination Rather than seeking to provide blueprints of how a polity should be organized fictive theories seek to fabricate futures through the anticipatory articulation of possibility Drawing on a rich range of thinkers from the traditions of political theory Hobbes Rousseau Kant deconstructive theory Roland Barthes Jacques Derrida and utopian studies Ernst Bloch this book will be of interest to researchers teachers and students in the fields of political theory utopian studies literary theory and cultural studies

**Under Weber's Shadow** Keith Breen, 2016-02-17 Under Weber's Shadow presents an extended critical evaluation of the social and political thought of Jürgen Habermas Hannah Arendt and Alasdair MacIntyre Although hailing from very different philosophical traditions these theorists all take as their starting point Max Weber's seminal diagnosis of late modernity the view that the world historic processes of rationalization and disenchantment are paradoxical in promising freedom yet threatening servitude under the iron cage of instrumental reason However each rejects his pessimistic understanding of the grounds and possibilities of political life accusing him of complicity in the very realities he sought to

resist Seeking to move beyond Weber's monological view of the self his subjectivism and his identification of the political with domination they offer alternative intersubjective conceptions of the subject ethics and politics that allow for positive future possibilities But this incontrovertible gain it is argued comes at the cost of depoliticizing key arenas of human endeavour and of neglecting the reality of struggle and contestation Engaging with important current debates and literature Keith Breen provides a rigorous analysis of the work of Habermas Arendt MacIntyre and Weber and a highly accessible and original intervention within contemporary social and political thought Under Weber's Shadow will therefore be of interest to students and researchers alike within the areas of social and political theory as well as those within the disciplines of ethics sociology and philosophy

Hegel and theories of recognition the theme of social hope and contemporary discussions of rights and power     *Pluralism and the Pragmatic Turn* William Rehg, James Bohman, 2001-09-04 The essays in this volume reflect on and expand Frankfurt School critical theory as reformulated after World War II by Karl Otto Apel Jürgen Habermas and others Frankfurt School critical theory since the pragmatic turn has become a richer source of critical analysis that is at the same time socially and politically more effective The essays are dedicated to Thomas McCarthy who has done perhaps more than any other scholar to introduce English speaking audiences to contemporary German critical theory The book is organized into three parts Part one deals with social theory and the rational basis of communication including basic issues raised by the pragmatic turn Part two examines conceptions of autonomy and the self Part three deals with political theory focusing on problems stemming from sociocultural pluralism Together the essays provide an overview of the latest developments in Frankfurt School critical theory as it responds to the challenges of pragmatism and social pluralism     Justice Beyond Borders Simon Caney, 2006-07-20 This text examines which political principles should govern global politics exploring the ethical issues that arise at the global level and addressing questions such as are there universal values Is national self determination defensible And when if ever may political regimes wage war     Cosmopolitanism Francesco Ghia, Lorena Cebolla Sanahuja, 2015-11-25 Cosmopolitanism is the idea of humanity as a single community or polis Beyond particularities all human beings and in some versions of cosmopolitanism certain non humans are part of a community and have responsibilities rights and the power to decide on a common future Ideas of cosmopolitan vary from the purely moral to cultural social legal institutional political educational and economic cosmopolitanism or combine some or all of these facets All of these different perspectives try to establish the basis necessary to create a true cosmopolitanism This book provides an introduction to the ideality and reality of cosmopolitanism presenting it in genesis and giving a point of departure to students and readers of cosmopolitanism from which to analyse its various contemporary versions and proposals providing an additional tool for their thinking and judgments in the face of a huge amount of literature today It also offers a sense of emergency to those matters requiring a prompt legal political and economic response for the continuing existence of the planet and for cosmopolitanism to continue as a viable proposal for humanity As such this volume will ultimately provoke the reader into a new spirit and action that of cosmopolitanism     **Justice as Equality** Anna Kasafi Perkins, 2010 Justice as Equality makes a unique contribution to the philosophical and intellectual tradition of the English speaking Caribbean by exploring the theory of justice underpinning the life work and writings of former Prime Minister of Jamaica and renowned Third World Statesman the late Michael Manley 1924 1997 Manley s singular Caribbean vision of justice was forged in a post colonial context that he described as being too radically disfigured by inequalities to be improved by mere tinkering This book posits that equality has become unfashionable in social analysis and contemporary politics in part due to the increased significance of values such as identity diversity and difference in tandem with a misunderstanding of the concept of equality It argues for a reclaiming of a multi faceted and

complex way of understanding equality in light of Manley's thought. Through an engagement with the norms of justice developed within the Catholic social teaching tradition, this book examines, clarifies, and deepens Manley's Caribbean account of justice as equality. Manley's theory is a deeply relational theory of justice and equality that roots fundamental human equality in the relationship to divine transcendence. It calls for the dismantling of all relationships of oppression and domination that result when the fundamental equality of all human beings is disregarded. It takes account of the multiple dimensions of the human person and calls a society just when it allows for the flourishing of every member specifically through full participation in the life of the society.

**Contemporary Political Thought** Alan Finlayson, 2003-09. Contemporary Political Theory is a foundation textbook in political thought.

*After the Nation?* K. Breen, S. O'Neill, 2010-10-20. Explores the ways in which the nation state and nationalism are challenged by contemporary realities. This volume addresses changes to our understanding of national sovereignty problems posed by violent conflict between rival national projects, the feasibility of postnationalist democracy and citizenship, and the debate over global justice.

**The Norman Geras Reader** Ben Cohen, Eve Garrard, 2017-07-21. This is the first book to gather the key writings of the distinguished political theorist Norman Geras into a single volume, providing a comprehensive overview of the thinking of one of the most important Marxist philosophers in the post-war era. Among the essays included here are 'The Controversy about Marx and Justice', 'The Duty to Bring Aid', Primo Levi and Jean Améry, 'Shame and the contentious Euston Manifesto', which lays down a set of central principles for the democratic left in the twenty-first century. The reader is rounded out with several posts from Geras's much-loved and widely read Normblog, as well as companion essays by Alan Johnson and Terry Glavin, which explore how Geras's philosophical concerns led to his more recent trenchant critiques of the direction of left-wing politics.

**Consociational Theory** Rupert Taylor, 2009-03-20. Consociational power sharing is increasingly gaining ground right around the world as a means for resolving political conflict in divided societies. In this volume, edited by Rupert Taylor, nineteen internationally respected scholars engage in a lively debate about the merits of the theory underlying this approach. The volume focuses specifically on one of the leading cases under the global spotlight: the Northern Ireland conflict, and brings together the most prominent proponents and opponents of consociationalism. Northern Ireland's transition from war to peace is seen by consociationalists as flowing from the historic Belfast Agreement of 1998 and specifically from the Agreement's consociational framework. The Northern Ireland case is marketed by consociationalists as representing best practice and as providing a template for ending conflicts in other parts of the world. However, as this volume interrogates on what grounds and to what extent such a positive reading can be upheld. Taken as a whole, this volume, structured as a symposium around the highly influential argument of John McGarry and Brendan O'Leary, offers comparative, engaging, and critical insight into how political theory can contribute to the creation of a better world. Consociational Theory is an important text for anyone with an interest in political theory, conflict resolution in divided societies, or Irish politics.

Alain Gagnon, James Tully, 2001-07-30 In this book political scientists provide a collaborative study of multinational democracies and the difficulties in governing them

**Rethinking Liberalism** Richard Bellamy, 2005-03-15 This book explores liberalism's past and present transformations and proposes a prospective future as a neo republican democratic liberalism Bellamy engages with theorists of liberalism from J S Mill through T H Green Guido De Ruggiero Carl Schmitt and Joseph Schumpeter to F A Hayek John Rawls and Michael Walzer He contends that the pluralism and complexity of modern societies have undermined liberalism's communitarian and ethical assumptions Studies of the Poll Tax fiasco in Britain and of the constitutional dilemmas posed by the European Union confirm the contemporary inadequacies of traditional conceptions of liberal democracy Drawing on Max Weber Bellamy advocates a return to a Machiavellian approach to politics to resolve the clashes resulting from competing values within complex situations Unlike Weber however he concentrates on the republican and democratic aspects of Machiavelli's thought He proposes a republican strategy whereby the political dispersal of power constrains any ideal or interest from dominating another Instead everyone must seek mutually acceptable compromises The essays in *Rethinking Liberalism* map a passage from the liberal democratic norms and forms characteristic of nineteenth century nation states to an agnostic democratic liberal politics suitable for the transnational and plural societies of the new millennium

Political Science Revitalized Michael Haas, 2017-07-28 Political science has been described as a jigsaw puzzle with many specializations and subfields that do not talk to one another This book offers a solution that will

advance the field from mid level theory to engage in cross fertilization through metatheoretical paradigms The book begins with a history of political science from the nineteenth century to the present followed by a paradigmatic history of political science including 6 metatheories in the pre behavioral era 12 in the behavioral era and the 4 major and several minor paradigms being developed today The book advances the goal of David Easton by proposing a neobehavioral political science including multimethodological innovations cross testing of paradigms and tenets of a new political science that can rise to become a truly theoretical science Each paradigm is diagramed to demonstrate the key concepts and their causal interconnections Political Science Revitalized Filling the Jigsaw Puzzle with Paradigms poses an exciting and provocative argument for the future of the vast field of political science
