Petre Tutea Alexandru Popescu,2018-01-16 Petre Tutea 1902-91 was one of the outstanding Christian dissident intellectuals of the Communist era in Eastern Europe Revered as a saint by some he spent thirteen years as a prisoner of conscience and twenty eight years under house arrest at the hands of the Securitate This book explores his unique response to the horrors of torture and re education and reveals the experience of a whole generation detained in the political prisons Tutea's understanding of human needs and how they can be fulfilled even amidst extreme adversity not only reflects huge learning and great brilliance of mind but also offers a spiritual vision grounded in personal experience of the Romanian Gulag Following the fall of the Ceausescus he has begun to emerge as a significant contributor to ecumenical Christian discourse and to understanding of wider issues of truth and reconciliation in the contemporary world As Tutea's pupil and scribe for twelve years as a psychiatrist and as a theologian Alexandru Popescu is uniquely placed to present the work of this twentieth century Confessor of the faith Drawing on bibliographical sources which include unpublished or censored manuscripts and personal conversations with Tutea and with other prisoners of conscience in Romania Popescu presents extensive translations of Tutea which make his thought accessible to the English speaking reader for the first time Through his stature as a human being and his authority as a thinker Petre Tutea challenges us to question many of our assumptions The choice he presents between sacrifice and moral suicide focuses us on the very essence of religion and human personhood Resisting any ultimate separation of theology and spirituality his work affirms hope and love as the sole ground upon which truth can be based At the same time hope and love are not mere ideal emotions but are known and lived in engagement with the real world in politics economics science ecol

Biblical Interpretation in Early Christian Gospels Thomas R. Hatina,2008-08-18 The second title in a proposed five volume work volume two following on from the volume on Mark's Gospel concentrates on Matthew's Gospel Contributors consider the function of embedded scripture texts in the context of the Gospels written and read heard in their early Christian settings The project is wide ranging with essays on the function of scripture in the

compositional history of the gospels and the collection is broad in scope as a result of current interest in the integration of methods especially historical and narrative ones Advancements over the last 20 years in the study of genre and narrative criticism have left a void in the study of the function of embedded biblical texts in the Gospels This collection of essays will move the study of scripture within scripture forwards *Rudolf Otto and the Foundation of the History of Religions*

Yoshitsugu Sawai,2022-02-10 This book provides an up to date treatment of Rudolf Otto and his work placing him in the context of comparative religion theology and the philosophy of religion Yoshitsugu Sawai shows how Otto has three faces the Lutheran Theologian the Philosopher of Religion and the Comparative Religionist The book also shows how of these Otto saw himself primarily as a Lutheran Theologian and provides an account of Otto s engagement with India and the centrality that Hindu theology had on his thinking In Otto s theory of religion his well known concepts including wholly other and numinous constitute a multiple structure of meaning For example his concept of the wholly other das ganz Andere no doubt has the meaning of God in his Christian theological studies At the same time however from the perspective of comparative religion or the phenomenology of religion this same term semantically implies the ultimate reality of other religious traditions Brahman and God Isvara in Hindu religious tradition as well as God in Christianity Judge and be Judged Eric

Bain-Selbo,2006-01-01 Judge and Be Judged offers insights into moral life and moral judgment that aim to help in understanding our society s tendency towards either fundamentalism or relativism By examining the social function of shame the possibility of cross cultural understanding and obstacles to moral judgment in the classroom this book charts a path that helps to avoid both fundamentalism and relativism *Dictionary Of Modern American Philosophers* John R.

Shook,2005-05-15 The Dictionary of Modern American Philosophers includes both academic and non academic philosophers and a large number of female and minority thinkers whose work has been neglected It includes those intellectuals involved in the development of psychology pedagogy sociology anthropology education theology political science and several other fields before these disciplines came to be considered distinct from philosophy in the late nineteenth century Each entry contains a short biography of the writer an exposition and analysis of his or her doctrines and ideas a bibliography of writings and suggestions for further reading While all the major post Civil War philosophers are present the most valuable feature of this dictionary is its coverage of a huge range of less well known writers including hundreds of presently obscure thinkers In many cases the Dictionary of Modern American Philosophers offers the first scholarly treatment of the life and work of certain writers This book will be an indispensable reference work for scholars working on almost any aspect of modern American thought *Repetition and International Law* Wouter Werner,2022-02-03 An exploration of the dialectical role of repetition in international law building on insights from philosophy sociology theatre and film Divination and the Shamanic Story Michael Berman,2009-03-26 Stories have traditionally been classified as epics myths sagas legends folk tales fairy tales parables or fables However the definitions of the terms have a tendency to overlap making it difficult to classify

and categorize material For this reason a case can be made for the introduction of a new genre termed the shamanic story a story that has either been based on or inspired by a shamanic journey a numinous experience in non ordinary reality or one that contains a number of the elements typical of such a journey Other characteristics include the way in which the stories all tend to contain embedded texts often the account of the shamanic journey itself how the number of actors is clearly limited as one would expect in subjective accounts of what can be regarded as inner journeys and how the stories tend to be used for healing purposes Within this new genre it is proposed that there exists a sub genre shamanic stories that deal specifically with divination and examples are presented and analysed to support this hypothesis By means of textual analysis it can be shown they all share certain attributes in common the identification of which forms the conclusion of the work **Samādhī** Stuart Ray Sarbacker, 2012-02-01 A historical and comparative study grounded in close readings of important works this book explores the dynamics of the theory and practice of yoga in Hindu and Buddhist contexts Author Stuart Ray Sarbacker explores the fascinating contrasting perceptions that meditation leads to the attainment of divine or numinous power and to complete escape from worldly existence or cessation Sarbacker demonstrates that these two dimensions of spiritual experience have affected the doctrine and cultural significance of yoga from its origins to its contemporary practice He also integrates sociological and psychological perspectives on religious experience into a larger phenomenological model to address the multifaceted nature of religious experience Speaking to a broad range of methodological and contextual issues Samadhi provides numerous insights into the theory and practice of yoga that are relevant to both scholars of religious studies and practitioners of contemporary yoga and meditation traditions *Handbook of the Psychology of Religion and Spirituality, Second Edition* Raymond F.
