Reconstructing Individualism Thomas C. Heller, Morton Sosna, David E. Wellbery, 1986 *Reconstructing Individualism* Thomas C. Heller, Morton Sosna, Christine Brooke-Rose, David E. Wellbery, 1986 Reconstructing Individualism , 1988

Commerce Before Capitalism in Europe, 1300-1600 Martha C. Howell, 2010-04-12 Later generations have sometimes found such actions perplexing often dismissing them as evidence that business people of the late medieval and early modern worlds did not fully understand market rules **Hegel's 'Individuality'** Martin Donougho, 2023-08-31 This book explores an overlooked area in Hegel studies his use of individuality Individuality Hegel joined a lively conversation from Leibniz to Romanticism and beyond about this novel concept phenomenon Successive chapters track Hegel's engagement in such texts as the *Phenomenology of Spirit*, *Encyclopedia of the Philosophical Sciences* and *Aesthetics* Hegel's system tends to follow a syllogistic logic universal particular singular but individuality departs from the norm The category enacts a certain pragmatics as against semantics or syntactics regarding tacit assumptions at work or implicit terms of address which requires active participation by a thinking subject charged with discerning individuality which bars resort to explicit rules The category reflexively implicates the user even in presuming an objective context Individuality should not be confused with individualism wholly distinct in origin Moreover Hegel's *Aesthetics* embraces a paradoxical anachronism Like art itself individuality emerged as an essentially modern category though one transferred to the past and to distant cultures **Literary Character** Elizabeth Fowler, 2018-07-05 Chaucer introduces the characters of the Knight and the Prioress in the General Prologue to *The Canterbury Tales* Beginning with these familiar figures Elizabeth Fowler develops a new method of analyzing literary character She argues that words generate human figures in our reading minds by reference to paradigmatic cultural models of the person These models such as the pilgrim the conqueror the maid the narrator originate in a variety of cultural spheres A concept Fowler terms the social person is the key to understanding both the literary details of specific characterizations and their indebtedness to history and culture Drawing on central texts of medieval and early modern England Fowler demonstrates that literary characters are created by assembling social persons from throughout culture Her perspective allows her to offer strikingly original readings of works by Chaucer Langland Skelton and Spenser and to reformulate and resolve several classic interpretive problems In so doing she reframes accepted notions of the process and the consequences of reading Developing insights from law theology economic thought and political philosophy Fowler's book replaces the traditional view of characters as autonomous individuals with an interpretive approach in which each character is seen as a battle of many archetypes According to Fowler the social person provides the template that enables authors to portray and readers to recognize the highly complex human figures that literature requires Making All the Difference Martha Minow, 2016-10-01 Should a court order medical treatment for a severely disabled newborn in the face of the parents' refusal to authorize it How does the law apply to a neighborhood that objects to a group home for developmentally disabled people Does equality mean

treating everyone the same even if such treatment affects some people adversely Does a state requirement of employee maternity leave serve or violate the commitment to gender equality Martha Minow takes a hard look at the way our legal system functions in dealing with people on the basis of race gender age ethnicity religion and disability Minow confronts a variety of dilemmas of difference resulting from contradictory legal strategies strategies that attempt to correct inequalities by sometimes recognizing and sometimes ignoring differences Exploring the historical sources of ideas about difference she offers challenging alternative ways of conceiving of traits that legal and social institutions have come to regard as different She argues in effect for a constructed jurisprudence based on the ability to recognize and work with perceptible forms of difference Minow is passionately interested in the people different people whose lives are regularly mis shaped and mis directed by the legal system s ways of handling them Drawing on literary and feminist theories and the insights of anthropology and social history she identifies the unstated assumptions that tend to regenerate discrimination through the very reforms that are supposed to eliminate it Education for handicapped children conflicts between job and family responsibilities bilingual education Native American land claims these are among the concrete problems she discusses from a fresh angle of vision Minow firmly rejects the prevailing conception of the self that she believes underlies legal doctrine a self seen as either separate and autonomous or else disabled and incompetent in some way In contrast she regards the self as being realized through connection capable of shaping an identity only in relationship to other people She shifts the focus for problem solving from the different person to the relationships that construct that difference and she proposes an analysis that can turn difference from a basis of stigma and a rationale for unequal treatment into a point of human connection The meanings of many differences can change when people locate and revise their relationships to difference she asserts The student in a wheelchair becomes less different when the building designed without him in mind is altered to permit his access Her book evaluates contemporary legal theories and reformulates legal rights for women children persons with disabilities and others historically identified as different Here is a powerful voice for change speaking to issues that permeate our daily lives and form a central part of the work of law By illuminating the many ways in which people differ from one another this book shows how lawyers political theorist teachers parents students every one of us can make all the difference

Anthropology and Autobiography Judith Okely, Helen Callaway, 1992-07-02 Anthropological writings by anthropologists in the field have long been a valuable tool to the profession But until now the theoretical implications of its use have not been fully explored Anthropology and Autobiography provides unique insights into the fieldwork autobiographical materials and or textual critiques of anthropologists many of whose ethnographies are already familiar It considers the role of the anthropologist as fieldworker and writer examining the ways in which nationality age gender and personal history influence the anthropologist s behavior towards the individuals he is observing This volume also contributes to debates about reflexivity and the political responsibility of the anthropologist who as a participant has traditionally made

only stylized appearances in the academic text The contributors examine their work among peoples in Africa Japan the Caribbean Greece Shetland England indigenous Australia Indonesia and Sri Lanka Autobiography is developed alongside political intellectual and historical changes The anthropologists confront and examine issues of racism reciprocity and friendships Anthropology and Autobiography will appeal to anthropologists and social scientists interested in ethnographic approaches the self reflexivity qualitative methodology and the production of texts **Grace, Talent, and Merit** Anthony J. La Vopa, 2002-06-27 Poor students experienced a kind of upward mobility that was not uncommon in old regime Europe They were also objects of controversy and as such they reveal the many dimensions of the issue of opening careers to talent At stake were socially and politically sensitive questions about the relative importance of nature and nurture of natural talent and birth in realizing human potential about the proper reconciliation of collective imperatives and individual freedom of hierarchical stability and progress about how national systems of education should be structured about the kind and degree of upward mobility the society and the culture needed and could tolerate This 1988 book shows how a cluster of familiar eighteenth century ideas about grace talent and merit shaped a formative social experience for men whose importance is still celebrated today as well as for members of the educated elite who were and have remained obscure *Encyclopedia of Renaissance Philosophy* Marco Sgarbi, 2022-10-27 Gives accurate and reliable summaries of the current state of research It includes entries on philosophers problems terms historical periods subjects and the cultural context of Renaissance Philosophy Furthermore it covers Latin Arabic Jewish Byzantine and vernacular philosophy and includes entries on the cross fertilization of these philosophical traditions A unique feature of this encyclopedia is that it does not aim to define what Renaissance philosophy is rather simply to cover the philosophy of the period between 1300 and 1650 Self and City in the Thought of Saint Augustine Ben Holland, 2019-07-30 Self and City in the Thought of Saint Augustine explores the analogy between the self and political society in the thought of St Augustine of Hippo This analogy is an important theme in the history of political thought Attempts have been made to understand the state by examining the soul since Plato the body as in medieval theories of the body politic and the person surviving to this day in such concepts as international legal personality This book aims to reinstate the Augustinian part of the story It argues that Augustine develops three analogies between self and city as a society ordered by love self love in the case of the Earthly City divided but improving love in the Pilgrim City and love of others and of God in the City of God It supplies thereby an overview of Augustine's intellectual system as it touches upon theology psychology and anthropology as well as politics and also provides a new interpretation of Augustine's important definition of the republic **Mapping the 'I'**, 2014-11-13 In Mapping the I Research on Self Narratives in Germany and Switzerland the contributors working with egodocuments autobiographies diaries family chronicles and related texts discuss various approaches to early modern concepts of the person and of personhood the place of individuality within this context genre and practices of writing The volume documents the cooperation between the Berlin and Basel self

narrative research groups during its first phase 2000 2007 Next to addressing crucial methodological issues it also demonstrates the richness of egodocuments as historical sources in contributions concentrating for example on the body and illness on food as well as on the early modern economy group cultures and autobiographical considerations of one's own suicide Contributors include Andreas Behr Fabian Bründle Lorenz Heiligensetzer Angela Heimen Gabriele Jancke Gudrun Piller Sophie Ruppel Thomas M. Getting What You Want? Bob Brecher, 2012-10-12 Getting What You Want is the first book which calls for the collapse of liberal morality Bob Brecher claims that it is wrong to think that morality is simply rooted in what people want He explains that in our consumerist society we make the assumption that getting what people want is our natural goal and that this natural goal is a necessarily good one We see that whether it is a matter of pornography or getting married if people want it then that's that But is this really a good thing Getting What You Want offers a critique of liberal morality and an analysis of its understanding of the individual as a wanting thing Brecher boldly argues that the Anglo American liberalism cannot give an adequate account of moral reasoning and action nor any justification of moral principles or demands Ultimately Brecher shows us that the whole idea of liberal morality is not only incoherent but unattainable Getting what You Want? Robert Brecher, 1997 Getting What You Want offers a critique of liberal morality and an analysis of its understanding of the individual as a wanting thing

The Origins of the Individualist Self Michael Mascuch, 2013-06-28 This book traces the emergence of the concept of self identity in modern Western culture as it was both reflected in and advanced by the development of autobiographical practice in early modern England It offers a fresh and illuminating appraisal of the nature of autobiographical narrative in general and of the early modern forms of biography diary and autobiography in particular The result is a significant and original contribution to the history of individualism Michael Mascuch argues that the definitive characteristic of individualist self identity is the personal capacity to produce a unified retrospective autobiographical narrative and he stresses that this capacity was first demonstrated in England during the last decade of the eighteenth century He examines the long term process of innovation in written discourse leading up to this event from the first use of blank almanacs and common place books by the pious in the

late sixteenth century through the popular criminal biographies of the late seventeenth century to the printed for the author scandalous memoirs of the mid eighteenth century While offering a detailed account of a significant period in the rise of a modern literary genre *Origins of the Individualist Self* also addresses topics which are central in the fields of literary and cultural theory and social and cultural history

Singular Texts/plural Authors Lisa S. Ede, Andrea A. Lunsford, 1992 Why write together the authors ask They answer that question here in the first book to combine theoretical and historical explorations with actual research on collaborative and group writing Lisa Ede and Andrea Lunsford challenge the assumption that writing is a solitary act That challenge is grounded in their own personal experience as long term collaborators and in their extensive research including a three stage study of collaborative writing supported by the Fund for the Improvement of Post Secondary Education The authors urge a fundamental change in our institutions to accommodate collaboration by radically resituating power in the classroom and by instituting rewards for collaborative work that equal rewards for single authored work They conclude with the injunction Today and in the twenty first century our data suggest writers must be able to work together They must in short be able to collaborate

This reader highlights salient concerns in contemporary feminist scholarship and the advances feminist philosophers have made. Each article is prefaced with a short introduction by the editor placing it in context, highlighting the principle issues and the conclusions reached. Students will find these headnotes helpful when tackling the challenging theoretical issues addressed. Representing a spectrum of feminist thinking, *Feminist Social Thought* is organized around seven topics: constructions of gender, theorizing diversity, figurations of women, subjectivity, agency, and feminist critique, social identity, solidarity and political engagement, care and its critics, and women, equality and justice. Students will be exposed to a wide variety of feminist philosophy and encouraged to think critically about challenging questions around pivotal subjects including: How are gender norms instilled, enforced, and perpetuated? What are the relationships between gender and other socially demarcated positions such as race, class, and sexual orientation? What resources do women have at their disposal for recognizing their subordination and resisting it? What goals should feminist politics pursue? How can social and legal equality be reconciled with difference?
