accompanied or sustained the development of normative orders and divergent conceptions of law both in relation to individual states and to Europe as a whole The same applies to the field of literature language and aesthetics numerous myths and ideologies have shaped today s understanding of Europe and still support it today This volume examines how such processes were legally structured and literarily addressed criticized and complemented Its interdisciplinary perspective and open and dynamic both dialogical and dialectical format intends to replicate the fragmented sometimes conflicting but always productive mosaic of voices ideas and concepts that have constituted and still constitute Europe whether in the past present or future Instead of resolving any of the complexities and contradictions that frame discussions on law literature and Europe it aims to induce further engagement and confrontations with new and alternative visions of Europe     The EU Recovery Strategy Silvia Rainone,Philippe Pochet,2022     *Affordable Rental Housing: Making It Part of Europe's Recovery* Khalid ElFayoumi,Ms. Izabela Karpowicz,Ms. Jenny Lee,Ms. Marina Marinkov,Ms. Aiko Mineshima,Jorge Salas,Andreas Tudyka,Ms. Andrea Schaechter,2021-05-24 Many European economies have faced pressure from rental housing affordability that has widened social and economic divergence While significant country and regional differences exist this departmental paper finds that in many advanced European economies a large and rising share of low income renters the young and those living in cities is overburdened In several locations middle income groups also increasingly face rental affordability issues     Globalization, Income Distribution and Sustainable Development Ramesh Chandra Das,2022-05-25 Globalization Income Distribution and Sustainable Development A theoretical and empirical investigation focuses on the impact of globalization on income distribution in a wider perspective and exploring the impact of globalization on sustainable development in a range of countries across the globe     OECD Economic Surveys: European Union 2021 OECD,2021-09-10 The COVID 19 pandemic plunged the EU into its worst ever recession and risks increasing inequalities notably between regions Thanks to a bold and innovative policy response including a common instrument to finance national recovery plans Next Generation EU growth is rebounding but ambitious reforms will be essential to heal the scars of the pandemic and succeed in the green and digital transitions     **Green Finance Strategies for Post-COVID-19 Economic Recovery in Southeast Asia** Asian Development Bank,2020-10-01 The coronavirus disease COVID 19 pandemic has seen governments across developing Asia move significant amounts of capital into relief efforts that have saved countless lives and livelihoods But emerging economic recovery packages must not upset the sensitive balance between economic growth and the region s natural capital Many global thinkers are advocating the critical role of green infrastructure in supporting economic growth and livelihoods while safeguarding the Paris Agreement targets This publication examines green and innovative finance mechanisms that can be incorporated into government recovery strategies to incentivize green infrastructure investment These mechanisms can play a key role in catalyzing much needed funds from private capital for a green and sustainable regional recovery     **Governing Social Inclusion** Kenneth A. Armstrong,2010-08-19 In May 1997 European leaders met in Amsterdam to agree a further

round of revisions to the founding Treaties of the European Union Embedded within its new social policy provisions was an objective for the EU and the Member States to combat social exclusion By 2000 a new governance technique the Open Method of Co ordination had emerged as the means of taking forward this objective utilising a combination of EU level objective setting and decentralised policy making May 1997 also saw a new Labour government sweep to power promising constitutional change including devolution of powers to Scotland Wales and Northern Ireland and pledging to tackle poverty and social exclusion Strategies to tackle social exclusion are now conducted in a multi level context On the one hand the EU is seeking to steer national systems through the open method of co ordination On the other hand in the United Kingdom it is not only central government policies that aim to tackle social exclusion but also the devolved administrations and local government It is not only the levels of governance that have changed but also the techniques and the actors involved New forms of partnership have emerged at EU national and sub national levels between governmental and non governmental organisations All of which raises challenges to orthodox democratic constitutionalism and possibilities for democratic experimentalism In all of this law and in particular European Union law seems to have been decentred in favour of new normalising practices associated with social indicators and the mapping of exclusion By exploring this changing governance context the book addresses the impact of new modes of governance on the conduct of social inclusion strategies in the EU and UK

studies Its aim is to set alarm bells ringing across Europe with its revealing insights into our increasingly troubled future Giles Merritt argues that the steepness and suddenness of Europe's decline in the Asian century will depend on the actions we Europeans undertake And there are two key lessons that we need to face from the beginning Firstly the good times aren't coming back without a massive effort on our part And secondly in a fast developing world of 9 10 billion people no single European country can survive and prosper on its own Merritt sets out to sort fact from fiction in his analysis of Europe's weaknesses and the policies needed to address them Placing the outlook for Europe in its global context he assesses Europe's decline in relative as well as absolute terms and puts forward an ambitious but realistic to do list for Europe's policymakers if our comparatively privileged life styles are not to be seriously threatened in the coming years In the wake of Brexit this is a hard hitting warning that unless Europeans shake themselves awake their future will be increasingly gloomy Anyone who believes that the economic crisis that began in 2008 is just a blip will find this book a salutary lesson in the reality of Europe's position
