Recovery From Alcoholism A Social Treatment Model:

Recovery from Alcoholism ,1973 *Recovery from Alcoholism* ,1973 The Politics of Alcoholism Carolyn

Wiener,2023-04-14 The Politics of Alcoholism can be read on one level as a fascinating history of the evolving politics of what this country is doing about the problem of alcoholism Not so long ago that problem was scarcely larger than a human hand against the horizon but now it makes good regular newspaper copy This text follows through on the much raised question of how a social problem becomes defined as a large scale problem when the same phenomenon x Preface now labeled as a problem was not so named before What is offered here is a direct attack on the rise into public visibility of something previously the concern of a relatively small number of people and groups and which gets defined along the way as a problem for the whole nation The second issue addressed is closer to the political scientist s traditional interest namely the politics of handling public issues research and theorizing here usually focus on interest groups lobbying public debate legislative rights constituencies and so on *Research Grants Index* National Institutes of Health (U.S.). Division of Research Grants,1972

Broadening the Base of Treatment for Alcohol Problems Institute of Medicine,Committee on Treatment of Alcohol Problems,1990-02-01 In this congressionally mandated study an expert committee of the Institute of Medicine takes a close look at where treatment for people with alcohol problems seems to be headed and provides its best advice on how to get there Careful consideration is given to how the creative growth of treatment can best be encouraged while keeping costs within reasonable limits Particular attention is devoted to the importance of developing therapeutic approaches that are sensitive to the special needs of the many diverse groups represented among those who have developed problems related to their use of man s oldest friend and oldest enemy This book is the most comprehensive examination of alcohol treatment to date **Theory and Practice in Clinical Social Work** Jerrold R. Brandell,1997-02 Following an overview of the principal frameworks for clinical practice including systems theory behavioral and cognitive theories and psychoanalytic theory the book goes on to present the major social crises and new populations the social worker confronts each day Theory and Practice in Clinical Social Work includes twenty four original chapters by leading social work scholars and master clinicians who represent the widest variety of clinical orientations and specializations **Research Awards Index** , *Recent Developments in Alcoholism* Marc Galanter,2013-11-11 From the President of the Research Society on Alcoholism The field of alcohol research has been slowly but continuously evolving taking into its domain an ever increasing array of scientific disciplines This series is designed to fill the need for a review publication that covers the broad range of research into alcohol actions and alcoholism Research in alcohol concerns social epidemiological and legal concerns in addition to biomedical and behavioral topics to greater degree than research with many other drugs A publication devoted to alcohol research should serve the broadest existing research community but perhaps more important it should also provide a means to recruit new investigators with fresh approaches to the field We can and must demonstrate that legitimate high quality research is being

done but we must also highlight the opportunity for new workers to make a real impact on the problem The Research Society on Alcoholism seeks to provide such a service not only through this publication but also through other activities Richard A Deitrich Ph D **Planning for Alcohol and Other Drug Abuse Treatment for Adults in the Criminal Justice System** Sandra Clunies,1999 A Treatment Improvement Protocol prepared to facilitate the transfer of state of the art protocols and guidelines for the treatment of alcohol and other drug AOD abuse from acknowledged clinical research and administrative experts to the Nation s AOD abuse treatment resources Includes the effectiveness of AOD treatment in the criminal justice system the AOD involved offender the criminal justice continuum the AOD abuse treatment system collaboration between systems coordinated training confidentiality issues and evaluation Bibliography CSAT criminal justice treatment planning chart Sample interagency agreement Alcoholism Marc Galanter,2008-04-08 From the President of the Research Society on Alcoholism On behalf of the Research Society on Alcoholism I welcome the important contribution that Volume 15 of this excellent series on Recent Developments in Alcoholism brings to our field It is not enough for our scientists to develop effective and efficient methods to identify and treat alcohol abuse and alcohol dependence the availability of these services is often limited and it is certainly nonexistent for the early problem drinker In nineteen outstanding chapters Volume 15 deals with organizational issues concerning access to and delivery of substance abuse treatment and the role of managed care Several chapters deal with economic issues cost benefits and financing of these services Lastly five address recent treatment outcome studies Thus this volume will be of great value to both scientists and practitioners The Editor and Associate Editors are congratulated for this conceptual and organizational accomplishment Yedy Israel Ph D *Encyclopedia of Social Work* ,1965 Social Work and Social Welfare Marla Berg-Weger,2010 Like the first edition of Social Work and Social Welfare An Invitation this edition introduces students to the knowledge skills and values that are essential for working with individuals families groups organizations and communities in a variety of practice settings With updated demographic statistical legislative policy and research information sensitive discussions of contemporary ethical issues and new first person narratives from social workers in a variety of fields the second edition provides an up to date profile of the world in which today s social workers practice At www.routledgesw.com intro you will find a wealth of resources to help you create a dynamic experiential introduction to social work for your students **Strengths-Based Approaches to Crime and Substance Use** David Best,Charlotte Colman,2019-09-30 Although there is a strong and growing literature in the two areas of desistance and addiction recovery they have developed along parallel pathways with little systematic assessment of the empirical evidence about the co occurrence of the relationship or how one area can learn from the other This book aims to fill that gap by bringing together emerging literature on the relationship between offending and substance use Instead of focusing on the active period of its onset and persistence this book examines the mechanisms that support desistance addiction recovery and the common themes of reintegration and rehabilitation With contributions from a wide range of

international experts in the fields of desistance and addiction recovery the book focuses on a strengths based relational and community focused approach to long term change in offending and drug using populations as well as the shared barriers to effective reintegration for both This book will be highly informative for a wide audience from academics and students interested in studying desistance and recovery to those working in addiction services and the criminal justice system as well as policy makers and the people undertaking their own journeys to desistance and recovery

The Architecture of Desistance Stephen Farrall, 2019-06-06 The volume of studies into desistance has grown dramatically in recent years Much of this research has focused on the internal dynamics of desistance such as decision making choice and restraint Bringing together leading figures and drawing upon case studies from around the world this book seeks to fill a vacuum in the contemporary literature on desistance by considering processes and practices at a societal level that influence how and why people desist from crime Beginning with an outline of what is known about how social cultural and economic structures shape desistance from crime this book proceeds to explore studies of desistance in countries such as the UK Brazil France Israel Ireland Sweden and Chile These studies touch on variations by ethnicity the nature of the criminal justice system economic cycles gender religious belief systems and the use of time and space Policy matters relating to desistance such as the rehabilitation and supervision of former offenders are also explored This book will be invaluable reading to students and scholars of criminology sociology and social studies engaged in studies of desistance criminology criminal justice victimology penology and probation
