Bibliographie de la France, ou Journal général de l'imprimerie et de la librairie ,1927 *Grotius and Law* Larry May,Emily McGill,2017-07-05 The essays collected for this volume represent the best scholarly literature on Hugo Grotius

available in the English language In the English speaking world Grotius is not as well known as his fellow 17th century political philosophers Thomas Hobbes or John Locke but in legal theory Grotius is at least as important Even on central political concepts such as liberty and property Grotius has important views that should be explored by anyone working in legal and political philosophy And Grotius s work especially *De Jure Belli ac Pacis* is much more important in international law and the laws of war than anyone else s work in the 17th or 18th centuries This volume is therefore useful not only to Grotius scholars but also to anyone interested in historical and modern debates on key issues in political and legal philosophy more broadly and international law in particular **Labor in the League System** Francis Graham Wilson,1934

Participants in the International Legal System Jean d'Aspremont,2011-04-20 The international legal system has weathered sweeping changes over the last decade as new participants have emerged International law making and law enforcement processes have become increasingly multi layered with unprecedented numbers of non State actors including individuals insurgents multinational corporations and even terrorist groups being involved This growth in the importance of non State actors at the law making and law enforcement levels has generated a lot of new scholarly studies on the topic However while it remains uncontested that non State actors are now playing an important role on the international plane albeit in very different ways international legal scholarship has remained riddled by controversy regarding the status of these new actors in international law This collection features contributions by renowned scholars each of whom focuses on a particular theory or tradition of international law a region an institutional regime or a particular subject matter and considers how that perspective impacts on our understanding of the role and status of non State actors The book takes a critical approach as it seeks to gauge the extent to which each conception and understanding of international law is instrumental in the perception of non State actors In doing so the volume provides a wide panorama of all the contemporary legal issues arising in connection with the growing role of non state actors in international law making and international law enforcement processes *Руководство по дипломатической практике* Э. Сатой,2014-01-01 This book *Rukovodstvo po diplomaticheskoy praktike* by E Satou is a replication of a book originally published before 1961 It has been restored by human beings page by page so that you may enjoy it in a form as close to the original as possible *Revista española de derecho internacional* ,1987 *La neutralidad de Costa Rica* Héctor Gros Espiell,1986 **Publications of the Permanent Court of International Justice** Permanent Court of International Justice,1926 **Sanctions Under the Charter of the United Nations** Abram Edahnov Manell,1948 *The British Year Book of International Law* ,1946 Vol 32 covers 1955 and 1956 *The National Union Catalog, Pre-1956 Imprints* ,1968
